Students will have until the registrar’s official end date of each required clerkship to have Clinical Logging 100% completed in Medhub. After the official end date of each required clerkship, if clinical logging is not complete, the student will receive an INCOMPLETE in the course. If clinical logging is completed within seven days of the end of the clerkship, the grade may then be changed to P/HP/H. If clinical logging is NOT complete within seven days of the end date of the clerkship, the grade will become a CONDITIONAL. When successfully remediated, a grade of Conditional/Pass (C/P) will be recorded.

A statement will be added to the student’s narrative if logging is not completed by the official end of the clerkship about the student’s failure to fulfill their professional responsibilities. Students who have continued infractions of not completing clinical logging on time may be subject to further penalties at the discretion of the Associate Dean for Undergraduate Education as governed by the Professionalism Policy.
