

ESTIMATED COST OF ATTENDANCE, 2009-2010
MEDICAL BIOTECHNOLOGY BS Degree

The following estimates are based on average costs in the Syracuse area. Your actual expenses may be less, especially if you create and monitor a personal budget. By spending less, you will borrow less from student loans, or be able to manage other costs that cannot be included for federal student aid purposes, such as credit card payments or car loans. Tuition and fees are subject to change.

Costs shown are for full time enrollment. Tuition, fees, and books will be reduced for part-time enrollment. 1st Year tuition cost is based upon Full time in FALL and Spring and 9 cr. hrs. in Summer.

To determine how much to borrow, subtract your total resources from your costs. If your costs are greater than your resources and aid, you probably need to reduce your budget. Tips on budgeting can be found on the back of this sheet. Remember that what you borrow has to be repaid, with interest.

The total cost for Medical Biotechnology is less because the number of required credit hours for the 1st year summer session is less than full time.
