- Carbon Monoxide Poisoning - Aurel Mihai, MD
- Opioid Crisis: The Ugly Truths - Ross Sullivan, MD

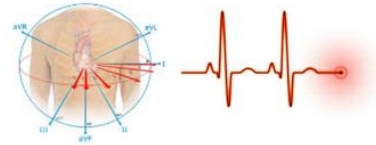

**Paramedic Student Spotlight**  
**Dennis Smith**

Dennis is a dedicated EMS professional whose quality, hard work stands out in the classroom and out in the field. While out on a call, Dennis went above and beyond to locate and install an air conditioner in the home of two elderly females during one of recent severe hot spells. While not within usual job description, we commend Dennis for his benevolent actions and going the extra mile to ensure the health and safety of these two patients.

Upstate Prehospital Teaching Day Presents:
