RESCHEDULING CLERKSHIP(S) POLICY

No students may alter the sequence of their required clerkships. In the case of death in the family or severe illness, the student may petition the Academic Review Board with written documentation. In the case of academic difficulties, the course or clerkship director will discuss the student with the appropriate Academic Review Board. The Registrar’s Office (Syracuse students) or the Binghamton Student Affairs Office (Binghamton students) will need to review and approve any changes due to the above circumstances due to maximum numbers that can be accommodated in the clerkships in any given period. Rescheduling clerkships may result in a delay in graduation.
