Reciprocal Credits for the MD/MPH program

Students enrolled in the joint MD/MPH program may reciprocally apply coursework toward the fulfillment of the requirements of both the MD and the MPH degree requirements. Up to and including six credits of coursework taken in the Public Health program may fulfill degree requirements for the MD degree. Eligible courses are the Culminating Experience (MPHP699) and Public Health and Biopsychosocial Primary Care (MPHP649). The Culminating Experience (MPHP699) course may be used to fulfill the basic science selective requirement. Up to and including three credits taken in the Medicine program may fulfill degree requirements for the MPH degree. Eligible courses include Clinical Bioethics and Communication (CBHX2400).
