

**ESTIMATED COST OF ATTENDANCE, 2007-2008  
MEDICAL BIOTECHNOLOGY BS Degree**

The following estimates are based on average costs in the Syracuse area. Your actual costs may be less, especially if you create and monitor a personal budget. By spending less, you will avoid the need for student loans, or be able to manage other costs that cannot be included for federal student aid, such as credit card payments or car loans. Tuition and fees are subject to change.

Costs shown are for full time enrollment. Tuition, fees, and books will be reduced for part-time enrollment.

To determine how much to borrow, subtract your total resources from your total costs. If your costs are greater than your resources and aid, you probably need to borrow. Tips on budgeting can be found on the back of this sheet. Remember, any money you borrow has to be repaid, with interest.

The total cost for Medical Biotechnology is less because the number of required credits is less than for other programs.
