## PATIENT CARE

Upstate cares for thousands of patients each year, often providing unique or safety net services. We care for everyone.

Ninety percent of patients in the hospital are cared for by a member of the medical faculty. Patients also benefit from the advanced technologies and treatments found at the region's only academic medical center.

Upstate serves a diverse patient population, treating people from birth to older age. A focus on the wellbeing of populations is emphasized, along with the care of each person.

## SERVING THE PUBLIC

### OUTPATIENT 2024

**Total Encounters 887,556**

Peds: 109,744

Adult: 777,812

It is often misunderstood that non-profit healthcare providers and educational institutions do not contribute to tax revenue. In reality, institutions such as Upstate drive significant spending in their regions.

[illegible]

**Every \$1 of state funding generates \$46.75 in economic output**

Upstate Medical University is a well-integrated system. It has its own teaching hospital, which provides support for the vital education mission. Students learn in this dynamic environment and the majority of graduates stay in NYS to launch their careers.
