The SUNY Upstate Medical University College of Medicine Course Selection Book is published in the month of February prior to the academic year that it is referenced to. The College of Medicine 2016-2017 academic year runs from May 23, 2016 through May 30, 2017. The Course Selection Book is printed as a convenient carry-around reference guide for students, faculty and staff. However, please be aware that there may be changes to the College of Medicine course offerings throughout the year, so the most up-to-date, accurate information on course offerings for the College of Medicine is available in MyUpdate. https://bannernweb.upstate.edu/

SYRACUSE CAMPUS ELECTIVES

CELL AND DEVELOPMENTAL BIOLOGY
Teaching in Human Anatomy .... ANAT0405
1 TO 5 Credits Basic Science Selective, Concurrent Elective, Pass/Fail Grading
ELECTIVE DIRECTOR: Dr. Robert Zajdel
CONTACT: ZAJDELR@UPSTATE.EDU
PREREQUISITES: MANA107
MAXIMUM NUMBER OF STUDENTS: 12
PERIODS OFFERED: Concurrent, this course is not available in the elective lottery.
ELECTIVE DESCRIPTION: Students are expected to assist in teaching gross anatomy to first year medical students. Emphasis is placed upon laboratory activities, including helping with daily dissections, working with students in small group sessions to facilitate an understanding of sectional and radiographic anatomy, and providing an opportunity to appreciate the application of gross anatomy to clinical medicine. Students may be asked to assist in the laboratory outside of designated class time and to offer individualized instruction to students experiencing difficulty in the course. Teaching assistants will be required to provide a log of their contact hours to the course director. Credit for the elective will be awarded on a basis of time spent teaching in the laboratory, tutoring, or preparing teaching specimens.

Teaching in Neuroanatomy .... ANAT0409
1 TO 5 Credits Basic Science Selective
ELECTIVE DIRECTOR: Dr. Dana Mihaila
CONTACT: MIHAILDA@UPSTATE.EDU
PREREQUISITES: MBBH101 A NEUR3000
MAXIMUM NUMBER OF STUDENTS: 999
PERIODS OFFERED: Concurrent, this course is not available in the elective lottery.
ELECTIVE DESCRIPTION: To review, master, and teach functional neuroanatomy to first year medical students using case studies to focus learning. Teaching a discipline is one of the best ways of learning and reinforcing this material. Moreover, returning to the neuroanatomy laboratory portion of the Neuroscience course after the Neuroscience clerkship reinforces the clinical experience and prepares the student for residency. Almost any clinical discipline will benefit from this review. Moreover, the student is able to reinforce the basic science education of the 1st year student by expanding on the more advanced student’s clinical experience. Activities will include review of the neuroanatomy syllabus and brain and cross sectional anatomy, meeting with all faculty, neurosurgery residents, and other graduate and medical student assistants to review clinical case and laboratory material prior to each of the 10 laboratory units, teaching and giving chalk talks in the laboratory with a faculty mentor, and tutoring students in difficulty outside scheduled laboratory hours. This elective takes place during the neuroanatomy laboratory is taught during the Neuroscience course, usually beginning at the end of the first week in April and continuing through the laboratory examination seven weeks later. It may be taken for 3-5 credit hours, depending on the beginning and end of elective time. Introductory brain anatomy is especially heavy during the first 2 weeks, and review and case study analysis is especially heavy during the last week of the course. Elective time should include one of these periods. Time requirements are dependent on student participation in laboratory and pre-lab conferences. Close faculty interaction allows careful assessment of student’s knowledge and teaching abilities.

Teaching in Human Anatomy .... ANAT0410
4 Credits Basic Science Selective
ELECTIVE DIRECTOR: Dr. Robert Zajdel
CONTACT: ZAJDELR@UPSTATE.EDU
PREREQUISITES: MANA107 A MANA108 A MPOM105 A MBBH101 A MMCP101 A MPH101
MAXIMUM NUMBER OF STUDENTS: 1
PERIODS OFFERED: 001, 002, 003, 012, this course is not available in the elective lottery.
ELECTIVE DESCRIPTION: This elective is designed to provide medical students, especially those with an interest in the musculoskeletal system, with an opportunity to actively participate in the teaching gross anatomy to first year students in the Doctor of Physical Therapy (DPT) program. Emphasis is placed upon demonstrating prospected specimens to the students, assisting students with their dissections, prepare and deliver 2 lectures, and conducting small group laboratory problem solving. Weekly activities will include involvement in laboratory teaching, laboratory problem solving sessions, and review and student sessions. Students will also help grade quizzes and exams. Performance will be evaluated upon knowledge of gross anatomy, interest in teaching, and active engagement in course activities by engaging in the following activities; assisting students with their dissections, coordinating small group laboratory problem solving sessions, and by delivering lectures.
**ANESTHESIOLOGY**
Anesthesiology & Basic Life Support - Upstate .................................. ANES0801

**4 Credits**

**ELECTIVE DIRECTOR:** Dr. Jesus Calimlim  
**CONTACT:** sellink@upstate.edu  

**ELECTIVE DESCRIPTION:** (Cannot accept students in July or August). The elective is designed to be both flexible and educational. In order to fully explore what the exciting field of anesthesia has to offer to all medical students, emphasis will be placed on practical clinical activities according to the student’s individual interests and motivation. Students will participate in patient care directly, with an attending as an acting resident (A1). Knowledge and clinical skills gained will be useful in virtually any field the student pursues. Procedures such as mask ventilation, endotracheal intubation and IVs will be available daily. Patient selection will be tailored to each student. Preoperative evaluation for those interested in family practice, internal medicine, or surgery will be available. Skills and knowledge of emergency care or intensive care, such as airway management and invasive hemodynamic monitoring will also be available. Students interested in pediatrics or OB/GYN will also find clinical experiences and interesting patients available. Since the subject of anesthesia encompasses a large subject area, any student will find a topic of interest in this course. Advanced areas of interest include cardiovascular and thoracic anesthesia, intensive care and acute and chronic pain treatment. Some of these advanced areas of interest take the anesthesiologist out of the operating room.

**Applied Clinical Anesthesiology ................................ ANES0808**

**4 Credits**

**Crouse Hospital**

**ELECTIVE DIRECTOR:** Dr. James Mostrom  
**CONTACT:** lorigriffin@crouse.org  

**ELECTIVE DESCRIPTION:** The student will have the opportunity to observe how patients are assessed and prepared for surgery, and will also understand why particular anesthetic techniques are chosen in clinical practice. The elective will give the student the opportunity to participate in patient care on a one to one basis with an attending anesthesiologist. From a point of view of motor skills, the student will be expected to be able to maintain an airway, to intubate and to fully understand what is involved in the care of the unconscious patient. For two weeks students may rotate to main operating room, surgical outpatient centers, childbirth center, depending on interest.

**Pain Medicine ......................... ANES0810**

**4 Credits**

**ELECTIVE DIRECTOR:** Dr. Parakulam Thomas  
**CONTACT:** sellink@upstate.edu  

**PREREQUISITES:** None  

**MAXIMUM NUMBER OF STUDENTS:** 2  

**PERIODS OFFERED:** 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012, this course is not available in the elective lottery.  

**ELECTIVE DESCRIPTION:** Pain medicine is fast becoming a field of its own. This is due to the complexities of the pain syndromes and the subsequent management of all aspects of pain. During their rotation, medical students will be introduced to the different fields of pain medicine including acute pain, chronic pain, cancer pain, pain psychiatry and addiction psychiatry. Students will gain clinical experience in diagnosis of pain syndromes and appropriate techniques involved in treating these syndromes. Students will learn anatomy related to pain medicine. They will develop basic skills in the use of fluoroscopy, CT guidance and ultrasound for therapeutic pain interventions. Students will also be introduced to a multimodal and multidisciplinary approach to the treatment of pain. Weekly activities will include lectures, observation and participation in intervention pain techniques. Note: After registering, and at least one month prior to the rotation, contact Dr. PS Thomas to make arrangements.

**CENTER FOR BIOETHICS AND HUMANITIES**

**Intro to Medical Creative Writing ................. CBHX2404**

**1 Credit**

**ELECTIVE DIRECTOR:** Dr. Deirdre Neilen  
**CONTACT:** barbutoj@upstate.edu  

**PREREQUISITES:** None  

**MAXIMUM NUMBER OF STUDENTS:** 8  

**PERIODS OFFERED:** 11  

**ELECTIVE DESCRIPTION:** Introduction to Medical Creative Writing is a one week intensive writing workshop. Students will read other physician writers’ works and then begin an extended piece of their own. Patient narratives, narrative competence, and medical humanities are all terms increasingly used when talking about ways to improve physician-patient interactions and satisfaction. In this introductory course, we will explore how and why writing can illuminate medicine and increase a physician’s observations, making him/her more aware of the patient’s needs.

**Individual Study in Bioethics .... CBHX2405**

**2 TO 6 Credits**

**ELECTIVE DIRECTOR:** Dr. James Dwyer, Dr. Kathy Faber-Langendoen, Dr. Robert Olick  
**CONTACT:** DWYERJA@UPSTATE.EDU  

**PREREQUISITES:** None  

**MAXIMUM NUMBER OF STUDENTS:** 4  

**PERIODS OFFERED:** 6, this course is not available in the elective lottery.
ELECTIVE DESCRIPTION: The purpose of this elective is to provide students the opportunity to explore, in a careful and supervised way, important issues in bioethics. Students will work with their preceptor to develop an individualized plan of study. This plan will usually involve extensive reading, attendance at some lectures and seminars, frequent discussions with the preceptor, attendance at meetings of the ethics committee, and a written paper. Students may explore a particular topic or area (for example, issues in one specialty of medicine), design a small study (for example, a chart of review of advance directives), or learn more about the work of clinical consultation (by discussing cases with consultants and attending meetings of the ethics committee). This elective may be taken full-time or Concurrently with other courses.

Physicians and Social Responsibility I ...... .................................................. CBHX2408
1 Credit  Concurrent Elective
ELECTIVE DIRECTOR: Dr. James Dwyer
CONTACT: DWYERJA@UPSTATE.EDU
PREREQUISITES: None
MAXIMUM NUMBER OF STUDENTS: 16
PERIODS OFFERED: Concurrent, this course is not available in the elective lottery.
ELECTIVE DESCRIPTION: This is the first of a two-elective sequence that establishes a critical, analytic component in conjunction with selected health-related service activities, to provide a robust, service-learning experience for medical students to develop their understanding of and commitment to physician's social responsibility. This first elective, Physicians and Social Responsibility I (PSR I) is an 8 session, 16 hour seminar elective addressing fundamental knowledge and advocacy skills physicians need to fulfill their social responsibility, both individually and collectively. Course content addresses a variety of topics, such as fundamentals of health systems and financing; impacts of socioeconomic disparities in health and illness; cultural diversity in clinical practice; health outcomes; advocacy skills; structure and effectiveness of the safety net; global health inequities. Exact topics are modified from year to year. Open to MSI, MSII, and MSIV students.

Physicians and Social Responsibility II ...... .................................................. CBHX2410
2 Credits  Concurrent Elective
ELECTIVE DIRECTOR: Dr. James Dwyer
CONTACT: DWYERJA@UPSTATE.EDU
PREREQUISITES: CBHX2408
MAXIMUM NUMBER OF STUDENTS: 16
PERIODS OFFERED: Concurrent, this course is not available in the elective lottery.
ELECTIVE DESCRIPTION: Physicians and Social Responsibility II is the second part of a two-elective sequence that establishes a critical, analytic component in conjunction with selected health-related service activities to provide a robust, service-learning experience for medical students to develop their understanding of and commitment to physicians' social responsibility. This elective has two components: Service component: 40 hours of service in a pre-approved setting addressing one of the following: 1) providing healthcare for the underserved; 2) providing health care overseas; 3) advocating for changes in health policy. Optional additional 40 hours for additional credit. Seminar Component: an 8-session, 16-hour seminar addressing critical analytic and advocacy skills physicians need to fulfill their social responsibility, both individually and collectively. Students will critically analyze their service experiences in light of the fundamental concepts discussed in PSRI and ELSIM. Some content related to student experiences will be presented in a more advanced way that in PSR I (e.g. fundamentals of health systems/financing, impacts of socioeconomic disparities in health and illness; advocacy skills, structure and effectiveness of the safety net; global health inequities). A substantial portion of the seminar time will be spent with students presenting their critical analyses of issues arising in their service sites. Open to MSIS and MSIVS. Needs instructor approval.

Ethics and the Health Professions.............. .................................................. CCFM1402
3 Credits  Concurrent Elective
ELECTIVE DIRECTOR: Dr. Paul Prescott
CONTACT: dorschel@upstate.edu
PREREQUISITES: None
MAXIMUM NUMBER OF STUDENTS: 5
PERIODS OFFERED: Concurrent, this course is not available in the elective lottery.
ELECTIVE DESCRIPTION: This course examines the origins and use of ethical Theories in the clinical, professional, organizational, and political- Economic fields of action in health care. 3 credits

Dying and Death in American Literature .................................................. CCFM1405
3 Credits  Concurrent Elective
ELECTIVE DIRECTOR: Dr. Deirdre Nellen
CONTACT: barbutoj@upstate.edu
PREREQUISITES: None
MAXIMUM NUMBER OF STUDENTS: 5
PERIODS OFFERED: Concurrent, this course is not available in the elective lottery.
ELECTIVE DESCRIPTION: Intends to provoke thoughtful discussion and analysis about how we approach the subject of death and how we actually do or do not prepare ourselves for its actuality. Our culture seems to worship youth and to want to deny or at least delay aging for as long as possible. Consequently, many people have difficulty facing their own mortality and handling serious illness. Some of the controversy surrounding current health care issues is connected to the proposition that physicians should have conversations with patients about patients? wishes for end of life treatment. What do people mean when they say, ?do everything?? What do physicians mean when they say treatment would be ?futile?? What does it mean to be a health care proxy? These are some of the questions we will explore through our analysis of fiction, poetry, drama, and memoir. We will begin to see some of the universal responses we have to death, dying, and grief as well as some culturally specific ones.
Bioethics........................................ CCFM1413
3 Credits Concurrent Elective
ELECTIVE DIRECTOR: Dr. Ernest Wallwork
CONTACT: dorschel@upstate.edu
PREREQUISITES: None
MAXIMUM NUMBER OF STUDENTS: 5
PERIODS OFFERED: Concurrent, this course is not available in the elective lottery.
ELECTIVE DESCRIPTION: This course examines the use of ethical theories and standards by health care professionals. Specific issues presented in the context of case studies illuminate different types of ethical dilemmas and alternative ways of handling them morally. Issues include euthanasia, assisted suicide, truth-telling, confidentiality, research ethics, abortion, genetic counseling, surrogate motherhood, the uses of new reproductive technologies, and justice with respect to care.

Culture and Reproductive Health and........... Medicine........................................ CCFM1414
3 Credits Concurrent Elective
ELECTIVE DIRECTOR: Dr. Cecilia Van Hollen
CONTACT: dorschel@upstate.edu
PREREQUISITES: None
MAXIMUM NUMBER OF STUDENTS: 5
PERIODS OFFERED: Concurrent, this course is not available in the elective lottery.
ELECTIVE DESCRIPTION: Cultural anthropological approaches to cross-cultural variations in reproductive practices (pregnancy, childbirth, infertility, etc.) Impact of globalization, biomedicalization, international development on reproduction and reproductive health. Medical anthropology and gender studies.

Medicine in Literature and Film.......................... CCFM1423
1 TO 3 Credits Concurrent Elective
ELECTIVE DIRECTOR: Dr. Deirdre Neilen
CONTACT: barbutoj@upstate.edu
PREREQUISITES: None
MAXIMUM NUMBER OF STUDENTS: 5
PERIODS OFFERED: Concurrent, this course is not available in the elective lottery.
ELECTIVE DESCRIPTION: The relationship between artistic creation and medicine will be explored through the study of novels, film, short stories, poetry and essays about medical situations, characters and themes. 3 credits

Culture, Communication & Ethics in Health Care: Deaf & Disability Studies Approaches ............................................. CCFM1431
3 Credits Concurrent Elective
ELECTIVE DIRECTOR: Dr. Rebecca Garden
CONTACT: dorschel@upstate.edu
PREREQUISITES: None
MAXIMUM NUMBER OF STUDENTS: 5
PERIODS OFFERED: Concurrent, this course is not available in the elective lottery.

ELECTIVE DESCRIPTION: Ethical, empathic, and effective health care involves good communication, reflection, and a social and cultural knowledge and skills. This course provides a model for collaborative and culturally sensitive and skilled communication in health care. Through the study of ethics cases, narratives, and literature, students will analyze disparities and discrimination in health care for people who are deaf and disabled. Students will explore solutions through deaf studies, disability studies, and narrative approaches to bioethics and health care. Guest speakers will include members of the deaf community, disability studies scholars and advocates, sign language interpreters, and health care professionals.

Medical Anthropology in Ecological Perspectives........................................... CCFM1452
3 Credits Concurrent Elective
ELECTIVE DIRECTOR: Dr. John Townsend
CONTACT: jmtsu44@aol.com
PREREQUISITES: None
MAXIMUM NUMBER OF STUDENTS: 5
PERIODS OFFERED: Concurrent, this course is not available in the elective lottery.
ELECTIVE DESCRIPTION: This course utilizes an ecological, cross-cultural perspective. Students will learn to: 1) apply an ecological perspective to illness in foreign and domestic cultures; 2) derive useful practices and knowledge from non-Western societies and ethnic sub-cultures, and demonstrate how they could be adapted and utilized in mainstream Western healing; 3) describe the role of socio-cultural factors in the etiology, manifestation, and outcome of diseases cross-culturally; 4) analyze the strengths and weaknesses of non-Western methods of healing.

EMERGENCY MEDICINE
Acting Internship in Emergency Medicine ................................... EMED1302
4 Credits
ELECTIVE DIRECTOR: Dr. Matthew Sarsfield
CONTACT: welchka@upstate.edu
PREREQUISITES: SURG8200 A MDCN2000
MAXIMUM NUMBER OF STUDENTS: 6
PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012
ELECTIVE DESCRIPTION: The student will function as an acting intern in the Emergency Department working under the direct supervision of Emergency Department attending physician or third year emergency medicine resident. The student will have the opportunity to make the initial patient contact and formulate a diagnostic and therapeutic plan which will then be discussed with and reviewed by the attending physician. During the elective the student will be exposed to the entire range of Adult Emergency Department problems. This experience will give the student an understanding of what the practice of Emergency Medicine entails and provide exposure to a wide range of patient population.
Emergency Medicine in a Community........
Hospital ............................................. EMED1307
4 Credits  Preceptor’s Site
ELECTIVE DIRECTOR:  Dr. David Wirtz
CONTACT:  dwirtz@emp.com
PREREQUISITES:  MDCN2000 A SURG8200 A
OBGY3600 A PEDS5600 A FAMP1600 A PYCH6800
MAXIMUM NUMBER OF STUDENTS:  1
PERIODS OFFERED:  001, 002, 003, 004, 005, 006, 007, 008, this course is not available in the elective
lottery.
ELECTIVE DESCRIPTION:  This rotation is an introduction to emergency medicine in a community hospital setting. Cortland Regional Medical Center is a 166 bed hospital with approximately 35,000 ED visits per year. There is a diverse mix of pathology seen in the ED and all patients are seen by the ED medical staff. The medical student will always be supervised by a board certified residency trained emergency medicine specialist. They will examine, diagnose and treat pathology in all major disciplines of medicine. There will also be informal lectures to supplement the clinical experience. If there are any particular interests or needs of a student, every effort will be made to meet them. There will be approximately 36 hours per week clinical responsibility and varying amounts of supplemental teaching (lectures, rounds etc.). Self study with a standard emergency text is encouraged, and reference materials are available in the department.

Emergency Medicine Research .................
............................................. EMED1308
4 Credits
ELECTIVE DIRECTOR:  Dr. William Grant
CONTACT:  GRANTW@UPSTATE.EDU
PREREQUISITES:  MANA107 A MANA108 A MBBH101
A MMCP101 A MPHY101 A MPHM101 A MPOM105 A
MBSC201 A MICI201 A MPHM201 A MPTH201 A
MPH202 A MPOM201
MAXIMUM NUMBER OF STUDENTS:  2
PERIODS OFFERED:  001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012
ELECTIVE DESCRIPTION:  Goals of the elective include provision of experience in direct participation in ongoing projects of the Department, development of an understanding of the use of evidence tools and methodologies. The focus is on the formulation of researchable clinical questions. A student relevant research project will be designed and completed.

Acting Internship in Pediatric Emergency Medicine......................... EMED1309
4 Credits
ELECTIVE DIRECTOR:  Dr. Richard Cantor
CONTACT:  welchka@upstate.edu
PREREQUISITES:  PEDS5600 A MDCN2000 A SURG8200
MAXIMUM NUMBER OF STUDENTS:  4
PERIODS OFFERED:  001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012
ELECTIVE DESCRIPTION:  The student will function as an acting intern within the Pediatric Emergency Room working under the direct supervision of a Pediatric Emergency Specialist. The student will provide patient contact and devise a management plan in concert with attending supervision. The overall experience will offer the student an understanding of the practice of Pediatric Emergency Medicine.

Western & Traditional Chinese Medicine in the People’s Republic of China...........................
.................................................. EMED1320
4 Credits
ELECTIVE DIRECTOR:  Dr. William Grant
CONTACT:  GRANTW@UPSTATE.EDU
PREREQUISITES:  MDCN2000 A SURG8200 A
OBGY3600 A PEDS5600 A FAMP1600 A PYCH6800
MAXIMUM NUMBER OF STUDENTS:  6
PERIODS OFFERED:  008, 009, 010, 011
ELECTIVE DESCRIPTION:  The China elective is a collaborative agreement between ZAST (Zhejiang Association for Science and Technology); its hospital partners, and the Upstate Medical University. The elective is designed to allow Upstate Medical University students to experience medical care, both traditional Chinese and western style provided at two general hospital in the Zhejiang province. The elective takes place at Xiaoshan No. 1 People’s Hospital and the Zhejiang Hospital. Both hospitals are located in Hangzhou, a large metropolitan city which is about a two hour drive from Shanghai. Depending upon students’ interests, they may spend the entire elective at one hospital or split their time between the two hospitals. At each hospital they will have the opportunity to see and participate in both western style medical care, and traditional Chinese medical care. Students will be precepted by identified physicians in both institutions throughout their elective time. The elective is offered as a four-week rotation and is generally offered from January 1st through June 30th in each year. Exact dates of the rotation are flexible and can be arranged through Dr. William Grant, the course coordinator. NOTE:  Students will be required to provide their own travel to and from Shanghai. Travel requires a tourist visa (see www.travisia.com for details). ZAST and the hospital affiliates will provide accommodations for students during the elective. Accommodations are in Hangzhou. The hospitals will provide means for transportation between the apartment and the hospitals. Transportation is by public bus service and bicycle. Costs of transportation will be provided by the participating hospitals.
Clinical Toxicology .......................... EMED1321
4 Credits  Basic Science Selective, Pass/Fail Grading
ELECTIVE DIRECTOR: Dr. Christine Stork-Medicis
CONTACT: STORKC@UPSTATE.EDU
PREREQUISITES: MDCN2000 A PEDS5600 A EMED1300
MAXIMUM NUMBER OF STUDENTS: 1
PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012, this course is not available in the elective lottery.
ELECTIVE DESCRIPTION: This is an adult learning driven four week elective designed to introduce the students to the use of point-of-care (POC) ultrasound in the ED. The students will receive hands on training to learn the basics of emergency ultrasound. Students will read material and watch videos designed to help develop background knowledge of certain areas of emergency ultrasound. These areas include but are not limited to: Cardiac, Pulmonary, Aorta, EFAST (Extended Focused Assessment with Sonography for Trauma), Hepatobiliary, Renal, Transabdominal/Transvaginal Pelvic, Deep Venous Thrombosis, and Procedural. Furthermore, the students will be given the opportunity to practice and develop their skills by scanning patients in the ED with the ultrasound faculty and also independently. The images will be reviewed at scheduled image review sessions. The students will then spend time with the ultrasound technicians at University Hospital and/or Community General learning how to perform formal ultrasounds.

Emergency Medicine Advanced Simulation: Teaching and Learning with Simulation .................................................. EMED1325
4 Credits
ELECTIVE DIRECTOR: Dr. Elliot Rodriguez
CONTACT: welchka@upstate.edu
PREREQUISITES: EMED1302
MAXIMUM NUMBER OF STUDENTS: 1
PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012, this course is not available in the elective lottery.
ELECTIVE DESCRIPTION: The goal of this elective experience is to provide senior level medical students an opportunity to learn the fundamentals of teaching with simulation. The student will have the opportunity to practice applying these concepts by teaching various learners under the supervision of experienced faculty educators. The student will learn to program and use the high fidelity simulation mannequins. During the elective, the student will develop a simulation scenario of sufficient quality to be submitted for publication. The scenario will be a shared work product and used to teach future learners. The elective will be based at the department’s EMSTAT Center, a state of the art immersive simulation-learning environment.

Emergency Room - VAH ............... EMED1345
4 Credits  Veteran’s Administration Hosp
ELECTIVE DIRECTOR: Mary DiRubbo
CONTACT: welchka@upstate.edu
PREREQUISITES: MDCN2000
MAXIMUM NUMBER OF STUDENTS: 1
PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012, this course is not available in the elective lottery.
ELECTIVE DESCRIPTION: This elective is intended to provide the student with a clinical experience in an active emergency room. The student will be working...
with and directly reporting to an attending physician covering the ER. In addition, the student will be working with a first or second year ED resident. This rotation allows the student to learn emergency medical care in a setting that is committed to teaching. It is located in a fully integrated academic institution and directed by physicians with full academic appointments. The student can expect exposure to a wide variety of medical and surgical cases. Previous students have appreciated most the primary care experience involving dermatology, ophthalmology, ENT, GU and ambulatory internal medicine problems. Additionally, this rotation affords the student the initial evaluation of acutely ill patients before they are treated, stabilized and admitted to an inpatient service.

FAMILY MEDICINE
Acting Internship in Family Medicine - Residency Based Family Medicine

.............................................................. FAMP1612
4 Credits
ELECTIVE DIRECTOR: Dr. James Tucker
CONTACT: anne.louise@sjhsyr.org
PREREQUISITES: MDCN2000 A PEDSS5600
MAXIMUM NUMBER OF STUDENTS: 1
PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012
ELECTIVE DESCRIPTION: This elective is intended to achieve several goals: 1) provide an in-depth exposure to both in-patient and out-patient family medicine, 2) increase basic medical interviewing skills and medical facts, 3) allow the students to work closely with family medicine residents at all levels of training, and 4) give students who are interested in this residency an opportunity to demonstrate their interest and skills to our faculty. Mornings will encompass Morning Report, bedside rounds with the PGY3 and PGY1, attending rounds with the faculty member of the month and didactic conferences as provided by the PGY3 or attending. Noon-times (1200-1300) are devoted to various didactic conferences. Afternoons are divided between floor coverage and Model Office. In any four-day block, each student should spend two afternoons in the Model Offices, one afternoon covering the floors and one afternoon post-call. Night call every four-six nights. The student will see the breadth of inpatient and outpatient family medicine. Students will be permitted to leave post-call after morning responsibilities are completed. Four weeks prior to the elective, the student must contact the Medical Education Department at 315-448-5547 for instructions.

Family Medicine Preceptorship

.............................................................. FAMP1615
4 Credits Preceptor’s Site
ELECTIVE DIRECTOR: Dr. John Epling
CONTACT: EPLINGJ@UPSTATE.EDU
PREREQUISITES: None
MAXIMUM NUMBER OF STUDENTS: 1
PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012
ELECTIVE DESCRIPTION: This course may be completed at urban, suburban, and rural sites throughout New York State with approved voluntary faculty. A number are within commuting distance of Syracuse and include managed care settings, community health centers, and private practices. Preceptorships in other states may be arranged, but require significant advance planning. Students will understand the role of family physicians; will develop skills in the diagnosis and management of common medical problems; and will understand the nature of consultation with other medical specialists. Students progress from observation to initial patient contact with preceptor review. Rate of progression and participation, assignment of short literature reviews of patient problems, and night call are at the discretion of the individual preceptors. Contact John Epling, MD at 315-464-7026 for number, location, and description of sites available for a given period.

Integrative Medicine..................... FAMP1635
4 Credits
ELECTIVE DIRECTOR: Dr. Gerald Edwards
CONTACT: gerry.edwards@sjhsyr.org
PREREQUISITES: None
MAXIMUM NUMBER OF STUDENTS: 1
PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012
This course is not available in the elective lottery.

ELECTIVE DESCRIPTION: To gain an understanding of "Integrative" or "Complementary and Alternative Medicine" through precepting with providers, readings and conferences. The instructor will discuss individualized goals, learning objectives and course setup with the student prior to the elective period. Students will be encouraged to understand unfamiliar disciplines and concepts of health within their cultural and philosophical traditions while assessing them from a scientific outcome based methodology. Physician-patient communication regarding therapies and decision processes for utilization or discussion within the context of a medical practice will be considered. Weekly activities will include: Self directed reading, outpatient contact with practitioners and meetings with instructor. A reading list will be developed from a spectrum of evidence based materials to a sampling of “layperson” readings to get a both broad overview and the specifics of the chosen subject areas.
Occupational Medicine ................ FAMP1636
4 Credits  Preceptor's Site
ELECTIVE DIRECTOR:  Dr. Michael Lax
CONTACT:  manninga@upstate.edu
PREREQUISITES:  MDCN2000 A SURG8200 A OBGY3600 A PEDS5600 A FAMP1600 A PYCH6800
MAXIMUM NUMBER OF STUDENTS:  1
PERIODS OFFERED:  003, 004, 005, 006, 007, 008, 009, 010, 011, 012, this course is not available in the elective lottery.
ELECTIVE DESCRIPTION:  This elective will familiarize students with the evaluation and follow-up of patients with suspected workplace related illnesses. Students will interact with members of the team to develop and implement treatment plans. Emphasis will be placed on students developing skills to accurately diagnose occupational illness and to recognize the physicians role in the prevention of occupational illness.

Literature and Medicine: Examining Issues in Primary Care ......................... FAMP1642
2 Credits  Concurrent Elective
ELECTIVE DIRECTOR:  Dr. Ruth Hart
CONTACT:  HARTRH@UPSTATE.EDU
PREREQUISITES:  None
MAXIMUM NUMBER OF STUDENTS:  40
PERIODS OFFERED:  Concurrent, this course is not available in the elective lottery.
ELECTIVE DESCRIPTION:  This elective will examine health issues in primary care, using the perspectives afforded by literature and theater. Hands-on literature and drama experiences will be part of the elective with attendance expected at live theater performances and at a local author lecture series. Topics to be included are: professionalism, resource allocation, physician-patient communication, quality of life, cultural diversity and disability. Reading selections will be assigned with a two hour group discussion to be conducted twice per month in addition to a monthly theater or author lecture experience to be followed by discussion. Proposed selections include: The Curious Incident of The Dog In The Nighttime by Mark Haddon (communication issues), The Diving Bell and The Butterfly by Bauby (quality of life issues), Cider House Rules by John Irving (professionalism). Attendance will be expected at 2 Syracuse Stage performances TBA. The Rosamond Gifford author lecture series fall readings of the above activities and selections will be based on student interest and other available literary events. Cost for performances: $30.00 total.

Examining Issues in Primary Care.......... ................................................. FAMP1643
2 Credits  Concurrent Elective
ELECTIVE DIRECTOR:  Dr. Ruth Hart
CONTACT:  HARTRH@UPSTATE.EDU
PREREQUISITES:  None
MAXIMUM NUMBER OF STUDENTS:  50
PERIODS OFFERED:  Concurrent, this course is not available in the elective lottery.
ELECTIVE DESCRIPTION:  This elective will offer students the opportunity to examine issues in primary care through the reading and discussion of literary selections that focus on relevant topics such as professionalism, aging, resource allocation, and cultural diversity. Attendance at activities and performances that make a connection with the community at large such as Syracuse Stage theater performances, author lectures and readings, films based on literary adaptations and other performances in the arts will be included (choices depend on what is offered at that time). The emphasis of the course is on group participation and discussion.

Introduction to Rural Health..... FAMP1646
1.5 Credits  Concurrent Elective, Preceptor's Site
ELECTIVE DIRECTOR:  Dr. Cinthia Elkins
CONTACT:  ELKINSC@UPSTATE.EDU
PREREQUISITES:  None
MAXIMUM NUMBER OF STUDENTS:  60
PERIODS OFFERED:  Concurrent, this course is not available in the elective lottery.
ELECTIVE DESCRIPTION:  Concurrent, this course is not available in the elective lottery.

Public Health and Biopsychosocial Primary Care ........................................ FAMP1649
1 Credit  Concurrent Elective
ELECTIVE DIRECTOR:  Dr. Christopher Morley
CONTACT:  MORLEYCP@UPSTATE.EDU
PREREQUISITES:  None
MAXIMUM NUMBER OF STUDENTS:  10
PERIODS OFFERED:  8, this course is not available in the elective lottery.
ELECTIVE DESCRIPTION:  Students will perform a validated, communications-intensive standardized patient encounter at the beginning and end of the course. The standardized patient case will include a number of complicating issues, including comorbid chronic physical illness and mental health symptoms,
along with social challenges that impact self-care and adherence. The initial formative SP encounter will allow the student to watch and rate their own performance. Between the two SP encounters, the student will be exposed to literature and instruction on social determinants of health, chronic care models, patient-centeredness, cultural competency, motivational interviewing, and condition-specific topics, and will receive 16 hours of clinical instruction in clinical sites that serve disadvantaged populations.

Independent Projects in Medical Informatics/Information Technology .........

4 Credits Concurrent Elective
ELECTIVE DIRECTOR: Mr. Joseph Smith
CONTACT: SMITJJC@UPSTATE.EDU
PREREQUISITES: None
MAXIMUM NUMBER OF STUDENTS: 2
PERIODS OFFERED: Concurrent, this course is not available in the elective lottery.

ELECTIVE DESCRIPTION: The elective is intended to be a flexible experience, the general goal of which is to help individual students to define and work on a specific content area within the broad categories of medical informatics and information technology about which he/she would like to learn more. Examples of content areas include electronic communication and records, accessing electronic resources for information (online texts, journals, data bases and internet sites), and hospital/ambulatory information systems. The student will meet with the course instructor/mentor to determine specific goals, learning objectives, learning methods, and project(s) where learned content will be applied. Credit hours and time requirements will be determined by the instructor after discussion with the student.

Teaching Assistant for Practice of Medicine Course............................. INTD9423
1 TO 4 Credits Concurrent Elective
ELECTIVE DIRECTOR: Dr. Alison McCrone
CONTACT: urmmwlm@upstate.edu
PREREQUISITES: MDCN2000 A SURG8200
MAXIMUM NUMBER OF STUDENTS: 28
PERIODS OFFERED: Concurrent, this course is not available in the elective lottery.

ELECTIVE DESCRIPTION: Students will review materials in the physical diagnosis techniques, medical interviews and communication skills. Student Assistants will work one-to-one with faculty to teach MSIs and MSIs. Students will participate in course evaluation in methods of evaluating the skills taught in the course and act as a teaching assistant in the POM 1 and POM 2 courses. Activities might include: evaluating student performance on CCEs, helping in small group sessions, grading student write-ups, developing educational materials.

Hospice Volunteering............... INTD9425
1 TO 6 Credits Concurrent Elective, Preceptor's Site
ELECTIVE DIRECTOR: Dr. Judith Setia
CONTACT: sconover@hospicecny.org
PREREQUISITES: None
MAXIMUM NUMBER OF STUDENTS: 15
PERIODS OFFERED: Concurrent, this course is not available in the elective lottery.

ELECTIVE DESCRIPTION: Hospice volunteers are trained to help patients / families cope with issues at the end of life. Volunteers will learn how to assist with the physical, emotional, and spiritual struggles of this unique time. Once trained, volunteers will be matched with families based on interests, experience, and availability. Typical activities would be: Visit, watch TV, read to patients, grocery shopping, mowing lawns, childcare, sitting with patient's so family can run errands, driving patients or families to appointments or to visit loved ones. This is a rich opportunity to assist those in your community who are living with dying, and to learn about the psychosocial-spiritual aspects of the journey towards the end of life.

Hospice and Palliative Medicine/Spirituality ...............INTD9426
4 Credits Preceptor’s Site
ELECTIVE DIRECTOR: Dr. Barbara Krenzer
CONTACT: KRENZERB@UPSTATE.EDU
PREREQUISITES: None
MAXIMUM NUMBER OF STUDENTS: 1
PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012, this course is not available in the elective lottery.

ELECTIVE DESCRIPTION: The medical student will learn the basics of both inpatient and outpatient palliative care for patients nearing the end of life. In addition to control of pain and other physical symptoms, special attention will be paid to spiritual and emotional needs of patients and families. Patients will have cancer and non-cancer diagnoses. Students will be asked to keep a journal of their experiences.

Peer Tutoring in Basic Science............. INTD9427
1 TO 6 Credits Basic Science Selective, Pass/Fail Grading
ELECTIVE DIRECTOR: Mary Ann Grandinetta
CONTACT: GRANDINM@UPSTATE.EDU
PREREQUISITES: MANA107 A MANA108 A MBBH101 A MMCP101 A MPHY101 A MPH101 A MPOM105 A MBSC201 A MICI201 A MPHM201 A MPTH201 A MPH202 A MPOM201
MAXIMUM NUMBER OF STUDENTS: 20
PERIODS OFFERED: Concurrent, this course is not available in the elective lottery.

ELECTIVE DESCRIPTION: Students in this elective will serve as peer tutors to students in basic science courses. Students and tutees will meet to review course material, study skills, test taking and time management strategies. Tutor training may be required. Third and fourth year medical students conduct group and one-on-one tutoring sessions for first and second year medical students in basic science coursework. Review of relevant basic science course material, tutoring methods, and topics in study strategies and time management are covered in the tutoring sessions.

Endocrinology..........................INTD9431
4 Credits Preceptor’s Site
ELECTIVE DIRECTOR: Dr. Marisa Desimone
CONTACT: haightm@upstate.edu
PREREQUISITES: MDCN2000 A PEDS5600
MAXIMUM NUMBER OF STUDENTS: 1
PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012

10
ELECTIVE DESCRIPTION: The goal of this elective is for the student to demonstrate competency in applying the principles of evaluation and management of youth and adults with general endocrine disorders and diabetes mellitus. The curriculum for pediatrics will span abnormalities of growth and pubertal development, diabetes, congenital hypothyroidism, disorders of sexual differentiation, and neonatal hypoglycemia and hypocalcemia. The curriculum content for adults will include diabetes, thyroid disorders including nodules and cancer, hypopituitarism and pituitary tumors, parathyroid disorders, osteoporosis and lipid disorders.

Fundamentals in Quality Improvement and Patient Safety through IHI Open School ................................................ INTD9434

1 Credit Concurrent Elective
ELECTIVE DIRECTOR: Lynn Cleary
CONTACT: CLEARYL@UPSTATE.EDU
PREREQUISITES: None
MAXIMUM NUMBER OF STUDENTS: 99
PERIODS OFFERED: Concurrent, this course is not available in the elective lottery.
ELECTIVE DESCRIPTION: This elective uses the online courses from the Institute for Healthcare Improvement (IHI) Open School to provide students with fundamental knowledge and skills in quality improvement, patient safety, and related content. The elective is self-paced and asynchronous. By the end of the course, students will qualify for an IHI Open School Basic Certificate of completion, and will have taken additional complementary modules. The estimated time of completion of the online modules is 27 hours, though this will vary by individual. In addition, students are required to complete assessments of their learning experience and structured reflections regarding the application of content to patient care and health care delivery, for an estimated additional 5+ hours. The knowledge and skills from this course will distinguish the individual who takes it as uniquely prepared for entering residency with advanced competency in Systems-based Practice, a required competency in all residencies.

MEDICINE
Clinical Nephrology .................... MDCN2002
4 Credits
ELECTIVE DIRECTOR: Dr. Sriram Narsipur
CONTACT: westml@upstate.edu
PREREQUISITES: MDCN2000
MAXIMUM NUMBER OF STUDENTS: 2
PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012
ELECTIVE DESCRIPTION: Teaching is oriented around detailed discussion of the pathophysiology and management of renal disease. The consult team includes an attending, fellow, residents, and medical students. Consultations involve patients with end-stage renal disease on chronic hemodialysis, chronic peritoneal dialysis (CAPD) or with renal transplants. There are three weekly scheduled conferences and three weekly renal clinics at which students are encouraged to participate. Basic textbook reading and an attempt at evidence based medicine and critical assessment of the literature is required. The student should gain knowledge related to the pathophysiology and treatment of a variety of renal diseases such as glomerulonephritis, kidney stones, fluid and electrolyte disorders, and acute and chronic renal failure. A basic understanding of urinalysis and dialysis will be taught. This rotation provides a true clinical opportunity to integrate physiology, pharmacology, pathology, and molecular biology in disease ranging from chronic outpatient states to critically ill patients in the surgical and medical ICUs. The elective is based at University Hospital with consultations the VA Hospital and Crouse Memorial Hospital. An outpatient transplant clinic and nearby dialysis unit offer optional exposure to chronic management of ESRD.

Clinical Pulmonary Disease ...... MDCN2004
2 TO 4 Credits
ELECTIVE DIRECTOR: Dr. James Sexton
CONTACT: hadcocka@upstate.edu
PREREQUISITES: MDCN2000
MAXIMUM NUMBER OF STUDENTS: 2
PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012
ELECTIVE DESCRIPTION: The major emphasis of the elective is on the diagnosis and management of pulmonary disease and on applied pulmonary physiology. The student will participate in the care of patients on the Pulmonary Service and will see, with the attending physician, all pulmonary consults requested by other services. The student can anticipate seeing problems such as solitary pulmonary nodules, difficult pneumonias, pulmonary infiltrates in immuno-compromised patients, pleural effusions, post-operative pulmonary complications, and pre-operative pulmonary evaluations, chronic obstructive lung disease and asthma. The student will learn the indications for special diagnostic procedures such as CT scans, pleural biopsy, needle aspiration and biopsy, and fiberoptic bronchoscopy. The student will have the opportunity to observe in fiberoptic bronchoscopy. The student will learn to interpret the results of pulmonary function tests and arterial blood gas analysis.
Clinical Endocrinology, Diabetes & Metabolism ........................... MDCN2005
4 Credits  Preceptor's Site
ELECTIVE DIRECTOR: Dr. Marisa Desimone
CONTACT: haitghm@upstate.edu
PREREQUISITES: MDCN2000
MAXIMUM NUMBER OF STUDENTS: 2
PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012
ELECTIVE DESCRIPTION: The goal of this elective is for the student to demonstrate competency in applying the principles of evaluation and management of adults with general endocrine disorders and diabetes mellitus. Objectives include: 1) Teaching specialized history taking and physical examination, clinical procedures and laboratory testing of patients with endocrine and metabolic abnormalities of all categories; 2) Demonstration of testing procedures and their applications to the known physiology of each endocrine system in an evaluation of that system; 3) Teach the evaluation and management of adults with diabetes mellitus, working with the multidisciplinary Joslin Center team of endocrinologists, educators, nutritionists, exercise specialist, podiatrists and other consultants for diabetes-related complications; 4) Demonstrate how endocrine malfunction can be diagnosed and treated both in specific endocrinopathies of the pituitary, thyroid, parathyroid, pancreas, adrenal cortex and gonads and in other endocrine and metabolic disorders (e.g., lipid disorders, metabolic bone disease, growth disorders, water and electrolyte abnormalities). Ambulatory patient care sessions will be at the Joslin Center for Diabetes, University Endocrinologists and Osteoporosis Center of the SUNY Upstate Medical University and at the Diabetes and Endocrine clinics at the VA Medical Center.

Hematology/Oncology .......... MDCN2012 4 Credits
ELECTIVE DIRECTOR: Stephen Graziano
CONTACT: simmonca@upstate.edu
PREREQUISITES: MDCN2000
MAXIMUM NUMBER OF STUDENTS: 4
PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012
ELECTIVE DESCRIPTION: To evaluate inpatients with both Hematologic and Oncologic diseases under the close supervision of staff. Training is provided in blood cell identification and the diagnosis and treatment of Hematologic disorders. Additionally, the student is taught the techniques involved in the diagnosis and treatment of Oncologic disease entities. Stress is laid upon the biochemical and physiological mechanisms in the normal, as well as the disease state and in the active participation of the students in the diagnosis and care of the patients. Joint conferences are held weekly with Clinical Pathology and Radiology. This elective should be considered to be at least intermediate between a clerkship and an acting internship in the degree of involvement and the individual initiative that is required of the students. Rotation can be directed towards solid tumors or hematologic disorders.

Clinical Infectious Disease ...... MDCN2014 4 Credits
ELECTIVE DIRECTOR: Dr. Timothy Endy
CONTACT: scottmic@upstate.edu
PREREQUISITES: MDCN2000
MAXIMUM NUMBER OF STUDENTS: 2
PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012
ELECTIVE DESCRIPTION: An advanced undergraduate course in diagnosis and management of patients with Infectious Diseases. The student, working closely with a Resident or Fellow, will do the initial evaluation of patients referred to our service for consultation, will present his/her patients to the Attending Physician on daily ward rounds and will subsequently be responsible for following his/her patients through their hospital course. He/she will be asked periodically to review certain subjects and to make brief presentations at daily rounds, the weekly Infectious Diseases Conference or the weekly Clinical Case Conference. The student is expected to take advantage of the opportunity to explore clinical microbiology.

Gastroenterology ............. MDCN2017 4 Credits
ELECTIVE DIRECTOR: Dr. Sekou Rawlins
CONTACT: krauseb@upstate.edu
PREREQUISITES: MDCN2000 A SURG8200
MAXIMUM NUMBER OF STUDENTS: 2
PERIODS OFFERED: 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012, this course is not available in the elective lottery.
ELECTIVE DESCRIPTION: During this experience, the student will function as the acting intern for patients admitted to the Gastroenterology and Hepatology services, will learn to provide consultative services in Gastroenterology and will participate in three outpatient sessions weekly. The student will join other members of the section in case-management, journal club, pathology, radiology and clinical conferences. As learning objectives, the student will interpret and integrate data from the clinical record, laboratory, radiologic, endoscopic, histopathologic and manometric studies to develop clinical management strategies.

Hematology/Oncology .......... MDCN2040 4 Credits
ELECTIVE DIRECTOR: Stephen Graziano
CONTACT: simmonca@upstate.edu
PREREQUISITES: MDCN2000
MAXIMUM NUMBER OF STUDENTS: 2
PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012
ELECTIVE DESCRIPTION: This experience will be designed to provide an exposure to the problems encountered in diagnosis and treatment of ambulatory patients with a broad variety of solid tumors and hematologic disorders. Training is provided in blood cell identification and the diagnosis and treatment of hematologic disorders. Knowledge of the mechanisms of action, pharmacology, toxicities and the
therapeutic indication for various classes of anti-tumor compounds will be obtained. The relationships between the principles derived from experimental tumor systems and human cancer will be emphasized. Additionally, the interdisciplinary nature of oncology practice will be stressed. Emphasis will also be placed upon the various phases of clinical investigation, and experimental design which relates to the development of properly conceived and executed clinical trials. Nine interdisciplinary Clinic sessions will be attended weekly. The student will be expected to accept primary patient responsibility and become intimately involved not only in the medical but also the psychosocial implications of malignant/ hematologic disease.

**Clinical Cardiology** .................. MDCN2044

4 Credits

ELECTIVE DIRECTOR: Dr. Timothy Ford

CONTACT: FORDT@UPSTATE.EDU

PREREQUISITES: MDCN2000

MAXIMUM NUMBER OF STUDENTS: 2

PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012

ELECTIVE DESCRIPTION: This course is designed to prove a basic background in clinical cardiology. Students should improve their skills in the physical examination of the heart and gain experiences with pathophysiology, diagnosis, and management of angina pectoris, myocardial infarction and congestive heart failure, hypertension, and valvular heart disease, among other cardiovascular diseases. They will also become familiar with the value of information obtained and the techniques involved in electrocardiographic stress testing, nuclear cardiology and echocardiography. There will be a one hour didactic electrocardiography session per week with supplemental self-assessed learning/computer assisted learning (American College of Cardiology ECG-SAP). Students should be able to understand the data generated from cardiac catheterization and percutaneous coronary interventions including PCTA and Stents. They will also be introduced to the morbidity, mortality and benefits of cardiac surgery. These improvements in clinical skills should lead to the ability to approach a patient with heart disease, along with its diagnosis, evaluation of its severity, and its treatment.

**Critical Care** .......................... MDCN2058

4 Credits

ELECTIVE DIRECTOR: Dr. James Sexton

CONTACT: hadcocka@upstate.edu

PREREQUISITES: MDCN2000 A SURG8200

MAXIMUM NUMBER OF STUDENTS: 4

PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 009, 010

ELECTIVE DESCRIPTION: The students will be taught the theory and techniques used in the management of critically ill patients. After completion of the course a student will be able to understand the management of a patient with multiple system organ failure as well as be comfortable with advanced ventilatory and hemodynamic management. Students receive practical instruction in the performance of invasive procedures including but not limited to central lines, pulmonary artery catheters and arterial lines.

**Clinical Internal Medicine & Infectious Diseases** ............................. MDCN2059

4 Credits  Community General Hospital

ELECTIVE DIRECTOR: Dr. Mitchell Brodey

CONTACT: mbrodey@pridoc.com

PREREQUISITES: MDCN2000 A SURG8200

MAXIMUM NUMBER OF STUDENTS: 1

PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012

ELECTIVE DESCRIPTION: Observation and participation in clinical infectious diseases will include inpatient care at Community General Hospital as well as outpatient experience. Emphasis on diagnosis and treatment of common problems in unusual infectious disease problems and travel medicine. Emphasis is also placed on care of patients with HIV disease both in the outpatient and inpatient setting. After completing the course, the student should have good ability to diagnose and treat inpatient and outpatient medical problems as well as a thorough understanding of the principles and practice of antibiotic use, HIV therapy and travel medicine.

**Medicine for the Disenfranchised** .......................... MDCN2064

0 Credit

ELECTIVE DIRECTOR: Dr. Peter Cronkright

CONTACT: CRONKRIP@UPSTATE.EDU

PREREQUISITES: None

MAXIMUM NUMBER OF STUDENTS: 30

PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012

ELECTIVE DESCRIPTION: ELECTIVE DESCRIPTION: Physical exams are provided to newly resettled refugees by care teams comprised of students, residents, and faculty physicians. For many refugees, the care is their first encounter with mainstream medicine. MS-2 coordinators manage clinic operations while MS 1-4 volunteers provide the care service and gain experience in physical exam skills and cross-cultural communication.

**Clinical Dermatology** .......................... MDCN2066

2 Credits

ELECTIVE DIRECTOR: Dr. Ramsay Farah

CONTACT: falisek@upstate.edu

PREREQUISITES: MDCN2000

MAXIMUM NUMBER OF STUDENTS: 2

PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012, this course is not available in the elective lottery.

ELECTIVE DESCRIPTION: General Clinical Dermatology will be the focus. Students will see patients on an outpatient basis. Basic dermatologic conditions and procedures will be emphasized.
Clinical Rheumatology............. MDCN2075
4 Credits
ELECTIVE DIRECTOR: Dr. Andras Perl
CONTACT: sukerte@upstate.edu
PREREQUISITES: MDCN2000
MAXIMUM NUMBER OF STUDENTS: 2
PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012
ELECTIVE DESCRIPTION: This is a clinical care experience elective that focuses on the diagnosis, treatment, and management of rheumatological disorders utilizing direct patient contact and case-based teaching. Elective participants will be exposed to rare and common rheumatological conditions through our inpatient consultations and outpatient Adult clinic and pediatric services. Under the supervision of the attending the student will develop skills in musculoskeletal examination and clinical evaluation, interpretation of laboratory tests (including joint fluid examination and x-ray and MRI imaging studies) and the management of rheumatic diseases commonly seen by generalists. Participation in regularly scheduled rounds, clinic and other conferences are expected as they provide a more formal training for the students. The course will culminate in the student’s presentation at our Friday didactic session. For those interested in clinical or basic science research, please contact the department prior to the start of the elective for arrangements.

Global Village in Our Backyard………………….. MDCN2213
2 Credits Concurrent Elective
ELECTIVE DIRECTOR: Dr. Peter Cronkright
CONTACT: CRONKRIP@UPSTATE.EDU
PREREQUISITES: MDCN2000
MAXIMUM NUMBER OF STUDENTS: 2
PERIODS OFFERED: Concurrent, this course is not available in the elective lottery.
ELECTIVE DESCRIPTION: ELECTIVE DESCRIPTION: The Global Village in Our Backyard provides best practices in immigrant care. Senior medical students will play a key role in the care of refugees. Students will participate in two sessions weekly (4 hours each session) for three months. The elective may be done concurrently with faculty approval. Students will be introduced to the knowledge and skills required to care for emigrants from various geographic regions. Immigrant issues addressed will include: 1) Preventive care issues: immunizations, dental health, nutrition, smoking; 2) Chronic medical disease management: TB, Hepatitis B, Diabetes, parasites; 3) Mental health issues: Survivors of torture, substance-induced disorders, community and domestic violence, spirituality; 4) Systems-based learning through direct participation in process improvement projects.

The Scientific Basis of Critical Care ............. MDCN2214
2 Credits Basic Science Selective
ELECTIVE DIRECTOR: Dr. Dana Savici
CONTACT: dorm@upstate.edu
PREREQUISITES: MDCN2000 A SURG8200 A OBGY3600 A Peds5600 A FAMP1600 A PYCH6800
MAXIMUM NUMBER OF STUDENTS: 3
PERIODS OFFERED: 02B, 04A, 07A, 8A, 8B, this course is not available in the elective lottery.
ELECTIVE DESCRIPTION: The intensive care unit is the setting for dramatic manifestations of organ failure (lung, heart, kidney, liver, etc) and systemic derangements of normal physiology. The basic sciences of physiology, pharmacology, microbiology, anatomy and pathology are utilized on daily basis to learn and understand each of our critically ill patients. Students will be imbedded in the Medical Intensive Care Unit for a 2 week elective. Students will participate in daily rounds, participate in the care of selected patients, and meet with the course instructor daily for 1 hour (4-5 days per week). The focus of these meetings will be to review the basic science aspects of assigned patients.

The Clinical Experience ..............MDCN2215
6 Credits Pass/Fail Grading
ELECTIVE DIRECTOR: Dr. Stephen Knoll
CONTACT: KNOHLS@UPSTATE.EDU
PREREQUISITES: MANA107 A MANA108 A MBH101 A MMCP101 A MPH101 A MPOM105
MAXIMUM NUMBER OF STUDENTS: 12
PERIODS OFFERED: 12, this course is not available in the elective lottery.
ELECTIVE DESCRIPTION: You have come to medical school to become a doctor by doing. It is scant during your MSI year. While you have Practice of Medicine (POM), it only allows you glimpses of the real world of medicine. A 6-week Internal Medicine experience will be much different as you will have an extended stay in the clinical world working with members of the Internal Medicine team. You will gain insight and skills that will serve you well during the remaining three years of medical school. Students will participate in three 2-week blocks in which they will work with faculty, house staff, and, perhaps, clerkship students, in a variety of venues including the following: Outpatient Clinics (General Medicine and Subspecialty) (1.) Intensive Care Unit (2.) Coronary Care Unit (3.) General Medicine Inpatient (4.) Hematology/Oncology Inpatient Additionally, the student will participate in a weekly small-group session with a member of the faculty to tackle a variety of topics such as clinical case review or physical exam skills.

Acting Internship in Internal Medicine - UH/CGH General Medicine .........MDCN2217
4 Credits
ELECTIVE DIRECTOR: Dr. Vincent Frechet
CONTACT: Mickinkd@upstate.edu
PREREQUISITES: None
MAXIMUM NUMBER OF STUDENTS: 5
PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012
ELECTIVE DESCRIPTION: This experience allows a medical student, who must have successfully completed the Internal Medicine clerkship, to further develop along the RIME (Reporter, Interpreter,
Manager, Educator) pathway. Whereas a clerkship student should have demonstrated proficiency as a Reported, and hopefully, shown promise as an Interpreter, the Acting Intern is expected to master the Reported function, demonstrate level-appropriate Interpreter function, and display abilities as Manager and Educator. In this four week rotation, you will function just as an intern would (short of authority to sign orders) on an inpatient service and be supervised by an attending and/or senior resident.

**Acting Internship in Internal Medicine - UH Cardiology** .................. MDCN2218

**NEUROLOGY**

**Adult Clinical Neurology Acting Internship** ........................................ NEUR2801

4 Credits

ELECTIVE DIRECTOR: Dr. Michael Vertino

CONTACT: VERTINOM@UPSTATE.EDU

PREREQUISITES: MDCN2000 A SURG8200 A OBGY3600 A PEDS5600 A FAMP1600 A PYCH6800

MAXIMUM NUMBER OF STUDENTS: 1

PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012

ELECTIVE DESCRIPTION: The Adult Neurology Acting Internship will help students broaden their knowledge of neurology, enhance their clinical acumen, localization and examination skills, and competence. Each AI will serve as an integral part of the team, either on the inpatient service or the consultation service. The AI will be responsible, under the supervision of housestaff and attending physicians, for the evaluation of and management of patients assigned to them. Students will take night calls and make ward rounds with their supervising resident. Acting interns will participate in all scheduled conferences for the housestaff, including morning report, EEG/EMG conference, neuro-ophthalmology and the resident review course sessions. Outpatient experiences may be arranged depending on the schedule and availability of faculty members. Evaluation of students is based on their oral presentations, written documentation, interactions with housestaff and attendings and other educational assignments.
Clinical Pediatric Neurology ...... NEUR2804
2 TO 4 Credits
ELECTIVE DIRECTOR: Klaus Werner
CONTACT: kellyl@upstate.edu
PREREQUISITES: (PEDS5600 O PEDS5800) A (NEUR3000 O NEUR2800)
MAXIMUM NUMBER OF STUDENTS: 1
PERIODS OFFERED: 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012, this course is not available in the elective lottery.

ELECTIVE DESCRIPTION: To familiarize the student with the essentials of the pediatric neurologic examination at various developmental stages. The student may further elect to concentrate on either the management of chronic disorders or the basic mechanisms of a selected group of specific diseases.

Elective with Practicing Neurologist.......... ............................................................. NEUR2808
4 Credits
ELECTIVE DIRECTOR: Dr. Michael Vertino
CONTACT: VERTINOM@UPSTATE.EDU
PREREQUISITES: NEUR3000
MAXIMUM NUMBER OF STUDENTS: 2
PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012, this course is not available in the elective lottery.

ELECTIVE DESCRIPTION: This elective will provide an outpatient experience for students interested in neurology. Students may select up to 2 units over a 4-week period from the following: neuromuscular disease/EMG, epilepsy/EEG/evoked potentials, neuroophthalmology/headache, cerebrovascular disease, general neurology, pediatric neurology, movement disorders, neurology with a private practitioner. The month will be scheduled according to the student’s interests and the availability of attending physicians in the particular area(s) selected. Students will have the opportunity to participate in patient care within the areas assigned. Students should contact the attending physicians in their assigned area(s) of interest to determine availability and then contact Dr. Vertino for assistance with scheduling.

Neuro-Ophthalmology ............... NEUR2814
4 Credits
ELECTIVE DIRECTOR: Dr. Luis Mejico
CONTACT: MEJICOL@UPSTATE.EDU
PREREQUISITES: NEUR3000
MAXIMUM NUMBER OF STUDENTS: 1
PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012, this course is not available in the elective lottery.

ELECTIVE DESCRIPTION: Neuro-ophthalmology interfaces Neurology, Ophthalmology, Neurosurgery, and Medicine to evaluate patients who have non-ophthalmic problems of the visual system. Students will learn to use the basic principles of the neurological history and examination, coupled with techniques of the ophthalmological examination to investigate various neuro-ophthalmic problems. Majors areas of emphasis include optic nerve disorders, visual field defects, ocular motility problems, neuroophthalamic manifestations of systemic diseases, familiarity with various neurodiagnostic tests, and therapeutics. Some experience in evaluation of neurological patients is included. Students will participate in weekly Neuroophthalmology conference and will be assigned responsibility for the preparation of one session during their rotation. Most of the experience will be with outpatients, and some inpatient consultations.

NEUROSCIENCE AND PHYSIOLOGY
Current Research in Obesity and Regulation of Appetite .............. NEUP6201
0.5 Credit Concurrent Elective
ELECTIVE DIRECTOR: Dr. Mary Lou Vallano
CONTACT: VALLANOM@UPSTATE.EDU
PREREQUISITES: None
MAXIMUM NUMBER OF STUDENTS: 4
PERIODS OFFERED: Concurrent, this course is not available in the elective lottery.

ELECTIVE DESCRIPTION: The purpose of this seminar-based course is to develop the student's knowledge of current research strategies and discoveries in a focused and clinically-relevant area of medical research. The centerpiece of the course, aimed at academically-minded students, will be four videotaped lectures by NIH-funded, international experts in the field of autism and neurodevelopmental diseases. The format includes four primary activities: (1) student pre-seminars; (2) videotaped lectures obtained from the NIH archives; (3) critical discussion periods involving students and 2-3 expert faculty members; (4) a short paper. To enhance their organizational, communication, and critical-thinking skills, each student will develop a pre-lecture power point presentation as an introduction to the videotaped NIH lecture. It will be ~50 min in length to allow some time for questionning and the presenter will assign 2 papers for all participants to read in advance. Students will be required to view the lecture video in advance of preparing their pre-seminar so as to tailor the presentation for maximal audience benefit and minimal overlap with the lecture. Following this, the NIH lecture will be viewed (~1hr). Afterwards, students and faculty will participate in a critical discussion of the topic, including clinical considerations and future therapeutic relevance. Following all four pre-seminars, lectures, and discussions, students will submit a short written paper summarizing the current status of the field, including future goals and experimental strategies (~5 pages). Students will have opportunities to consult with participating faculty as they prepare their presentations and papers. Students will receive written formative feedback based on their presentations, paper, and participation.

OBSTETRICS AND GYNECOLOGY

High Risk Obstetrics Acting Internship.............. OBGY3604

4 Credits Crouse Hospital

ELECTIVE DIRECTOR: Dr. Robert Silverman
CONTACT: rydelek@upstate.edu
PREREQUISITES: OBGY3600
MAXIMUM NUMBER OF STUDENTS: 4
PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012

ELECTIVE DESCRIPTION: This represents an intensive experience with the clinical management of High Risk Obstetrical patients being seen in the obstetrical unit of Crouse hospital and in the outpatient area of the Regional Perinatal Center. Special attention is given to identification of high risk patients, intensified perinatal care, experience with tests of fetal well being (amniocentesis, NST, BPP, ultrasound) during the prenatal period as well as intrapartum period (fetal heart rate monitoring, scalp PH, etc.). The student will gain an insight into maternal-fetal medicine at the clinical level. Specific goals are: 1) Clear knowledge of and an ability to apply the high risk scoring system; 2) Ability to interpret tests of fetal welfare. A review and presentation of a topic in high risk obstetrics will be required to be completed within the elective period.

Reproductive Endocrinology and Infertility

...................................................... OBGY3608

4 Credits

ELECTIVE DIRECTOR: Dr. Shawky Badawy
CONTACT: BADAWYS@UPSTATE.EDU
PREREQUISITES: OBGY3600
MAXIMUM NUMBER OF STUDENTS: 4
PERIODS OFFERED: 001, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012

ELECTIVE DESCRIPTION: The student will learn the general rules of working up a patient with endocrinologic problems and/or infertility. The correlation of lab data will be discussed and an explanation of the importance of these data relating to the case under discussion has to be clearly evaluated. The student will be exposed to good material with multitudes of problems such as amenorrheas, irregular bleeding, anovulation, tubal problems, and uterine factors including congenitaluterine malformations. The diagnosis and management will be fully discussed. The student will have a chance to scrub on cases in the O.R. and this will give him/her an opportunity to study some surgical pathology relating to reproductive endocrinology and infertility. The weekly conferences will deal with endocrine and infertility case and literature discussions and the students could participate in the topics and discussions.
Reproductive Health .......................... OBGY3619
4 Credits
ELECTIVE DIRECTOR:  Dr. Renee Mestad, Zevidiah
Vickery
CONTACT: MESTADR@UPSTATE.EDU
PREREQUISITES:  OBGY3600
MAXIMUM NUMBER OF STUDENTS: 2
PERIODS OFFERED:  001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012
ELECTIVE DESCRIPTION: The goal of this course is to familiarize medical students with specific women's health care issues, including sexuality, pregnancy, contraception, abortion, preventive health matters, also including peri-menopausal issues, domestic violence and STD prevention. Students will be responsible to produce a research paper on a related area of their choice, with preceptor's concurrence. They will participate in a variety of outpatient facilities, as well as operating room sessions. Patient counseling issues will be strongly emphasized. Reading assignments will be tailored to the student's particular area of interest.

Miracle Continuity ............................... OBGY3622
2 Credits  Concurrent Elective
ELECTIVE DIRECTOR:  Dr. Diane Folk, Dr. Jodi Wallis
CONTACT: folkd@upstate.edu
PREREQUISITES:  None
MAXIMUM NUMBER OF STUDENTS: 20
PERIODS OFFERED:  011, CCR, this course is not available in the elective lottery.
ELECTIVE DESCRIPTION: The Miracle Continuity Elective is an fifteen-month elective opportunity providing both academic and field experiences for first year medical students who desire to gain information, insights and experiences regarding 1) The continuity of care in woman and child health; 2) The psychosocial dimension of care; 3) The pre- and perinatal primary parenting factors involved in optimum maternal and child health care and 4) The nature of pregnancy, birth and breastfeeding and their impact on maternal/child health and the emerging family. Each student is paired with a family receiving pregnancy care within the SUNY Maternal Child Health Center component of the University Health Care Center and local OB/GYN practices. Pairing will occur during the mid second trimester following family consent. Students will remain involved with the family throughout the pregnancy, at birth and through newborn child care until the child's first birthday. The objectives are 1) To provide an opportunity for medical student-family interaction during the period from pregnancy through the child's first birthday in a co-learning partnership between student and the family; 2) To incorporate wellness into everyday lives of the family and the student; 3) To inform both medical students and parent of the basic tenets of parenting during pregnancy, birthing, breast feeding; 4) To provide an opportunity for women and their families to influence the health care system of the future; 5) To gain valuable insights into the relationship of basic science course work to clinical practice of medicine.

Gynecologic Oncology ............................ OBGY3624
4 Credits  Preceptor's Site
ELECTIVE DIRECTOR:  Dr. Mary Cunningham
CONTACT: CUNNINGM@UPSTATE.EDU
PREREQUISITES:  OBGY3600
MAXIMUM NUMBER OF STUDENTS: 1
PERIODS OFFERED:  001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012
ELECTIVE DESCRIPTION: This is a subinternship experience in the outpatient and inpatient management of patients with gynecological malignancies. Students will participate in all aspects of patient care under the direction and supervision of the attending and resident physician staff. Students will participate in surgical procedures, become familiar with anatomy of the abdomen and pelvis and begin to develop surgical skills. Students will take histories, perform physical examinations, write notes, and present patients on rounds and in the office. A presentation on a topic of the student's choice is required at the end of the rotation.

An Approach to Critical Analysis of the Literature of Patient Management .......................... OBGY3625
2 Credits
ELECTIVE DIRECTOR:  Dr. Raja Abdul-Karim
CONTACT: ABDULR@UPSTATE.EDU
PREREQUISITES:  MANA107 A MANA108 A MBBH101 A MPOM105 A MCMCP101 A MPHY101 A MPPH101 A MBSC201 A MCI201 A MPMH201 A MPBH202 A MPOM201
MAXIMUM NUMBER OF STUDENTS: 1
PERIODS OFFERED:  03A, 03B, 04A, 04B, 05A, 05B, 06A, 06B, 08A, 08B, 09A, 09B, 10A, 10B, 11A, 11B
ELECTIVE DESCRIPTION: The focus of this two week elective is to help students develop and sharpen their skills in evaluating the literature and their analysis of a patient's history, physical examination findings and management. Students will be required to review and critique published articles, review or perform history and physical examinations, and identify and discuss any deficiencies. They will outline a management plan and justify each recommendation, including laboratory tests. This one-to-one approach will enhance a student's analytical skills in the relatively short span of two weeks.

Office-Based Obstetrics and Gynecology ... ............................ OBGY3626
4 Credits
ELECTIVE DIRECTOR:  Dr. George Stanley
CONTACT: GLS1@schcny.com
PREREQUISITES:  OBGY3600
MAXIMUM NUMBER OF STUDENTS: 1
PERIODS OFFERED:  002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012
ELECTIVE DESCRIPTION: This very busy office-based practice will expose the students to a full spectrum of obstetric and gynecologic disease processes. In addition to their responsibilities with patient care in the office, students will assist in surgeries, attend deliveries, and take 4 night calls with the attending
physician. Students will function on a level commensurate with their abilities under the direction of the attending staff.

**Breast Disease .......................... OBGY3631 4 Credits**

**ELECTIVE DIRECTOR:** Dr. Jayne Charlamb  
**CONTACT:** edwarsar@upstate.edu  
**PREREQUISITES:** None  
**MAXIMUM NUMBER OF STUDENTS:** 1  
**PERIODS OFFERED:** 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012  
**ELECTIVE DESCRIPTION:** The goal of the course is to gain in-depth exposure in the diagnosis and treatment of benign and malignant breast disease from a multidisciplinary perspective. Primary focus is on participation in evaluation and treatment of outpatients at the Breast Care and Surgical Center at 90 Presidential Plaza (UHCC). History taking with the attending, physical exams with the attending and office procedures with the attending will be emphasized to provide an understanding of the approach to various medical problems of the breast. Participation in the OR is also encouraged with review of the specimens in pathology to provide a more comprehensive view of the diagnostic process. Experience in the mammography, ultrasound, needle localization and radiation therapy is available in the radiology department, if the student is interested. The student is encouraged to participate in the Multidisciplinary Breast Cancer Program held at the Regional Oncology each Friday afternoon. Teaching will occur on a one-to-one basis with attending; independent reading and learning is imperative.

**OPHTHALMOLOGY**

**Ophthalmology .......................... OPTH4001 4 Credits**

**ELECTIVE DIRECTOR:** Dr. Ann Barker-Griffith  
**CONTACT:** BARKERGA@UPSTATE.EDU  
**PREREQUISITES:** MDCN2000 A SURG8200  
**MAXIMUM NUMBER OF STUDENTS:** 2  
**PERIODS OFFERED:** 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012  
**ELECTIVE DESCRIPTION:** In this course, an attempt is made to give the student an understanding of the eye, its function, abnormalities and diseases, and its relation to the body as a whole. Students are taught history taking and techniques of examination. They are expected to intelligently approach a patient with eye problems, ask the proper questions to obtain a valuable history, and examine a patient to adequately understand pathology if it exists. No attempt is made to teach students to refract in the short time allowed; however, they should be able to do a reasonable visual field. Although students attend surgery and learn surgical techniques as part of the curriculum, most of the elective time is spent in the Eye Clinic working up patients as the student’s ability develops. To be able to recognize the more serious problems that threaten vision and require treatment, and to have a basic understanding of therapy are main focuses of the elective. As students develop a working knowledge of the ophthalmoscope, they become familiar with eye changes in systemic disease, including fundus changes in systemic disease as well as local disease. Students make rounds with the residents and attendings, and take part in morning conferences each day. Students are encouraged to participate in case presentations and literature reviews, attending all Visiting Professor Days, lectures, seminars, Journal Clubs, and special programs on the Departmental schedule. DVD teaching sets, as well as a departmental library, provide a background for clinical exposure and patient care. A 20-minute presentation by students taking the elective for at least 4 credits is part of the Course curriculum.

**Eye Pathology .......................... OPTH4002 4 Credits Basic Science Selective**

**ELECTIVE DIRECTOR:** Dr. Ann Barker-Griffith  
**CONTACT:** BARKERGA@UPSTATE.EDU  
**PREREQUISITES:** None  
**MAXIMUM NUMBER OF STUDENTS:** 1  
**PERIODS OFFERED:** 001, 009, 011, 012, this course is not available in the elective lottery.  
**ELECTIVE DESCRIPTION:** By study of current and teaching set pathologic specimens, the students will learn how ocular structure and function are affected by the major ocular diseases. Clinical-pathologic correlation and therapy will be emphasized. The students will learn how to examine ocular specimens using both the dissecting and the light microscope, and will participate in the complete work-up of these pathologic cases. It is expected that they will have a functional vocabulary of ophthalmic terms, a working knowledge of ocular anatomy, and a rational approach to eye disease at the completion of this course.

**Ophthalmology .......................... OPTH4003 4 Credits**

**ELECTIVE DIRECTOR:** Dr. Ann Barker-Griffith  
**CONTACT:** BARKERGA@UPSTATE.EDU  
**PREREQUISITES:** None  
**MAXIMUM NUMBER OF STUDENTS:** 2  
**PERIODS OFFERED:** 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012, this course is not available in the elective lottery.  
**ELECTIVE DESCRIPTION:** Student will spend majority of his/her time in the private office of a practicing ophthalmologist, learning the routine of office practice. The student will also observe in the operating room when the attending physician is operating, and spend time in the clinics on the attending’s clinic days. Students are expected to attend departmental lectures, seminars, etc. A 20-minute presentation in the Department at the end of the elective is part of the Course curriculum for all students taking the elective for at least 4 credits.
Clinical Elective in Ophthalmology & Otolaryngology ............... OPTH4004 4 Credits
ELECTIVE DIRECTOR: Dr. Ann Barker-Griffith
CONTACT: BARKERGA@UPSTATE.EDU
PREREQUISITES: SURG8200
MAXIMUM NUMBER OF STUDENTS: 1
PERIODS OFFERED: 003, 004, 005, 006, 007, 008, 009, 010, 011, 012
ELECTIVE DESCRIPTION: This elective is offered as a combined learning experience by the Departments of Otolaryngology and Ophthalmology. The primary objective of the elective is to provide a broad exposure to the "medical" aspects of the specialties as they would be encountered by the primary care physician. The greatest proportion of the student's time will be directed towards the outpatient evaluation and care of common problems of the eyes, ears, nose and throat with minimal emphasis on the surgical aspect.

ORTHOPEDIC SURGERY
Orthopedic Acting Internship - Upstate Medical University .......... ORTH4401 4 Credits
ELECTIVE DIRECTOR: Dr. Brian Kistler
CONTACT: bordeauj@upstate.edu
PREREQUISITES: SURG8200
MAXIMUM NUMBER OF STUDENTS: 4
PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012
ELECTIVE DESCRIPTION: This Acting Internship is designed for the student interested in an orthopedic surgery residency program. The acting internship is an attempt to allow the student to put into practice those skills and concepts gained in the third-year clerkship. Students are expected to participate throughout the range of activities within the department on both an inpatient and outpatient basis, from ER to the OR. The student will assume as much responsibility for the management and care of his patients as his skill and interest allow. Whether one is making a decision about Orthopedic Surgery as a career, or using the opportunity as enrichment for another discipline, this should allow the "fleshing out" of those objectives defined and distributed in the third year.

Pediatrics Orthopedics .......... ORTH4405 4 Credits
ELECTIVE DIRECTOR: Dr. Danielle Katz
CONTACT: bordeauj@upstate.edu
PREREQUISITES: SURG8200 A PEDS5600
MAXIMUM NUMBER OF STUDENTS: 1
PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012
ELECTIVE DESCRIPTION: A wide variety of children's musculoskeletal problems will be presented to the student utilizing clinics, the Emergency Department, and elective and emergent surgery. Approaches to evaluating and treating both common and more complex problems will be carried out under the supervision of the resident and attending staffs. The student will be encouraged to become actively involved with care of the patients; responsibility in each area will be increased as the student's skills develop and will depend upon his/her availability and initiative. At the conclusion of the elective, the student should be more at ease with pediatric patients and their parents and more adept at appropriately recognizing and dealing with common pediatric orthopedic problems.

Orthopedic Acting Internship in Sports Medicine ..................... ORTH4406 4 Credits
ELECTIVE DIRECTOR: Dr. John Cannizzaro
CONTACT: bordeauj@upstate.edu
PREREQUISITES: SURG8200
MAXIMUM NUMBER OF STUDENTS: 1
PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012
ELECTIVE DESCRIPTION: The student will be part of the Sports Medicine team, managing athletic injuries with the three members of the faculty and Sports Orthopedic Resident. The student will be expected to assist in the Operating Room and the surgical care of injured athletes. A mini-research project can be developed with the faculty. At the conclusion of this acting internship, the student should have a general knowledge of musculoskeletal athletic injury and an exposure to some of the responsibilities of a team physician. The non-operative approach to most athletic injuries should be appreciated as well as the thought process involved in surgical care.

Hand, Shoulder, Elbow Surgery ..................
................................................. ORTH4412 4 Credits
ELECTIVE DIRECTOR: Dr. Kevin Setter
CONTACT: bordeauj@upstate.edu
PREREQUISITES: SURG8200
MAXIMUM NUMBER OF STUDENTS: 1
PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012
ELECTIVE DESCRIPTION: Students will become proficient in the diagnosis, pathophysiology, and non-operative and operative treatments for common hand, elbow, and shoulder disorders. Students will gain a fundamental knowledge and understanding of anatomy about the upper extremity. Students will actively participate in clinic outpatient care and actively assist in the operating room during surgical cases. Experience will be gained in general orthopedic and soft tissue surgical techniques, including tendon repair, neurovascular repairs, and bony orthopedic procedures. A close association exists between the students and hand Residents and Fellows to allow for a strong opportunity to develop these skills.

OTOLARYNGOLOGY
Otolaryngology Acting Internship .................. OTOL4801 4 Credits
ELECTIVE DIRECTOR: Dr. Robert Kellman
CONTACT: keeneys@upstate.edu
PREREQUISITES: None
PATHOLOGY

Specialized Pathology ..........PATH5201 2 Credits Basic Science Selective, Pass/Fail Grading

ELECTIVE DIRECTOR: Dr. Paul Shanley
CONTACT: kellykc@upstate.edu
PREREQUISITES: MPTH201
MAXIMUM NUMBER OF STUDENTS: 2
PERIODS OFFERED: 01A, 01B, 02A, 02B, 03A, 03B, 04A, 04B, 05A, 05B, 06A, 06B, 07A, 07B, 08A, 08B, 09A, 09B, 10A, 10B, 11A, 11B, 12A, 12B

ELECTIVE DESCRIPTION: The student will study pathology topics with an emphasis on bridging the basic science foundation with clinical medicine. The elective requires active participation in a variety of settings and centers on symposium-style presentations by students. The goal is to offer exposure to the pathology of specific organ systems, tailored to the students’ future specialty plans. Emphasis areas in anatomic pathology include: autopsy/forensic, cytopathology, gastrointestinal, genitourinary, orthopedic, ENT, Ob/Gyn, pediatric, oncologic, radiation oncologic, and renal. Areas in clinical pathology include: transfusion medicine, chemistry/toxicology, hematology, immunopathology, and microbiology. Past students have also focused on topics centered on radiology, anesthesia, and others.

Surgical Pathology ...............PATH5202 4 Credits Basic Science Selective

ELECTIVE DIRECTOR: Dr. Joseph Fullmer
CONTACT: kellykc@upstte.edu
PREREQUISITES: MPTH201
MAXIMUM NUMBER OF STUDENTS: 2
PERIODS OFFERED: 001, 005, 006, 007, 008, 009, 010, 011, 012, this course is not available in the elective lottery.

ELECTIVE DESCRIPTION: This is a subinternship experience exposing the student to all aspects of Surgical Pathology. The student works with a pathology resident under the direct supervision of an attending pathologist. He/she is expected to examine specimens grossly, take sections, review microscopic slides, make diagnoses, and sign out cases with an attending pathologist. The student also participates in frozen section diagnoses with a resident and attending pathologist. He/she is expected to attend and participate in the Monday morning, Thursday morning, and Friday noon Anatomic Pathology conferences as well as other pertinent departmental conferences.

Clinical Pathology .....................PATH5214 4 Credits Basic Science Selective

ELECTIVE DIRECTOR: Dr. Robert Hutchison
CONTACT: underwol@upstate.edu
PREREQUISITES: MPTH201
MAXIMUM NUMBER OF STUDENTS: 2
PERIODS OFFERED: 001, 004, 005, 006, 007, 008, 009, 010, 011, 012, this course is not available in the elective lottery.

ELECTIVE DESCRIPTION: The rotation is 4 weeks in duration. Most commonly, students will spend 2-4 weeks in Hematopathology/Bone Marrows, and/or they may choose to spend time in one or more of the following list of subspecialties: Blood Bank/Transfusion Medicine, Microbiology/Virology, Cytogenetics, Molecular Diagnostics, Special Hematopathology/Special Chemistry, Immunology, Flow Cytometry, and Andrology. Each requires permission of the respective lab director in order to fit lab schedules. The student will participate in the laboratory training program along with the resident(s) on service, review study sets, assist in the evaluation of cases, and participate in sign-outs with attendings or in the clinical evaluations appropriate to the service. They may, by prior arrangement in some services, receive instruction in laboratory techniques. Intensity of technical instruction will vary with interest, level of student effort and length of stay. These rotations will expose the student to the function of a Clinical Laboratory and the role of the Laboratory Director as practitioner and manager. Prior arrangement and approval is necessary for the best experience, and coordination with Dr. Hutchison's Administrative Assistant (underwol@upstate.edu) early in the academic year is recommended.

Andrology ..........................PATH5222 1 Credit Basic Science Selective

ELECTIVE DIRECTOR: Dr. Kazim Chohan
CONTACT: CHO Hank@upstate.EDU
MAXIMUM NUMBER OF STUDENTS: 1
PERIODS OFFERED: 01A, 01B, 02A, 02B, 03A, 03B, 04A, 04B, 05A, 05B, 06A, 06B, 08A, 08B, 09A, 09B, 10A, 10B, 11A, 11B, this course is not available in the elective lottery.

ELECTIVE DESCRIPTION: Through this elective students will gain knowledge about male reproductive physiology, male factor infertility, semen analysis and application of results, sperm function tests, sperm preparations for assisted reproduction and become familiar with the latest techniques in evaluating male infertility. Students will also learn clinical laboratory management. This course is highly recommened for students interested in Pathology, Urology, Endocrinology, Obstetrics and Gynecology, Internal and Family Medicine specialties. The Course is open all year and offered to one student per one week rotation.
Forensic Pathology ..................... PATH5223
4 Credits
ELECTIVE DIRECTOR: Kenneth Clark
CONTACT: phillipa@upstate.edu
PREREQUISITES: MPTH201
MAXIMUM NUMBER OF STUDENTS: 1
PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012
ELECTIVE DESCRIPTION: Students will gain exposure to medicolegal death investigation and forensic pathology through observation and participation in autopsies conducted by forensic pathologists at the Onondaga County Medical Examiner's Office (MEO), attendance at death scenes with medicolegal death investigators, observation of court testimony (when opportunities available), and attendance at forensically-relevant journal club, Pathology resident didactics, and Grand Rounds occurring during the rotation month. Daily rotation activities will include attendance at MEO morning briefing, autopsies, and death scenes, as well as assisting Medical Examiners with review of medical records on cases.

Virtopsy: An Introduction to Advanced Imaging in Radiology and Pathology ......... .................................. PATH5224
2 Credits
ELECTIVE DIRECTOR: Dr. Paul Shanley
CONTACT: kellykc@upstate.edu
PREREQUISITES: MANA107
MAXIMUM NUMBER OF STUDENTS: 20
PERIODS OFFERED: Concurrent, this course is not available in the elective lottery.
ELECTIVE DESCRIPTION: Virtopsy integrates imaging (radiology) and pathologic examination. Students will follow the analysis of an Upstate University Hospital death through the process of gathering the patient history, evaluation by whole body CT imaging and autopsy examination over a span of two weeks. Students will come to appreciate the power of the multidisciplinary approach already being utilized in forensic medicine and the possible future of minimally invasive post-mortem study of disease.

PEDIATRICS
Pediatric Acting Internship ........ PEDS5601
4 Credits
ELECTIVE DIRECTOR: Dr. John Andrake
CONTACT: andrakej@upstate.edu
PREREQUISITES: PEDS5600
MAXIMUM NUMBER OF STUDENTS: 2
PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012
ELECTIVE DESCRIPTION: This elective is designed to provide the student with the opportunity to evaluate and manage ill children on the Pediatric Inpatient Service. The Acting Intern will gain experience with independently assessing and developing diagnostic and management plans for the inpatients. They will address both common and complex problems necessitating admission. Through rounds and patient care discussions, they will increase their fund of knowledge of pediatric medicine. The acting intern will refine clinical assessment skills and learn to set priorities, carry out management plans, perform necessary diagnostic and therapeutic procedures, and develop their communication skills with patients and families. The student will function as part of the Pediatric Medical Team, working with nursing, case management, and social workers in order to provide comprehensive care. They will communicate with the faculty, consults, community attendings and referring physicians to obtain clinical information and arrange follow-up care. The students' responsibilities will be comparable to the level of a pediatric intern.

Delivery of Outpatient Care in Pediatrics .................................. PEDS5603
4 Credits
ELECTIVE DIRECTOR: Dr. Winter Berry
CONTACT: BERRYW@UPSTATE.EDU
PREREQUISITES: PEDS5600
MAXIMUM NUMBER OF STUDENTS: 2
PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012
ELECTIVE DESCRIPTION: Instructional objectives: Students will be able to: 1) Perform complete examinations on children of all age groups in the Pediatric clinic; 2) Appraise the various reasons for seeking medical care; 3) Discriminate between "sick" and "well" children; 4) Interpret sequential growth charts; 5) Develop immunization schedules for children; 6) Organize an approach to the management of patient problems; 7) Develop an awareness of psychological reactions of the child to his illness, family, and environment.

Pediatric Hematology-Oncology Acting Internship .................................. PEDS5604
4 Credits
ELECTIVE DIRECTOR: Dr. Andrea Dvorak
CONTACT: DVORAKA@UPSTATE.EDU
PREREQUISITES: PEDS5600
MAXIMUM NUMBER OF STUDENTS: 2
PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012
ELECTIVE DESCRIPTION: This course is designed to cover the entire area of Pediatric Hematology Oncology in depth by exposure to a wide variety of clinical disorders and by participation in all existing conferences. Students will be expected to participate in patient care and will have the opportunity to perform procedures (IV's, bone marrows, spinal taps). Disorders of red cells, white cells, platelets, basic coagulation abnormalities, malignancies and principles of use of chemotherapeutic agents will be learned from both theoretical and practical viewpoints. Students will also be exposed to research that the faculty are presently pursuing. No required night call.

Pediatric Infectious Disease .......... PEDS5606
4 Credits
ELECTIVE DIRECTOR: Dr. Leonard Weiner
CONTACT: WEINERL@UPSTATE.EDU
PREREQUISITES: PEDS5600 A MDGN2000
MAXIMUM NUMBER OF STUDENTS: 2
ELECTIVE DESCRIPTION: Clinical experience is provided in both the prevention, control, diagnosis and management of infectious diseases on the outpatient and inpatient services. The student is expected to be actively involved in the consultative role of the pediatric infectious disease division. The student may also participate in epidemiologic investigations or pursue special interests in the area of pediatric infectious diseases.

Pediatric Cardiology ............ PEDS5607
4 Credits
ELECTIVE DIRECTOR: Dr. Frank Smith
CONTACT: smithf@pcacny.com
PREREQUISITES: MDCN2000 A PEDS5600
MAXIMUM NUMBER OF STUDENTS: 1
PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012
ELECTIVE DESCRIPTION: Our elective introduces students to a wide variety of cardiac diagnoses in the fetus, infant, child, and adolescent, as well as the adult with congenital heart disease. Students learn to evaluate children with known or suspected heart disease in a busy outpatient setting. Emphasis is placed upon learning to perform a thorough, focussed cardiac history and physical examination. During the elective students review many electrocardiograms and echocardiograms with attendings in clinic and they are also invited to attend at least one invasive procedure (e.g. cardiac catheterization, catheter-based intervention, electrophysiological study with or without radiofrequency ablation, or a cardiac operation). Students should attend all conferences of the Division and each student is also expected to make a final presentation to the members of the Division at the end of the elective. After completion of our elective, students should have a clearer overview of heart disease in children and a greater ability to differentiate murmurs, chest pain, syncope and palpitations that are benign from those that are caused by significant cardiac disease.

Pediatric Pulmonology .......... PEDS5617
4 Credits
ELECTIVE DIRECTOR: Dr. Zafer Soultan, Dr. Christopher Fortner
CONTACT: SOULTANZ@UPSTATE.EDU
PREREQUISITES: PEDS5600
MAXIMUM NUMBER OF STUDENTS: 1
PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012
ELECTIVE DESCRIPTION: The student will learn about and participate in the management of pediatric patients with pulmonary disorders. Specific emphasis will be placed on asthma, bronchopulmonary dysplasia, cystic fibrosis, hypnotherapy and patients with tracheostomies or requiring ventilatory support. The student will be expected to present a specific topic at a Divisional seminar. Opportunities exist for participation in Divisional research activities.

Continuity of Pediatric Ambulatory Care.... PEDS5627
2 TO 6 Credits
ELECTIVE DIRECTOR: Dr. Winter Berry
CONTACT: BERRYW@UPSTATE.EDU
PREREQUISITES: PEDS5600 A FAMP1600 A OBGY3600
MAXIMUM NUMBER OF STUDENTS: 5
PERIODS OFFERED: Concurrent, this course is not available in the elective lottery.
ELECTIVE DESCRIPTION: This is a year long elective from August to April. Students will have the opportunity to Care for the needs of children in a weekly continuity clinic in the Outpatient Department of Pediatrics (OPD). Each student will attend one clinic session (afternoon) per week as part of a continuity program organized for residents. Students will be assigned a number of families of young children who will be followed throughout the year. Students will have the opportunity to observe the growth and development of well infants as well as participate in the management of a variety of patient problems which face the practicing pediatrician.

Adolescent Medicine .......... PEDS5628
4 Credits
ELECTIVE DIRECTOR: Dr. Karen Teelin
CONTACT: TEELINK@UPSTATE.EDU
PREREQUISITES: PEDS5600
MAXIMUM NUMBER OF STUDENTS: 1
PERIODS OFFERED: 001, 002, 003, 005, 006, 007, 008, 010, 011, 012, CCR
ELECTIVE DESCRIPTION: The goal of the adolescent medicine rotation for medical students is to help them become competent, confident, and comfortable performing comprehensive medical evaluations on adolescent patients. During this rotation it is planned that the medical student be exposed to the following areas of adolescent health care: orthopedic problems, gynecology and contraceptive counseling, drug and alcohol related problems, psychiatric disorders, adolescent pregnancies, endocrine problems, and venereal disease. The medical student will also be exposed to the general health care of adolescent patients in both inpatient and ambulatory settings.
Pediatric Gastroenterology & Nutrition .......................... PEDS5638
4 Credits
ELECTIVE DIRECTOR: Dr. Mirza Beg
CONTACT: BEGM@UPSTATE.EDU
PREREQUISITES: MDCN2000 A SURG8200 A OBGYS600 A PEDS5600 A FAMP1600 A PYCH6800
MAXIMUM NUMBER OF STUDENTS: 2
PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012
ELECTIVE DESCRIPTION: The purpose of this elective is to introduce the fourth year medical students the Pediatric Gastroenterology and Nutrition in a primarily outpatient setting with no night call or weekend duties. Students will observe our approach in evaluation and treatment of patients with gastrointestinal diseases and nutritional deficiencies. They will actively participate in patient assessment and treatment recommendations. The student will first assess the patient through history, physical exam and discussion with the parents/patient regarding current symptoms. The student then will present the patient to the GI provider who goes over for laboratory tests, procedures or treatment. Student will also participate in operating room to observe endoscopy, colonoscopy, polyectomy, esophageal dilatation, pH probe, impedance study, Bravo pH analysis and endoscopic placement of gastrostomy tube. There will also be daily teaching and discussion. Each student should present one power point topic during this elective. The reading materials will be given and suggested to student.

Genetics .................................................. PEDS5640
4 Credits
ELECTIVE DIRECTOR: Dr. Robert Lebel
CONTACT: LEBELR@UPSTATE.EDU
PREREQUISITES: MANA107 A MANA108 A MBH101 A MCPP101 A MPH101 A MPMM105 A MBS201 A MCI201 A MPHMM201 A MPH201 A MPH202 A MPOM201
MAXIMUM NUMBER OF STUDENTS: 1
PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012
ELECTIVE DESCRIPTION: This selective has been developed to reinforce the principles of genetics presented in the first year of medical school and to show medical students that an understanding of genetics is a critical skill in medicine today. The selective will take the student from a clinical evaluation, through the thought process of establishing a diagnosis including literature review and interpretation of test results. In addition, the students will spend time in the Cytogenetics and Molecular Diagnostics Laboratories to gain a better appreciation of how laboratory tests are developed, implemented, and utilized to aid in diagnostics.

Pediatric Nephrology .............. PEDS5641
4 Credits
ELECTIVE DIRECTOR: Dr. Scott Schurman
CONTACT: SCHURMAS@UPSTATE.EDU
PREREQUISITES: PEDS5600 A MDCN2000
MAXIMUM NUMBER OF STUDENTS: 1
PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012
ELECTIVE DESCRIPTION: The student will be trained in basic renal physiology in newborns through adulthood. There will also be exposure to common renal diseases of children as well as more unusual conditions by participation in outpatient and inpatient care. By completion of the course there should be a basic understanding of how renal diseases affect the well-being of children.

Developmental Pediatrics ............ PEDS5644
4 Credits
ELECTIVE DIRECTOR: Dr. Louis Pellegrino, Dr. Nienke Dosa
CONTACT: mcconner@upstate.edu
PREREQUISITES: PEDS5600
MAXIMUM NUMBER OF STUDENTS: 1
PERIODS OFFERED: 001, 003, 004, 005, 008, 009, 010, 011, 012
ELECTIVE DESCRIPTION: The student will learn about normal development through reading and participate in the diagnosis and management of pediatric patients with developmental disorders in several different clinics and programs. They will attend the following clinics and programs: Autistic Spectrum Program, Child Development Program, Developmental Evaluation Center, Physical Disabilities Program and Spina Bifida Clinic. Specific emphasis will be placed on the diagnosis, management, and services available for children with ADHD, autism, cerebral palsy, Down syndrome, speech and language disorders, and spina bifida. They will write a short review on a topic in child development at the end of the elective.

Peds International Health Clinic .............. PEDS5645
4 Credits
Concurrent Elective
ELECTIVE DIRECTOR: Dr. Bradley Olson
CONTACT: OLSONB@UPSTATE.EDU
PREREQUISITES: PEDS5600 O PEDS5800
MAXIMUM NUMBER OF STUDENTS: 2
PERIODS OFFERED: Concurrent, this course is not available in the elective lottery.
ELECTIVE DESCRIPTION: This is a year long elective from August to April. The Pediatric Internation Health Clinic is a refugee clinic that serves primarily African (Sudan, Somalia & Liberia), South East Asian (Thailand and Burma) and Middle Eastern refugees. These patients present a unique spectrum of tropical diseases including; active tuberculosis, malaria, schistosomiasis, giardiasis and helminthiasis. Students will attend one clinic session (morning) per week where they will care for newly arrived refugee children during their first year in the United States. They will have the unique opportunity to work one on one with a pediatric faculty member dedicated to serving this unique population.

Wilderness and Environmental Medicine ... .................................................. PEDS5646
3 Credits
Preceptor’s Site
ELECTIVE DIRECTOR: Dr. Thomas Welch
CONTACT: DelaneyB@upstate.edu
the major tertiary pediatric critical care referral center for Upstate and Central New York, the PICU manages the full spectrum of pediatric critical care illness including respiratory failure, cardiovascular failure, neurologic disorders, hematologic/oncologic disease, and major orthopedic, neurosurgical, pediatric, trauma, cardiovascular and ENT surgery.

**Pediatric Hematology-Oncology**

**Ambulatory Rotation .......................... PEDS5648**

**4 Credits**

**ELECTIVE DIRECTOR:** Dr. Andrea Dvorak  
**CONTACT:** DVORAKA@UPSTATE.EDU

**PREREQUISITES:** None

**MAXIMUM NUMBER OF STUDENTS:** 1

**PERIODS OFFERED:** 002, 01, 03, 04, 05, 06, 07, 08, 09, 10, 11, 12

**ELECTIVE DESCRIPTION:** This rotation provides the opportunity for the student to see the management of both pediatric hematologic and pediatric oncolgic disorders. The students will have the chance to interact with multiple pediatric providers in the care of these patients. The outpatient rotation allows the student to see both the chronic long term patients as well as the acute consults that present in the clinic.

**PARMACOLOGY**

**Cardiac Arrhythmias (Mechanisms, Diagnostics, Treatment) .......... PHAR6005**

**2 Credits Basic Science Selective**

**ELECTIVE DIRECTOR:** Dr. Arkadii Perzov  
**CONTACT:** PERTSOVA@UPSTATE.EDU

**PREREQUISITES:** None

**MAXIMUM NUMBER OF STUDENTS:** 20

**PERIODS OFFERED:** 009, 05, 5A

**ELECTIVE DESCRIPTION:** This 2 credits course is intended for students considering a career in cardiology and interventional electrophysiology. Upon successful completion of the course the students will enhance their understanding of basic mechanisms of cardiac arrhythmias, their diagnostics and treatment. The course will run in a small discussion group format. The group will meet daily to discuss a set of 4-5 topics formulated by the moderator. The students are expected to study the material independently and be prepared to give a short presentation on any of the topics to the class as well as discuss it with other members of the group.
PREVENTIVE MEDICINE
Public Health electives........PRVM6420
4 Credits Basic Science Selective,
Preceptor's Site
ELECTIVE DIRECTOR:  Dr. Martha Wojtowycz
CONTACT:  tafeld@upstate.edu
PREREQUISITES:  None
MAXIMUM NUMBER OF STUDENTS:  2
PERIODS OFFERED:  001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012
ELECTIVE DESCRIPTION:  This elective will allow the student to explore the implementation of public health and population-oriented prevention activities in actual community settings. The requirements for this elective can be met either at the Onondaga County Health Department or as a pre-arranged independent research project. Onondaga County Health Department Track: Students will be introduced to the activities of the Onondaga County Health Department and its efforts to improve the health of our community under the supervision of Dr. Morrow. In addition, students will be responsible for completing a specific project based on their interests and current public health activities. In this project, the students will work with health department responses related to the issue. Examples of student projects include: disease outbreak investigations, vaccine shortage management, bioterrorism, infant mortality, and chronic disease prevention. A project summary report is required at the end of the elective to gain credit for the course.

Public Health Experience........PRVM6421
4 Credits Basic Science Selective
ELECTIVE DIRECTOR:  Dr. Martha Wojtowycz
CONTACT:  tafeld@upstate.edu
PREREQUISITES:  None
MAXIMUM NUMBER OF STUDENTS:  2
PERIODS OFFERED:  001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012
ELECTIVE DESCRIPTION:  An independent study, community-based project, or international public health experience aimed at improving students understanding public health, determinants of health and possible Interventions to prevent the public health issue the student is studying. Students enrolling in this elective generally have chosen a venue, focus of Interest (research interest), and site supervisor (if off campus) prior to enrolling in the elective. Students will be assessed, if possible, by their site supervisor based agreed upon expectations of the project, active participation, and attendance. In addition, student must write a scholarly paper and give a presentation on their research project to an agreed upon audience in order to receive credit for the elective.

Service Learning and Community Health...
..................................................PRVM6423
2 Credits Concurrent Elective
ELECTIVE DIRECTOR:  Simone Seward
CONTACT:  SEWARDS@UPSTATE.EDU
PREREQUISITES:  None
MAXIMUM NUMBER OF STUDENTS:  50
PERIODS OFFERED:  Concurrent, this course is not available in the elective lottery.
ELECTIVE DESCRIPTION:  This 2-credit service learning elective course integrates meaningful community service with instruction on basic principles of public health to improve the health status of the community. This course allows second year medical students to serve as Service Learning Leaders at specific service learning sites and develop skills in community engagement while affording community partners an avenue to address significant needs within their organization or programs. The course utilizes a reflective process to enrich the students' learning experience and explore civic responsibilities. The course meets once a month for 2 hours and runs from August 2016 - March 2017. The course can accommodate a maximum of 30 MSII students.

PSYCHIATRY
Psychiatry Acting Internship .... PYCH6801
4 Credits
ELECTIVE DIRECTOR:  Dr. Thomas Schwartz
CONTACT:  stuenzik@upstate.edu
PREREQUISITES:  PYCH6800
MAXIMUM NUMBER OF STUDENTS:  1
PERIODS OFFERED:  001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012, this course is not available in the elective lottery.
ELECTIVE DESCRIPTION:  This is an individualized elective designed for students interested in obtaining specialized intensive experiences in psychiatry. The student is directly involved in planning the experience. Generally speaking, electives will include patient care, case conferences, grand rounds and attendance at seminars. Students may also acquire experience in community psychiatry programs. Electives can be built around the following areas: Addiction Psychiatry; Child and Adolescent Psychiatry; Consultation Liaison; Forensic Psychiatry; Inpatient Psychiatry; Outpatient Psychiatry

Introduction to Medical Spanish ............PYCH6828
2 Credits Concurrent Elective
ELECTIVE DIRECTOR:  Dr. MariaLourdes Fallace
CONTACT:  mlfallace@yahoo.com
PREREQUISITES:  None
MAXIMUM NUMBER OF STUDENTS:  20
PERIODS OFFERED:  Concurrent, this course is not available in the elective lottery.
ELECTIVE DESCRIPTION:  The Introduction to Medical Spanish course builds on the strong foundation of the Basic Spanish level to continue learning medical Spanish terminology, sentence construction, role play with classmates imitating situations at a doctor's office, hospital or emergency rooms. Students learn communication at a higher level with patients and the public in general. They are able to have dialogues asking more relevant questions related to the patient's complaint in grammatically correct sentences using regular and irregular verbs in the present and past times.
Intermediate Medical Spanish

2 Credits Concurrent Elective

ELECTIVE DIRECTOR: Dr. MariaLourdes Fallace
CONTACT: mlfallace@yahoo.com
PREREQUISITES: PYCH6828
MAXIMUM NUMBER OF STUDENTS: 20
PERIODS OFFERED: Concurrent, this course is not available in the elective lottery.

ELECTIVE DESCRIPTION: Intermediate Medical Spanish prepares medical students to communicate effectively with patients with limited English proficiency. Students at this level speak only Spanish in class and are able to volunteer at a local clinic, shadow a health care provider and assist him/her in communicating to the patient the nature of the problem/condition, necessary tests required, the results, as well as treatment and prognosis. They are able to inform the patient about follow up appointments and convey any other information.

Advanced Medical Spanish

3 Credits Concurrent Elective

ELECTIVE DIRECTOR: Dr. MariaLourdes Fallace
CONTACT: mlfallace@yahoo.com
PREREQUISITES: PYCH6829
MAXIMUM NUMBER OF STUDENTS: 20
PERIODS OFFERED: Concurrent, this course is not available in the elective lottery.

ELECTIVE DESCRIPTION: Advanced Medical Spanish is service learning elective that prepares medical students to communicate effectively with patients with limited English proficiency. Students at this level are able to shadow a health care provider and assist him/her in obtaining accurate history of the patient, performing a physical examination and communicating to the patient the condition, necessary tests and results, as well as treatment and prognosis.

Basic Spanish

2 Credits Concurrent Elective

ELECTIVE DIRECTOR: Dr. MariaLourdes Fallace
CONTACT: mlfallace@yahoo.com
PREREQUISITES: None
MAXIMUM NUMBER OF STUDENTS: 30
PERIODS OFFERED: Concurrent, this course is not available in the elective lottery.

ELECTIVE DESCRIPTION: Basic Spanish is a foundation course that gives students a strong base to be able to learn Medical Spanish terminology. Students learn basic communication with patients and the public in general. They are able to have a basic dialog and develop sentences grammatically correct using regular and irregular verbs in conjunction with other parts of a sentence in concordance with gender and number.

Psychiatry Elective

4 Credits

ELECTIVE DIRECTOR: Dr. Thomas Schwartz
CONTACT: stuenzik@upstate.edu
PREREQUISITES: PYCH6800

MAXIMUM NUMBER OF STUDENTS: 2
PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012, this course is not available in the elective lottery.

ELECTIVE DESCRIPTION: The Psychiatry elective is offered to fourth year who meet with the Psychiatry Department Education Director/Coordinator. Depending on availability the elective may be clinical, research, or academic in nature.

RADIOLOGY

Diagnostic Radiology

4 Credits

ELECTIVE DIRECTOR: Dr. Hal Cohen
CONTACT: nearym@upstate.edu
PREREQUISITES: MDCN2000 A SURG8200
MAXIMUM NUMBER OF STUDENTS: 11
PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012

ELECTIVE DESCRIPTION: This elective is designed to expand the student’s knowledge of the fundamentals of diagnostic radiology and the use of radiology in clinical diagnosis. Building upon the foundation of the junior clerkship, the student will observe the daily performance and interpretation of radiographic procedures. The student may select rotations to various areas of the department according to his or her individual interests. Rotations are offered in addition to chest, gastrointestinal, genitourinary, and bone imaging. Audiovisual teaching materials are available. Students are required to prepare a one page summary and a ten minute oral presentation of an interesting case at the end of the elective.

Neuroradiology

4 Credits

ELECTIVE DIRECTOR: Dr. Kirk Craig
CONTACT: nearym@upstate.edu
PREREQUISITES: NEUR3000
MAXIMUM NUMBER OF STUDENTS: 1
PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012

ELECTIVE DESCRIPTION: This elective offers the student an in-depth experience in all aspects of Neuroradiology. Emphasis is placed on the interpretation of computed tomography (CT) and magnetic resonance (MR) imaging of the head and spine, cerebral angiograms, and myelograms. The role of imaging studies in the diagnostic evaluation of the patients with suspected neurological or otolaryngological disease is emphasized. The student attends and participates in all neuroradiology teaching sessions and conferences. He/she is encouraged to undertake a special project during the elective, including research on and presentation of a topic of neuroradiologic interest.
Interventional Radiology .......... RADL7210
4 Credits
ELECTIVE DIRECTOR: Dr. Mitchell Karmel
CONTACT: nearym@upstate.edu
PREREQUISITES: MDCN2000 A SURG8200
MAXIMUM NUMBER OF STUDENTS: 1
PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012
ELECTIVE DESCRIPTION: Interventional Radiologists (IR’s) are Radiologists who use their expertise in medical imaging to guide small instruments such as catheters, and/or needles to diagnose and treat diseases percutaneously. The elective will familiarize the student with the dynamic practice of Interventional Radiology (IR) through hands on participation with the Attending Staff and Residents of the Division of Interventional Radiology. Activities include participation in pre-procedure patient work-up and planning, performance of procedures, and patient follow-up. Objectives: 1) Recognize patients that may benefit from diagnostic and/or therapeutic services offered by IR. 2) Evaluate and request appropriate procedures. 3) Be aware of necessary pre-procedural workup and post-procedural care. There is a participation in a weekly Multidisciplinary GI Oncology conference in which the student will learn about the exciting developing field of Interventional Oncology. The small faculty-to-student ratio maximizes the opportunity for one to one teaching.

Nuclear Medicine..................... RADL7217
4 Credits
ELECTIVE DIRECTOR: Dr. David Feiglin
CONTACT: nearym@upstate.edu
PREREQUISITES: MDCN2000 A SURG8200
MAXIMUM NUMBER OF STUDENTS: 1
PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012
ELECTIVE DESCRIPTION: Expose student to Nuclear Medicine by correlation of clinical problems and diagnostic and therapeutic techniques. Methods include planar and tomographic imaging, computer image processing and quantitation, in vitro testing and radiiodine therapy of hyperthyroidism and thyroid cancer. Integration of various imaging modalities (nuclear, angiographic, CT, MR and ultrasound) with patient problem is stressed.

PHYSICAL MEDICINE AND REHABILITATION
Physical Medicine & Rehabilitation.......... .................................................. RMED7605
4 Credits
ELECTIVE DIRECTOR: Dr. Margaret Turk
CONTACT: hayesmi@upstate.edu
PREREQUISITES: MDCN2000 A PEDS5600 A SURG8200
MAXIMUM NUMBER OF STUDENTS: 2
PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012
ELECTIVE DESCRIPTION: The student will become acquainted with the concept of rehabilitation, including transdisciplinary team functioning, comprehensive evaluation of functional abilities, and management of long-term disability. Emphasis will be placed on neuromuscular evaluation as well as evaluation of cognitive status. Electrodiagnosis (EMG) will be discussed and observed. Patients treated include those with the diagnoses of stroke, spinal cord injury, head injury, arthritis, amputation, multiple trauma and other neuro-musculoskeletal disorders. Rotations can be set up either on our Inpatient Rehabilitation Unit or in the outpatient neuromuscular area. The teaching is a mixture of bedside, lecture, and student directed learning. Students will be assigned an end of rotation project.

RADIATION ONCOLOGY
Radiation Oncology.................... RONC7401
4 Credits
ELECTIVE DIRECTOR: Dr. Jeffrey Bogart, Paul Arigdides
CONTACT: keeneys@upstate.edu
PREREQUISITES: MPO201
MAXIMUM NUMBER OF STUDENTS: 1
PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012
ELECTIVE DESCRIPTION: An intensive program in Oncology with emphasis on total patient care is offered through the mechanism of independent patient evaluation followed by discussion on a one-to-one student-faculty basis. The life history of neoplasia is illustrated by seeing patients at the time of diagnosis, during treatment and in the long-term follow-up situation. Disease oriented diagnostic evaluation and multidisciplinary treatment are taught. At the conclusion of this elective, the student will be familiar with most of the common neoplastic diseases and the considerations that go into making rational decisions regarding appropriate care for patients with cancer.

SURGERY
General Surgery Acting Internship

.................................................. SURG8001
4 Credits
ELECTIVE DIRECTOR: Dr. Mariyah Fisher
CONTACT: FISHERM@UPSTATE.EDU
PREREQUISITES: MDCN2000 A SURG8200 A OBGY3600 A PEDS5600 A FAMP1600 A PYCH6800
MAXIMUM NUMBER OF STUDENTS: 3
PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012
ELECTIVE DESCRIPTION: The course is designed for the student to learn in greater depth the management of surgical patients. Emphasis is placed on the understanding of the pathophysiology of surgical problems and the principles required for excellence in the care of acutely ill patients. The students will also gain first-hand knowledge of surgical diagnosis, fluid and electrolyte, cardiovascular, renal and respiratory management of surgical patients and will participate in the operating room. The course is designed both for students interested in choosing surgery as a career as well as those students interested in fields other than surgery. Students will be expected to prepare a
presentation on some aspect of surgical disease using medical literature to provide insight into the basic science or pathophysiology of the topic.

**Burns .......................................................... SURG8008**

4 Credits

ELECTIVE DIRECTOR: Joan Dolinak

CONTACT: bellinir@upstate.edu

PREREQUISITES: MDCN2000 A SURG8200

MAXIMUM NUMBER OF STUDENTS: 1

PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012

ELECTIVE DESCRIPTION: An introduction to critical care of thermal, electrical, chemical and environmental exposure injury; as well as requisites of therapy for complex wound closure and surgical management of burns including skin grafts, skin substitutes and exposure to exfoliative skin disorders such as TEN and SJS. Student will resuscitate individuals with burns and other injuries, establish priorities of treatment, organize therapeutic regimens. Exposure to techniques for controlling infection, maintaining nutritional balance and closing the burn wound will be provided. Although the emphasis will be on the pathophysiology of major trauma and the requirements for survival, facts pertaining to the epidemiology of burns, the prevention of thermal injury, the psychic adaptation to major stress and the multifaceted nature of rehabilitation will be presented. The student will be expected to assist in operating room and during wound therapy procedures.

**General Surgery Acting Internship - Crouse .......................................................... SURG8013**

4 Credits Crouse Hospital

ELECTIVE DIRECTOR: Dr. Brian Anderson

CONTACT: mstachurski@cnysurgical.com

PREREQUISITES: SURG8200

MAXIMUM NUMBER OF STUDENTS: 1

PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012

ELECTIVE DESCRIPTION: The primary opportunity of this period would be exposure to the community hospital types of surgical problems, including early diagnosis, pre-operative evaluations and preparations, and operative and post-operative management of normal and complicated patients. This program should be helpful to any student seeking additional experience in general surgical problems in terms of a possible career choice or even as a “last” exposure for future non-surgeons.

**Pediatric Surgery .................................................. SURG8014**

4 Credits

ELECTIVE DIRECTOR: Dr. Kim Wallenstein

CONTACT: cliftodl@upstate.edu

PREREQUISITES: SURG8200

MAXIMUM NUMBER OF STUDENTS: 1

PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012

ELECTIVE DESCRIPTION: The emphasis in the course is placed on the diagnosis, pre-operative preparation and post-operative management of children from the newborn period to adolescence. Additional emphasis will be placed on: a) diagnosis and pre-operative preparation of the patient with neonatal congenital anomalies; b) diagnosis of common pediatric surgical problems; c) assessment and management of pediatric trauma; d) assessment and management of fluid and electrolytes in pediatric surgery patients; e) nutritional management of patients with acute and chronic surgical diseases; f) techniques for outpatient and inpatient minor surgical procedures, including the surgical placement of intravenous catheters. The student will participate in in-house patient and outpatient care as a member of the Pediatric Surgery service. Participation in Pediatric Surgery includes attendance at formal teaching rounds, clinical rounds, inpatient surgical procedures, Pediatric Surgical Clinic, and selected programs from the Department of Surgery and the section of Pediatric Surgery.

**Disease of the Colon, Rectum, and Anus .......................................................... SURG8028**

4 Credits

ELECTIVE DIRECTOR: Dr. John Nicholson

CONTACT: ducktorjdn@msn.com

PREREQUISITES: MDCN2000 A SURG8200 A OBGY3600 A PEDS5600 A FAMP1600 A PYCH6800

MAXIMUM NUMBER OF STUDENTS: 1

PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012

ELECTIVE DESCRIPTION: This course is designed for the student to learn in greater depth the presentation and management of both benign and malignant disease affecting the colon, rectum, and anus. Emphasis is placed on the primary presentation of patients with colon and rectal diseases. The student will have the opportunity of following patients from their initial office presentation through any surgical procedures, post-operative hospital care, and in the post-discharge office care. This will include gaining skills in basic colon-rectal endoscopy, both rigid and flexible sigmoidoscopy-colonoscopy, as well as basic knowledge and skill required in the management of major surgical patients, (e.g., fluid and electrolyte balance, cardiopulmonary, renal and nutritional management of surgical patients). The student also will have the opportunity of learning about ostomy care. The course is designed both for students interested in pursuing a surgical career, as well as those entering primary medical care.
Critical Care for the Surgical Patient .......... SURG8030

4 Credits
ELECTIVE DIRECTOR: Dr. Moustafa Hassan
CONTACT: HASSANM@UPSTATE.EDU
PREREQUISITES: MDCN2000 A SURG8200
MAXIMUM NUMBER OF STUDENTS: 2
PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012

ELECTIVE DESCRIPTION: This course will cover clinical, pathophysiological, legal and ethical ramifications of the critically ill surgical patient. The focus will be on perioperative care and planning and will provide exposure to introtope use, ventilator management, hemodynamic assessment and emergent therapy. Exposure to procedures common to the intensive care unit will be provided.

General Surgery Acting Internship .......... SURG8038

4 Credits
ELECTIVE DIRECTOR: Dr. Amit Goyal
CONTACT: bellinir@upstate.edu
PREREQUISITES: MDCN2000 A SURG8200 A OBGY3600 A PEDS5600 A FAMP1600 A PYCH6800
MAXIMUM NUMBER OF STUDENTS: 1
PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012

ELECTIVE DESCRIPTION: This course is designed for the student to learn in greater depth the management of surgical patients. Emphasis is placed on the understanding of the pathophysiology of surgical problems and the principles required for excellence in the care of acutely ill patients. The students will also gain first-hand knowledge of surgical diagnosis, fluid and electrolyte, cardiovascular renal and respiratory management of surgical patients and will participate in the O.R. The course is designed for both students interested in choosing surgery as a career as well as those students interested in fields other than surgery. Students will be expected to present a seminar on some aspect of surgical disease using medical literature to provide insight to the basic science or pathophysiology of the topic.

Vascular Surgery and Surgical Interventional Radiology .......... SURG8048

4 Credits
ELECTIVE DIRECTOR: Dr. Kwame Amankwa
CONTACT: bellinir@upstate.edu
PREREQUISITES: SURG8200
MAXIMUM NUMBER OF STUDENTS: 1
PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012

ELECTIVE DESCRIPTION: The course is designed for the student who has an interest in Vascular Surgery and Interventional Procedures. The individual who completes this elective will have: 1) A better understanding of what Vascular and Endovascular Surgery entails; 2) A better understanding of the components that make up Interventional Radiology; 3) The ability to gain an understanding of imaging modalities utilized by each specialty; 4) Be actively involved in the assessment, planning and execution of patient's treatment; 5) An understanding of vascular disease as it pertains to Vascular and Endovascular Surgery; 6) An understanding of general interventions as it pertains to General Surgery; 7) Be able to perform central venous access; 9) Be able to interpret an angiogram and propose treatment plan. Students will participate in the outpatient clinic, inpatient care, Operating Theater and the Interventional Radiology Suite at University Hospital and the Veterans Administration Hospital. A two to three page report or presentation on a topic related to Vascular Surgery will be required. Each student will be assigned a preceptor for the rotation.

Acute Care Surgery Acting Internship .......... SURG8051

4 Credits
ELECTIVE DIRECTOR: Dr. Fahd Ali
CONTACT: ALIF@UPSTATE.EDU
PREREQUISITES: MDCN2000 A SURG8200
MAXIMUM NUMBER OF STUDENTS: 1
PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012

ELECTIVE DESCRIPTION: This Acting Internship centers around the fast paced and varied discipline of the Acute Care Service. This course is designed to expose students to the wide variety of emergency surgical patients and procedures. Students will actively participate in the initial evaluation of acutely ill surgical patients, as well as in their pre, peri, and post operative care. During this acting internship, students will be expected to do one week of night float Monday-Friday, covering both trauma and general surgery. Additionally, students will be expected to perform one presentation using medical literature in order to provide insight into the basic science of the topic, based on their patient experiences. The purpose of this course is to start the process of developing knowledge in a wide variety of surgical diseases, problems, and pathologies, across multiple organ systems.

UROLOGY

Urology Acting Internship .......... UROL8401

4 Credits
ELECTIVE DIRECTOR: Dr. Oleg Shapiro
CONTACT: SHAPIROO@UPSTATE.EDU
PREREQUISITES: MDCN2000 A SURG8200 A OBGY3600 A PEDS5600 A FAMP1600 A PYCH6800
MAXIMUM NUMBER OF STUDENTS: 1
PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012, this course is not available in the elective lottery.

ELECTIVE DESCRIPTION: The acting internship is designed for clinical work. During this elective, the student will perform all the duties of a house officer in Urology and will be part of a team consisting of two Urology residents plus a small number of fourth year students. At frequent intervals, the student will be expected to meet with individual members and discuss assigned reading and problems. The purpose of this elective is to give the student in depth experience in the field of Urology.
BINGHAMTON CAMPUS

ELECTIVES

ANESTHESIOLOGY

Introduction to Anesthesiology .................................................. ANES0803
2 Credits Preceptor's Site

ELECTIVE DIRECTOR: Dr. Robert Patterson, Paul Uppal
CONTACT: ccstuaff@upstate.edu
PREREQUISITES: MDCN2000 A SURG8200
MAXIMUM NUMBER OF STUDENTS: 1
PERIODS OFFERED: 01B, 02B, 04B, 06B, 08A, 10A

ELECTIVE DESCRIPTION: The two-week elective course is designed to further explain aspects of anesthesiology which have relevance to all medical practice; to include physiology and pharmacological interaction of drugs with emphasis on basic technical maneuvers. At the conclusion of the two weeks, the student is expected to demonstrate basic anesthesia technical skills and knowledge of perioperative patient care. Weekly activities include inpatient contacts. Preceptors' Sites: Dr. Uppal-Our Lady of Lourdes Memorial or Dr. Patterson-Wilson Memorial Hospital

EMERGENCY MEDICINE

Clinical Elective in Emergency Medicine ...................................... EMED1315
4 Credits Wilson Memorial Hospital

ELECTIVE DIRECTOR: Dr. Stephen Gomez
CONTACT: ccstuaff@upstate.edu
PREREQUISITES: SURG8200
MAXIMUM NUMBER OF STUDENTS: 1
PERIODS OFFERED: 003, 007, 010, 011, 012, this course is not available in the elective lottery.

ELECTIVE DESCRIPTION: Exposure to the complete Emergency Department practice. Students will be scheduled for a variety of shifts including weekends. Several preceptors participate with each student, so various styles of practice are presented. Scheduling is flexible, but 40 hours per week is typical. Emphasis is placed on the evaluation of the acute patient and minor surgical procedures such as suturing skills. Weekly activities include patient contact (inpatient & outpatient).

FAMILY MEDICINE

Doctoring .......................................................... FAMP1607
4 Credits Preceptor's Site

ELECTIVE DIRECTOR: Dr. John Wacendak
CONTACT: ccstuaff@upstate.edu
PREREQUISITES: MANA107 A MANA108 A MBBH101 A MMC101 A MPH101 A MPOM105 A MBS201 A MCI201 A MPH201 A MPTH201 A MPH202 A MPOM201
MAXIMUM NUMBER OF STUDENTS: 2
PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012

ELECTIVE DESCRIPTION: Providing health care seems to be the catch phrase of the times. But many patients prefer the word doctoring, as in “We’ve been doctoring with so-and-so for fifteen years”. This brief phrase encapsulates the complex nature of the deep and lasting relationship between a family and their caring and committed physician. Doctoring will be the focus of this elective, which will provide an introduction to Family Medicine as a comprehensive system of care. For those who have had significant previous experience in Family Medicine, higher level skills in interviewing, clinical reasoning and family assessment will be emphasized. Specific goals include: 1) Further development of interview and examination skills that can be used for the initial evaluation of any patient, irrespective of age, sex or presenting complaint; 2) Learning the efficient and effective work-up of the most common chief complaints in Primary Care; 3) Learning the therapeutic options for a selection of common Primary Care diagnosis; 4) Learning family systems theory and how family dynamics affect illness; 5) Trying, under supervision, a variety of procedural skills; 6) Learning to communicate effectively with other medical personnel. Weekly activities include interviewing, examining and writing notes on outpatients and inpatients, home visits, school visits, family counseling, some minor surgery and suturing, didactic sessions, reading. Having a car during this rotation is advantageous, although not required. Preceptor's Site: Family Care Center, 40 Arch Street, Johnson City

Palliative Care ................................................. FAMP1647
2 Credits Our Lady of Lourdes Memorial

ELECTIVE DIRECTOR: Dr. Francine Rainone
CONTACT: ccstuaff@upstate.edu
PREREQUISITES: None
MAXIMUM NUMBER OF STUDENTS: 1
PERIODS OFFERED: 01A, 01B, 02A, 02B, 04A, 04B, 05A, 05B, 06A, 06B, 08A, 08B, 09A, 09B, 10A, 10B, 11A, 11B, 12A, 12B, this course is not available in the elective lottery.

ELECTIVE DESCRIPTION: Students will participate in all team activities, including Journal Club, for which they will present a journal article or book chapter, team meetings, multidisciplinary rounds, and tumor board. They will perform inpatient consults and see patients in the outpatient clinic. Palliative Medicine is the multidisciplinary care of people with chronic, advanced disease that provides relief of suffering in the physical, psychological, spiritual and social dimensions of human existence. Objectives include: 1) learning basic pharmacologic and nonpharmacologic management of pain and other common symptoms, such as dyspnea, nausea and constipation; 2) improving communication skills, conducting family meetings, and learning consultation etiquette in the context of multidisciplinary care. The team includes a Physician, Nurse Practitioner, Nurse Manager, Chaplain, Massage Therapist, and Social Worker. The consultation team cares for inpatients, outpatients and, on occasion, nursing home patients. Performance Evaluation based on: Knowledge: formulate a daily plan of care and justify it based on pathophysiology, pharmacology, psychology, or other principles relevant to the patient's condition. Attitudes: compassion and respect, exemplified by demeanor, word choice, body language. Skills: explain treatment options in plain language and elicit goals of care nonjudgmentally. Performance is discussed with student both during and at the end of the course.

31
Healing Art of Medicine .......... FAMP1648 4 Credits Preceptor’s Site
ELECTIVE DIRECTOR: Dr. Lazarus Gehring
CONTACT: ccstuaff@upstate.edu
PREREQUISITES: EMed1300 A FAMP1600 A MDCN2000 A NEUR3000 A OBGY3600 A PEDS5600 A PYCH5800 A SURG8200
MAXIMUM NUMBER OF STUDENTS: 32
PERIODS OFFERED: 004, 007, this course is not available in the elective lottery.
ELECTIVE DESCRIPTION: A combination of outpatient, inpatient, and home care, along with weekly didactic sessions focusing on patient-oriented healing techniques using wisdom from physicians past and present.

Rural Medical Education Program ................. FAMP1650
4 Credits
ELECTIVE DIRECTOR: Dr. Carrie Roseamelia, Dr. James Greenwald
CONTACT: ROSEAMEC@UPSTATE.EDU
PREREQUISITES: MDCN2000
MAXIMUM NUMBER OF STUDENTS: 15
PERIODS OFFERED: 006, R, this course is not available in the elective lottery.
ELECTIVE DESCRIPTION: This course is only available to students enrolled in the RMED program. Students train in small town or rural communities with local, board-certified preceptors. An emphasis is placed on the continuous and comprehensive care of patients. Students develop skills in the diagnosis and management of a wide range of common ambulatory and secondary hospital problems of patients across the age spectrum. Students participate in daily office hours with small town, community-based preceptors conducting inpatient rounds, laboratory work, night call, and case presentations. The RMED program typically lasts 19 weeks beginning Period G through the end of Period 1 of the third year. Some students elect to continue their small town training experiences through the end of October of the fourth year.

MEDICINE

Hospitalist Practice ............... MDCN2123 4 Credits Wilson Memorial Hospital
ELECTIVE DIRECTOR: Dr. Nazif Chowdhury
CONTACT: ccstuaff@upstate.edu
PREREQUISITES: MDCN2000 A SURG8200
MAXIMUM NUMBER OF STUDENTS: 2
PERIODS OFFERED: 009, 010, 011, 012
ELECTIVE DESCRIPTION: During this rotation the student will have the ability to participate in medicine’s newest specialty, Inpatient Medicine, otherwise known as a Hospitalist. Time will be spent exclusively caring for patients in Wilson Memorial Regional Medical Center or Binghamton General Hospital with direct supervision by a full-time inpatient physician. The clinical material will include the supervision of care for medical inpatients on the ward and in the Intensive Care Unit as well as medical consultation on surgical patients, observational care and exposure to Utilization Management. A health services related project will be designed and completed during the month which will explore a topic chosen by the student. These may include the development of screening criteria for a particular diagnosis, cost-effectiveness analysis or the development of a simple clinical guideline.

Acting Internship - Medical .......... MDCN2124 4 Credits Wilson Memorial Hospital
ELECTIVE DIRECTOR: Dr. Nazif Chowdhury
CONTACT: ccstuaff@upstate.edu
PREREQUISITES: MDCN2000
MAXIMUM NUMBER OF STUDENTS: 2
PERIODS OFFERED: 009, 010, 011, 012
ELECTIVE DESCRIPTION: The “Acting” medical internship is designed to allow the student to participate in the evaluation and care of patients on “teaching floors” in a community setting. Duties will be the same as the medical intern with whom the student works. The supervision provided by the junior and senior residents, “rounding” physicians, and full time staff should afford the student an opportunity to be exposed to a group of teachers with possibly differing ideas of patient management. The student will have the responsibility for management of 3-6 patients. The AI will participate in daily tutorials with the 3rd-year students, and residents. The AI will participate in GI and Cardiology Rounds on alternate weeks and weekly Grand Rounds, as well as daily Resident seminars. Such exercises are intended to enhance diagnostic and organizational skills in a supportive, constructive manner.

Clinical Cardiology ............... MDCN2126 4 Credits Preceptor’s Site
ELECTIVE DIRECTOR: Dr. John Dimenna
CONTACT: ccstuaff@upstate.edu
PREREQUISITES: MDCN2000
MAXIMUM NUMBER OF STUDENTS: 2
PERIODS OFFERED: 003, 004, 005, 007, 008, 009, 010
ELECTIVE DESCRIPTION: The student’s time would be divided between clinical consultative cardiology as well as experience in the catheterization and electrophysiology labs. This would involve EKG reading, echocardiography, angioplasties and other interventions. Electrophysiological studies and arrhythmia management are also covered. There would be participation in daily rounds, EKG and echocardiogram reading. There will be occasional organized conferences and informal teaching at the bedside and on rounds. Textbooks include Harrison’s or Kelley’s textbook of internal medicine. An introductory textbook of EKG reading should also be used (Dubin, Thaler or Chou). The clinical service would include patients with myocardial infarction, angina, congestive heart failure, atrial and ventricular arrhythmias and hyperlipidemia. Reading also includes NEJM reviews and ECGs. Criteria for evaluation of performance consists of oral examinations (informal), patient work-ups, research papers (optional), seminar and conference presentations (optional). ECG interpretation. Preceptor’s site: 161 Riverside Dr., Suite 205, Binghamton, NY 13905; AND 30 Harrison St., Suite 250, Johnson City, NY 13790.
General Dermatology ........................ MDCN2130
1 Credit  Concurrent Elective, Preceptor's Site

ELECTIVE DIRECTOR: Dr. Genadji Sienkiewicz
CONTACT: ccstuaff@upstate.edu
PREREQUISITES: MDCN2000 A SURG8200 A OBGY3600 A PEDS5600 A FAMP1600 A PYCH6800
MAXIMUM NUMBER OF STUDENTS: 1
PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012, this course is not available in the elective lottery.

ELECTIVE DESCRIPTION: Concurrent elective offered part-time Tuesday and Wednesday afternoons 1-5 pm and Thursday mornings 8:30-12n. Experience in general medical/surgical dermatology including diagnosis and management of skin diseases and skin cancer. The student will be seeing and discussing patients with the instructor. He/She will be introduced to online dermatology resources which will be integrated into the teaching plan, and also used for self-study and reference.

Clinical Endocrinology and Hospital Medicine .......................... MDCN2131
4 Credits  Our Lady of Lourdes Memorial

ELECTIVE DIRECTOR: Dr. Timothy Howland
CONTACT: ccstuaff@upstate.edu
PREREQUISITES: MDCN2000
MAXIMUM NUMBER OF STUDENTS: 1
PERIODS OFFERED: 003, 004, 005, 007, 009, 011, 012, this course is not available in the elective lottery.

ELECTIVE DESCRIPTION: 1) Out-patient care in a general endocrine practice will emphasize history and physical examination skills as well as use of laboratory testing appropriate to the spectrum of a general adult endocrinology consultative practice; 2) Out-patient testing procedures include hormonal stimulations test and fine needle aspiration biopsy of thyroid nodules; 3) Out-patient diabetes care will include instruction in the use of insulin pump therapy and continuous glucose monitoring. 4) In-patient consultations will include evaluation and management of general endocrinologic conditions; 5) In-patient diabetes consultations focus on the need for aggressive metabolic control in the hospitalized patient, with instruction and experience in the use of intravenous insulin infusions; 6) Opportunities will be provided to observe out-patient diabetes education and diet instruction sessions; 7) Interested students will be given the option of spending one-half to one day every week in the pediatric endocrine practice becoming familiar with the management of pediatric endocrinologic problems. Selected reading will be recommended. Performance evaluation based on patient evaluations, assessment during rounds and informal discussions, presentation.

Critical Care .............................. MDCN2132
2 Credits  Wilson Memorial Hospital

ELECTIVE DIRECTOR: Dr. Regina Frants
CONTACT: ccstuaff@upstate.edu
PREREQUISITES: MDCN2000 A SURG8200 A OBGY3600 A PEDS5600 A FAMP1600 A PYCH6800
MAXIMUM NUMBER OF STUDENTS: 2

PERIODS OFFERED: 01A, 01B, 02A, 02B, 03A, 03B, 04A, 04B, 05A, 05B, 06A, 06B, 07A, 07B, 08A, 08B, 09A, 09B, 10A, 10B, 11A, 11B, 12A, 12B, this course is not available in the elective lottery.

ELECTIVE DESCRIPTION: Familiarity with the care of the medically critically ill patient including some surgical patients in consultation. Special emphasis on pulmonary critical care – ventilator management and procedures. Direct working relationship with the medical residents including night call 4-5 nights. Attend morning report, grand rounds and all noon lectures in general medicine.

Clinical Dermatology ........................ MDCN2150
2 Credits  Preceptor's Site

ELECTIVE DIRECTOR: Dr. Joseph Newmark
CONTACT: ccstuaff@upstate.edu
PREREQUISITES: MDCN2000
MAXIMUM NUMBER OF STUDENTS: 1
PERIODS OFFERED: 01A, 01B, 02A, 02B, 03A, 03B, 04A, 04B, 05A, 05B, 06A, 06B, 07A, 07B, 08A, 08B, 09A, 09B, 10A, 10B, 11A, 11B, 12A, 12B, this course is not available in the elective lottery.

ELECTIVE DESCRIPTION: The goals of this course are: 1) To learn to take an insightful Dermatology history; 2) To learn to examine the skin properly; 3) To learn how to evaluate skin diseases and tumors with the aim of making the correct diagnosis; 4) To learn management of common dermatoses; 5) To learn the basics of cutaneous surgery, cosmetic dermatology and laser surgery. Preceptor's Site: Vestal Exec. Park, 4104 Old Vestal Rd., Ste 203, Vestal, NY.

Primary Care Internal Medicine ........................ MDCN2152
4 Credits  Preceptor's Site

ELECTIVE DIRECTOR: Dr. Linda Fort
CONTACT: ccstuaff@upstate.edu
PREREQUISITES: None
MAXIMUM NUMBER OF STUDENTS: 1
PERIODS OFFERED: 001, 003, 004, 005, 006, 007, 008, 009

ELECTIVE DESCRIPTION: The elective will involve the student in Primary Care Internal Medicine in an outpatient setting. Emphasis will be on acquisition of skills basic to office medicine through hands-on patient contact. Continuity of care and in-hospital experience will be provided via daily rounds. Insofar as student interests and needs vary, opportunities will be available in medical subspecialties as they apply to primary care. It is expected that the student will acquire a good understanding of basic concepts and skills in Primary Care Medicine including longitudinal responsibility for the patient; integration of physical and psycho-social aspects of health and disease; data gathering; record keeping, diagnostic and therapeutic procedures; and coordination of consultative and community services. There is a strong emphasis on a whole food, plant-based diet as a primary mechanism for disease prevention and health promotion.
A G.I. Experience ............................. MDCN2166 4 Credits Preceptor’s Site

ELECTIVE DIRECTOR: Dr. Leslie Bank
CONTACT: ccstuaff@upstate.edu
PREREQUISITES: MDCN2000 A SURG8200 A OBGY3600 A PEDS5600 A FAMP1600 A PYCH6800
MAXIMUM NUMBER OF STUDENTS: 1
PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012
ELECTIVE DESCRIPTION: To expose 3rd and 4th year students to the intricacies of an Inpatient/Outpatient Gastroenterology Practice. To show and teach the students about all the modern technology available as related to G.I. Preceptor’s Site: Binghamton Gastroenterology Assoc., 40 Mitchell Ave., Binghamton, NY.

Office Based Internal Medicine .................. MDCN2171 4 Credits

ELECTIVE DIRECTOR: Dr. John Brereton
CONTACT: ccstuaff@upstate.edu
PREREQUISITES: MDCN2000 A SURG8200 A OBGY3600 A PEDS5600 A FAMP1600 A PYCH6800
MAXIMUM NUMBER OF STUDENTS: 1
PERIODS OFFERED: 008, 010, 011
ELECTIVE DESCRIPTION: Preceptor’s site: Chenango Memorial Hospital, Norwich, N.Y. 13815; 607-337-4215 The goals of this course: 1) Expose student to outpatient cardiology care, inpatient cardiology consultations, and care of general medical problems that are common in cardiovascular disorders. 2) Increase student’s clinical acumen/decision-making ability. 3) Allow student increasing responsibility for supervised evaluation of outpatients and inpatients, formulation of probable diagnoses, formulation of care plans. 4) Exposure to common testing procedures. Weekly activities: Individual discussion/conference with the appropriate staff member; Patient contacts, mainly outpatient, selective night call with attending, self study. Reading: Standard texts of medicine and cardiology, applicable journals. Performance evaluation based on patient workups, case presentations/discussions. Performance is discussed with students as needed.

Cardiology ................................. MDCN2179 4 Credits Wilson Memorial Hospital

ELECTIVE DIRECTOR: Dr. Owais Ahmed
CONTACT: ccstuaff@upstate.edu
PREREQUISITES: MDCN2000
MAXIMUM NUMBER OF STUDENTS: 1
PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012, this course is not available in the elective lottery.
ELECTIVE DESCRIPTION: This elective is intended to provide the student with an understanding of the basics of general cardiology, the diagnosis and treatment options available, indications for various diagnostic cardiac procedures and the reading and interpretation of EKGs. Wilson Memorial Hospital.

Geriatrics Elective ............................. MDCN2182 2 TO 4 Credits Preceptor’s Site

ELECTIVE DIRECTOR: Dr. Rana Ahmad
CONTACT: AHMADR@UPSTATE.EDU
PREREQUISITES: MDCN2000
MAXIMUM NUMBER OF STUDENTS: 4
PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012, this course is not available in the elective lottery.
ELECTIVE DESCRIPTION: The Geriatric Medicine/Gerontology Program provides a two- or four-week elective addressing the causes, management and prevention of the diseases of later life. The Clinical Campus program emphasizes training in the care of older adults in community, home, and institutional settings. Students learn about the physical, social, psychological, and economic stresses experienced by older adults and the major characteristics of the health care system which provides services to meet their needs. The promotion of positive attitudes towards the care of older people, the examination of available support systems, as well as clinical work at community and institutional sites, combine to give an integrated approach to the health care of older individuals.

Neuroscience for the Primary Care Physician ........................ NEUR2815 4 Credits Wilson Memorial Hospital

ELECTIVE DIRECTOR: Dr. Saeed Bajwa
CONTACT: ccstuaff@upstate.edu
PREREQUISITES: NEUR3000
MAXIMUM NUMBER OF STUDENTS: 2
PERIODS OFFERED: 004, 005, 006, 007, 008, 009, 010, 011, 012
ELECTIVE DESCRIPTION: This four-week course will offer an intensive experience in both Neurology and Neurosurgery to students intent on pursuing careers in primary care. The student will work closely with each of four neurosurgeons and three neurologists in an office, hospital and operating room setting. Goals of the rotation are: to improve assessment and clinical decision making of the primary care physician with regard to diseases of the nervous system; to gain familiarity with various neuro-imaging modalities and their applications; and to build a knowledge base which can incorporate newer technologies certain to impact this field. Operating room experience will be designed to enhance clinical rather than surgical skills. Participation in an on-call schedule will be strongly recommended. Two to three detailed patient work-ups per week will be required. Reading material will be provided.

NEUROSURGERY

Acting Internship in Neurosurgery ........................ NSUG3206 4 Credits Wilson Memorial Hospital

ELECTIVE DIRECTOR: Dr. Saeed Bajwa
CONTACT: ccstuaff@upstate.edu
PREREQUISITES: NEUR3000
MAXIMUM NUMBER OF STUDENTS: 1
PERIODS OFFERED: 004, 005, 006, 008, 009, 010, 011, 012

ELECTIVE DESCRIPTION: Students will be assigned to a major Neurosurgery service, average 10-15 inpatients, 15-20 major neurosurgery cases a week, and work as an Acting Intern. The student will be required to work up some neurosurgery patients admitted to the neurosurgery service and selected consult patients. The student will be given responsibility for the day-to-day ward work, including pre-operative and post-operative neurosurgical care and neurodiagnostic studies. Operating room experience will be provided with the student being able to scrub on all major neurosurgical cases. Out-patient experience will also be provided with approximately 250 out-patient visits a week. Student will be expected to participate in some night call, and the student’s attendance will be required at lectures, seminars and conferences as they relate to the neurosciences. Goals: To develop basic knowledge and skills required to carry out and understand the neurological history and examination. The student should also develop an understanding of the diagnostic and therapeutic approaches used for common neurological and neurosurgical diseases. This elective is designed to compliment and amplify the third year clinical experience in neuroscience. There are a number of ongoing clinical research projects at the Binghamton neurosurgical site which a student may choose to become involved with. These projects tend to entail participation lasting more than the elective itself and may be an important part of a student’s preparation for choosing a career in neurosurgery.

OBSTETRICS AND GYNECOLOGY

Gynecology/Infertility ............... OBGY3618
4 Credits Our Lady of Lourdes Memorial
ELECTIVE DIRECTOR: Dr. James Kondrup
CONTACT: ccstuaff@upstate.edu
PREREQUISITES: OBGY3600
MAXIMUM NUMBER OF STUDENTS: 1
PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012, this course is not available in the elective lottery.

ELECTIVE DESCRIPTION: Students will have a focus on gynecology and infertility, which will include both office and operating room participation. Preceptor’s Site: Lourdes Hospital, 161 Riverside Dr., Binghamton, NY.

OPHTHALMOLOGY

Ophthalmology and Ambulatory Surgery .................................................. OPTH4008
2 Credits
ELECTIVE DIRECTOR: Dr. Charles Rubin, Daniel Sambursky, John Meehan, Richard Simon, Dr. Michael Herceg, Dr. Lloyd Suter, Dr. Lawrence Pecora
CONTACT: ccstuaff@upstate.edu
PREREQUISITES: MDCN2000 A SURG8200 A OBGY3600 A PEDS5600 A FAMP1600 A PYCH6800
MAXIMUM NUMBER OF STUDENTS: 2

PERIODS OFFERED: 01A, 01B, 02A, 02B, 03A, 03B, 04A, 04B, 05A, 05B, 06A, 06B, 07A, 07B, 08A, 08B, 09A, 09B, 10A, 10B, 11A, 11B, 12A, 12B, this course is not available in the elective lottery.

ELECTIVE DESCRIPTION: This elective will provide the student exposure in office problems and management in ophthalmology. Students will develop diagnostic and therapeutic skills and learn to recognize and manage acute medical and surgical emergencies.

ORTHOPEDIC SURGERY

Orthopedics-Office & Surgery ................................................................. ORTH4411
4 Credits Preceptor’s Site
ELECTIVE DIRECTOR: Dr. Eric Seybold
CONTACT: ccstuaff@upstate.edu
PREREQUISITES: SURG8200
MAXIMUM NUMBER OF STUDENTS: 1
PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012

ELECTIVE DESCRIPTION: To give 3rd and 4th year students exposure to orthopedic problems, both office based and hospital/surgical based. The student may choose to concentrate on one area, i.e. hand, spine, sports medicine, joint replacement or choose to rotate between the subspecialties.

PATHOLOGY

Community Hospital Pathology.................................
.................................................. PATH5203
4 Credits Basic Science Selective, Our Lady of Lourdes Memorial
ELECTIVE DIRECTOR: Dr. James Terzian
CONTACT: ccstuaff@upstate.edu
PREREQUISITES: MDCN2000 A SURG8200
MAXIMUM NUMBER OF STUDENTS: 1
PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012

ELECTIVE DESCRIPTION: Through this elective, the student will gain a complete understanding of routine anatomic pathology-clinical disease correlation. The student will review basic anatomy at autopsies, will learn appropriate use of the clinical laboratory, will review and gain added appreciation for the ability of histology and histopathology to define disease, and will learn to correlate routine Gyn and non-Gyn cytology with clinical data and anatomic/ histologic specimens. Preceptor’s Site: 169 Riverside Dr., Binghamton, NY.
Pathology Survey & Update..... PATH5211
4 Credits Wilson Memorial Hospital
ELECTIVE DIRECTOR: Dr. Jagmohan Sidhu
CONTACT: ccstuaaff@upstate.edu
PREREQUISITES: MPTH201
MAXIMUM NUMBER OF STUDENTS: 1
PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 011, 012, this course is not available in the elective lottery.
ELECTIVE DESCRIPTION: The purpose of this elective is to provide the student with a basis for understanding general pathology or its subspecialty. The program, although with a general structure, can be adjusted individually to a particular student. The students will benefit most from direct instruction with the pathology staff. This is a great opportunity to develop a basis for a future study of medicine.

Pathology for your Chosen Specialty
.................................................. PATH5216
2 Credits Basic Science Selective, Our Lady of Lourdes Memorial
ELECTIVE DIRECTOR: Dr. James Terzian
CONTACT: ccstuaaff@upstate.edu
PREREQUISITES: MDNC2000 A SURG8200
MAXIMUM NUMBER OF STUDENTS: 1
PERIODS OFFERED: 01A, 01B, 02A, 02B, 03A, 03B, 04A, 04B, 05A, 05B, 06A, 06B, 07A, 07B, 08A, 08B, 09A, 09B, 10A, 10B, 11A, 11B, 12A, 12B
ELECTIVE DESCRIPTION: Through this elective the student can gain first-hand appreciation of the correlation between clinical disease and anatomic-pathologic findings. The proper use of clinical lab studies will be related to the student's specialty of interest. Both normal and abnormal histology for the organ system will be reviewed as it pertains to specific cases of interest to the selected specialty.

General and Special Pathology .......................... PATH5219
4 Credits Basic Science Selective, Wilson Memorial Hospital
ELECTIVE DIRECTOR: Dr. Jagmohan Sidhu
CONTACT: ccstuaaff@upstate.edu
PREREQUISITES: MPTH201
MAXIMUM NUMBER OF STUDENTS: 1
PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 011, 012, this course is not available in the elective lottery.
ELECTIVE DESCRIPTION: This elective offers six options to students: dermatopathology, hematopathology, cytopathology, microbiology, transfusion services, or neuropathology. All options will include experiences in general pathology where students will rotate through all of the sections of pathology and laboratory medicine. Students will also attend autopsies and be involved in all steps of signing and diagnosis. During the special pathology or laboratory medicine rotation, the student will either follow the biopsy or the specimen from the patient to the pathology/lab medicine department or follow the result of the biopsy or special specimen from the pathology/laboratory medicine department to the patient.

PEDIATRICS

Neonatal-Perinatal Acting Internship .............PEDS5610
4 Credits Wilson Memorial Hospital
ELECTIVE DIRECTOR: Dr. Paula Farrell
CONTACT: ccstuaaff@upstate.edu
PREREQUISITES: MDNC2000 A SURG8200 A OBGY3600 A PEDS5600 A FAMP1600 A PYCH6800
MAXIMUM NUMBER OF STUDENTS: 1
PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008

Pediatric GI ....................................PEDS5618
4 Credits Preceptor's Site
ELECTIVE DIRECTOR: Dr. Gregory Scagnelli
CONTACT: ccstuaaff@upstate.edu
PREREQUISITES: PEDS5600
MAXIMUM NUMBER OF STUDENTS: 1
PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 011, 012
ELECTIVE DESCRIPTION: All aspects of Pediatrics GI. Inpatient and outpatient.

PSYCHIATRY

Preceptorship in Adult Inpatient Psychiatry ..........PYCH6812
4 Credits Preceptor's Site
ELECTIVE DIRECTOR: Dr. Leslie Major
CONTACT: ccstuaaff@upstate.edu
PREREQUISITES: PYCH6800
MAXIMUM NUMBER OF STUDENTS: 1
PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008
ELECTIVE DESCRIPTION: In general, student responsibility would involve initial work-up and care for patients admitted with acute psychiatric disturbances. The student would be expected to learn the proper use of the various illnesses, as well as to learn the appropriate use of the various therapeutic modalities. The student would also do a limited amount of consultation and outpatient work under the direction of his/her supervisor. Preceptor's Site: General Hospital Psychiatric Unit

Acting Internship in Psychiatry ........................PYCH6822
4 Credits Preceptor's Site
ELECTIVE DIRECTOR: Dr. Leslie Major
ELECTIVE DESCRIPTION: Student would have primary responsibility for a group of psychiatric inpatients whom the student would work up and follow throughout their hospital course. The student would be expected to learn the clinical manifestations of the various major mental illnesses as well as to learn the appropriate use of therapeutic modalities. The student would also do a limited amount of consultation, liaison and outpatient work under the direction of his/her supervisor.

RADIOLOGY

Diagnostic Radiology .................. RADL7214 2 Credits Wilson Memorial Hospital
ELECTIVE DIRECTOR: Dr. Thomas Gudas
CONTACT: ccstuaff@upstate.edu
PREREQUISITES: MDCN2000 A SURG8200
MAXIMUM NUMBER OF STUDENTS: 1
PERIODS OFFERED: 01A, 01B, 02A, 02B, 03A, 03B, 04A, 04B, 05A, 05B, 06A, 06B, 07A, 07B, 08A, 08B, 09A, 09B, 10A, 10B, 11A, 11B, 12A, 12B
ELECTIVE DESCRIPTION: A joint program at the two hospitals: Wilson and Binghamton General. The student will participate in daily interpretation of imaging studies in association with staff radiologists. He/She will be assigned on a half-day rotation basis to various subspecialties in Radiology. He/She will be expected to attend all radiological interdisciplinary conferences at the various hospitals when feasible. There will be 3-4 late night sessions with Dr. Gudas, with the following morning free.

PHYSICAL MEDICINE AND REHABILITATION

Manual Neuromuscular Medicine............. RMED7608 4 Credits Preceptor’s Site
ELECTIVE DIRECTOR: Dr. Marita Powell
CONTACT: ccstuaff@upstate.edu
PREREQUISITES: MDCN2000 A SURG8200 A OBGY3600 A PEDS5600 A FAMP1600 A PYCH6800
MAXIMUM NUMBER OF STUDENTS: 0
PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012, this course is not available in the elective lottery.
ELECTIVE DESCRIPTION: Hands-on medical treatment based on understanding the musculoskeletal, circulatory, lymphatic and nervous systems of the body. In-depth review of anatomy with emphasis on developing the student’s palpatory skills to diagnose tissue texture changes, asymmetry, and restrictions of motion of musculoskeletal structures in the body that cause disease. The student will be taught specific techniques targeted to anatomically manipulate fascia, muscle and bone to improve circulation, joint mobility, restore normal range of motion and/or decrease pain caused by various musculoskeletal strain patterns and disease entities with an emphasis on neurology, orthopedics, and sports medicine.

SURGERY

Plastic Surgery ......................... SURG8021 4 Credits Preceptor’s Site
ELECTIVE DIRECTOR: Dr. Lawrence Kerr
CONTACT: ccstuaff@upstate.edu
PREREQUISITES: SURG8200
MAXIMUM NUMBER OF STUDENTS: 2
PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 009
ELECTIVE DESCRIPTION: To familiarize the student with principles and purpose of Plastic Surgery, stressing basic science in its application to clinical surgery. The student will be expected to improve his/her knowledge on treatment of contaminated wounds, wound healing, transplantation biology, grafts, and pedicle flaps. Performance based on oral examinations and patient workups. Also, a presentation on a topic of the student’s interest.

Plastic Surgery ......................... SURG8032 4 Credits Preceptor’s Site
ELECTIVE DIRECTOR: Dr. Mark Walker
CONTACT: ccstuaff@upstate.edu
PREREQUISITES: None
MAXIMUM NUMBER OF STUDENTS: 1
PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012, this course is not available in the elective lottery.
ELECTIVE DESCRIPTION: Elective to cover the full range of general plastic surgery practice including cosmetic, reconstructive breast and facial surgery, skin cancer, technical suturing, and various other surgeries.

Orthopedic Surgery ..................... SURG8033 4 Credits Preceptor’s Site
ELECTIVE DIRECTOR: Dr. Thomas Van Gorder
CONTACT: ccstuaff@upstate.edu
PREREQUISITES: SURG8200
MAXIMUM NUMBER OF STUDENTS: 1
PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012, this course is not available in the elective lottery.
ELECTIVE DESCRIPTION: This elective will allow the student to show what he/she has learned from the third year. Students will participate in a wide variety of activities both inpatient and outpatient, from E.R. To O.R.
Advanced Surgical Techniques .....................
SURG8052

4 Credits Preceptor’s Site

ELECTIVE DIRECTOR: Dr. Nirupama Anne, Dr. Ratnakishore Pallapothu

CONTACT: ccstuaff@upstate.edu

PREREQUISITES: None

MAXIMUM NUMBER OF STUDENTS: 1

PERIODS OFFERED: 001, 002, 003, 004, 005, 006, 007, 008, 009, 010, 011, 012

ELECTIVE DESCRIPTION: The objective of advanced surgical techniques is to provide a comprehensive educational exposure to surgical oncology techniques in breast surgery as well as advanced laparoscopy and head and neck surgery. It is for medical students who are interested in learning about the diverse range of surgical techniques and are interested in pursuing a career in general surgery or surgical specialties.
