

Using Public Health to Connect Bioethics & Environmental Ethics

James Dwyer, PhD
Associate Professor, Bioethics & Humanities
& Public Health & Preventive Medicine
SUNY Upstate Medical University

Objectives

At the conclusion of this talk, participants should be able to:

- Describe the historical divergence between bioethics and environmental ethics.
- Explain how public health ethics could use ideas about population health, sustainability, and justice to connect the two fields.
- Discuss projects that promote health in ways that recognize the claims of sustainability and justice.

Who Should Attend

This activity is designed to be of interest to public health professionals, physicians, nurses, physician assistants, allied health professionals, students, and others interested in public health, community health, and disease prevention.

Speaker Disclosure Information: Dr. Dwyer does not have affiliations with commercial entities to disclose and will not discuss the off label use of pharmaceuticals.

Accreditation Statement
