

Claudia Teschky

Claudia Teschky, based in the firm's Oak Brook, IL office, has more than 20 years of healthcare and academic executive search experience. Claudia recruits national leaders on behalf of academic medical centers, health science centers, colleges and universities, cancer centers, and integrated delivery systems. Claudia's particular area of expertise is in conducting executive searches for leading academic organizations, including university hospitals, children's hospitals, schools of nursing, schools of medicine, and faculty practice plans.

Claudia's experience in healthcare search includes work for academic medical centers/health system CEOs, deans, chairs, as well as other senior executives. Her physician executive search credentials include assignments for CMOs, VPMA's and other senior leaders on behalf of hospitals and health systems. Claudia's proven resourcefulness, initiative and personal skills are keys to meeting her clients' expectations.

Prior to joining Witt/Kieffer, Claudia was an executive search professional with a Chicago-based search firm. In that position she served clients in financial services, industrial products, high technology and service industries. Earlier in her career Claudia worked for an international consulting firm that specializes in compensation and employee benefits.
