**Barbara A.W. Streeten, MD, Ophthalmology**, passed away on Feb. 8, 2015. Dr. Streeten was a Physician, Teacher, and Internationally Recognized Vision Scientist at SUNY Upstate Medical University.

Dr. Streeten, one of three women who graduated from Tufts University Medical School, Class of 1950, served as a role model for young women entering academic medicine. Early in her career, Dr. Streeten held great interest in the mechanisms of disease, an interest that led her to Mallory Institute in Boston where she completed a year in general pathology and to the Massachusetts Eye and Ear Infirmary where she completed a fellowship in ophthalmic pathology. In 1964, Dr. Streeten joined the Department of Ophthalmology at SUNY Upstate, instructing residents in eye pathology and serving as an attending in the Eye Clinic, a position she held for 20 years. She served as the Director of the Eye Pathology Laboratory from 1967 until her retirement. Her nationally recognized research on ocular zonular fibers was supported by the National Eye Institute for 27 years. She served in many leadership positions for prestigious ophthalmic research societies and was an invited lecturer at numerous institutions in the United States and abroad. Her collaborations with students, residents and faculty members stimulated the department as well as her many former medical students and residents. Notes & Corrections:

Please Note:

1. In an effort to keep the Faculty Commons manageable, we will be concentrating on external presentations and service.

2. Please remember – we do not include any publications, books, book chapters, etc. that are currently “in press”. Please wait until you have publication information before you include these submissions.
