2015 Faculty Toolbox Workshop

The Office of Faculty Affairs & Faculty Development proudly sponsors Faculty Toolbox Workshops each year. The Faculty Toolbox Workshop for 2015 was held on April 29th and was presented by Dr. David Dunning. The title of the workshop was, "We Are All Flawed Intellectuals: Implications for Judgment, Learning, and Practice", and was attended by members of Upstate's faculty from all of the colleges. Dr. David Dunning is Professor of Psychology at Cornell University, where he has been since receiving his PhD from Stanford University and his BA from Michigan State University. An author of over 130 scholarly articles, book chapters, and commentaries, his primary research focus is on the psychology of human misbelief, in particular the misconceptions people hold of their own competence and character, described in his paper, "We Are All Confident Idiots." His research has been supported by the National Institutes of Health, National Science Foundation, and the Templeton Foundation. He has also written for a general audience in the *Chronicle of Higher Education*, *The Guardian*, *Pacific Standard* and *Scientific American MIND*. His work has been discussed in the *New York Times*, *The Atlantic*, *National Public Radio*, *BBC*, *CBC*, *Slate*, and even a *Doonesbury* cartoon. (Photo by Michele Henderson)

Faculty Governance

There are several important Faculty Governance elections that will be conducted in the near future. Please consider nominating yourself or another faculty member (with their approval) to run for election to the SUNY-wide Faculty Senate or to one of the Upstate Faculty Council's four standing committees.

SUNY-Wide Senate

The campus needs to elect one new senator and one alternate senator.

SUNY's University Faculty Senate is the agency by which faculty from all SUNY campuses collectively participate in SUNY governance. The Senate's function is to give faculty a voice to influence educational and professional policies within the SUNY system. The Senate is broken into sectors, of which Upstate is one of 5 campuses in the Hospital and Health Science sector. At each of the 3 plenary sessions per year, each Sector makes a report of issues discussed with the Chancellor for her immediate reaction and input. Senator duties include attending three annual SUNY-wide plenary sessions, as well as participating as a voting member on the Upstate Faculty Council.

For more information about the Senate please see the following links below or contact an existing Upstate faculty senator:

<http://www.suny.edu/facultysenate>

Faculty Council Standing Committees

The campus needs to elect four new members (with broad representation across the colleges and library) to each of the Academic Affairs, Upstate Affairs, Faculty Affairs and Operations Committees.

Under the new Faculty Governance by-laws, a committee structure establishes the mechanism to address cross-college issues. Each committee's membership represents all colleges.
