

Public Health Implications of Hydraulic Fracturing

Larysa Melnyk Dyrszka, MD
Public Health Advocate
SUNY Sullivan Trustee

April 13, 2011 @ 4:00 PM • 2231 Weiskotten Hall • Irving Ave.

Sponsored by the Office of CME at SUNY Upstate Medical University

Objectives

At the conclusion of this talk, participants should be able to:

- Explain gas drilling and how hydraulic fracturing is done.
- Discuss federal, state, and local laws and regulations governing the gas industry.
- Describe areas of potential health impacts during the process of gas exploration and production.
- Discuss how public health agencies and practitioners have been effective in securing health and safety using the Health Impact Assessment as a tool. (Love Canal, North Slope, Alaska, etc.)
- Describe the roles public health professionals can play in terms of investigation and advocacy to assure the public health of NYS citizens.

Who Should Attend

This activity is designed to be of interest to public health professionals, physicians, nurses, physician assistants, nurse practitioners, students, and other professionals interested in public health, community health, and disease prevention. This talk will also be of interest to the general public.

Speaker Disclosure Information: Dr. Dyrszka is a founding member of Sullivan Area Citizens for Responsible Energy Development. She does not have affiliations with commercial entities to disclose and will not discuss the off label use of pharmaceuticals.

Accreditation Statement
