

# 59th Annual Post-Graduate Review Course: Ophthalmology

## Allied Health Program

### Program Description

The 59th Annual Post-Graduate Review Course: Allied Health Program consists of a series of didactic lectures with visual aids and supplemental educational materials. Ample time will be available for participants to interact with both guests and other allied health professionals.

### Learning Objectives

Upon completion of this activity, participants should be better able to

- assess the patient with ocular disease
- establish a system to review diagnostic and treatment options for ocular conditions
- discuss current issues and trends
- incorporate and reinforce coding guidelines

Meeting Agenda (*Note: Times Subject to Change*)
