

Summer 2019 Research Orientation

Introduction

June 26, 2019 12 PM
Weiskotten Hall, Rm. 3105

The Office of Research for Medical Students helps medical students explore their research interests and identify faculty mentors for research projects.

Our mission:

Foster Innovative and Interdisciplinary research among Undergraduate Medical and Graduate Trainees, through participation in Basic, Clinical and Translational research opportunities, summer programs and fellowships.

ONE-STOP SHOP

- Informational

- Active projects available at Upstate and externally

- Mentorship

- Connect students with mentors – building relationships

- Providing support and guidance

- Liaise with experts on publication, analysis of data

- Identifying and pairing

- Students with other opportunities

Dimitra Bourboulia, PhD

Assistant Dean for UME and GME Research
Faculty Director,
Office of Research for Medical Students
Assistant Professor, Department of Urology
Biochemistry and Molecular Biology
bourmpod@upstate.edu

Danielle Limer-Nies

Research Administrative Assistant
limernid@upstate.edu

The Future of Medicine is Research

Summer 2019 Research Orientation

Report, Courses and Upcoming Events

June 26, 2019 12 PM
Weiskotten Hall, Rm. 3105

Types of Research Courses

- Required courses
 - Blackboard
 - CITI
 - University-specific
- Department-specific courses
- Clinical, Basic, or Animal-specific courses

Are you research compliant?

You may or may not need to complete all – check with your mentor and keep completion records

Blackboard:

- UH333: Lab Safety
- UH8794: Bloodborne Pathogens/Infection Control Training
- UH110: Safety at Work
- UH 7899: Title IX, Clery Act & Sexual Harassment Prevention
- Right To Know (RTK) and Hazard Communication Training

University-Specific

- HIPAA

CITI

- Responsible Conduct of Research (RCR)
- FCOI Conflict of Interest
- CITI Refresher Course
- Basic Course in the Protection of Human Subjects
- Lab Animal Welfare Course
- Species-Specific Educational Training
- Good Clinical Practice
- Shipping and Transport of Regulated Biological Materials

Summer Research Report Summary

- Record in MedHub of your accomplishments and achievements as a result of your summer research
 - Abstract: Introduction, Experimental Procedures, Results, Conclusions, Future Directions
- How was your research experience? Rate and provide feedback!
 - Included in the MedHub Summer Research Report Summary

You will be notified in early September to complete. Completed and uploaded via MedHub

Upcoming and Ongoing Events

Student Research Day Spring 2020

- Hosted by the College of Graduate Studies
- Abstract Submission and Registration
- Free Poster Print

[Student Research Day 2019 was April 3rd, 2019. The Free Print deadline was March 20th.](#) ***Please keep an eye out for updated 2020 information and deadlines! Our Office will also email details as they become available***

Upcoming and Ongoing Events

Association of American Medical Colleges (AAMC) *Annual Meeting*

- Abstract submissions are due in winter of 2019
 - Keep an eye out for an update for when abstract submissions are open
- Selected student posters are then presented at the *2020 AAMC General Meeting*

Enjoy your Summer Research!!

[Email](#), [Tweet](#), or stop by the Office with any questions, or with of your research updates or accomplishments!
