## One University Survey

[Applies to All Physicians](#)

This Friday we will launch the One University Survey throughout the entire Upstate community. The survey will ask a variety of questions on issues from work-life balance to employee involvement. We are specifically including all physicians in this survey, as we are interested in getting the physician's voice as part of this important internal assessment.

Facilitated by Press-Ganey Associates, Inc., the survey will be conducted Dec. 1 through Dec. 17 through your Upstate email account. If you don't have access to a computer, you can take the survey at various campus locations where computers will be set up for the purpose of completing the survey.

By design, all individual survey responses will be kept strictly confidential and managed solely by Press Ganey. Only aggregated results will be shared with leadership for communication to all staff and development of any follow-up actions.

Barbara Riggall, director of HR-Organizational Training and Development, will oversee the survey process. Further questions or comments may be directed to your supervisor or Barbara via email at [riggallb@upstate.edu](mailto:riggallb@upstate.edu) or [315-464-4964](tel:315-464-4964).

Your participation in this survey is strongly encouraged and greatly appreciated.

## Emergency Department Diversion and Improving Hospital Capacity

[Applies to All Physicians](#)

Over the past few months our Emergency Departments have had to go on temporary diversion due to extraordinary backlogs of patients within the ED. There are many reasons for this capacity issue. The hospital is addressing this critical concern from a multitude of directions and has taken a number of steps to help rectify this problem:

- Refurbishing and reopening 7C, and getting this staffed as an outlet
- Funding nearly 30 additional nurses to open additional beds at Community.

**ALERT**-Highest priority emergency communication; warrants immediate action or attention by the recipient.

**HIGH ADVISORY**-High priority does not warrant immediate action but recipients should be aware.

**ADVISORY**-Provides very important information for a specific incident or situation that does not require immediate action.

**UPDATES TO ALERTS AND ADVISORIES**-Provides updated information regarding an incident or situation; unlikely to require immediate action.

**INFORMATIONAL MESSAGE**-Provides timely information, important for review or serves as a reminder for an action that should be taken.

# MORNING CMO REPORT

Associate Dean for Clinical Affairs,  
Upstate University Hospital

**UPSTATE**  
UNIVERSITY HOSPITAL

- Funding the construction of a child psych unit, given the volume of these patients amongst the boarders
- Applying for a CON to convert 550 to 24 HR stay, to offload our ORs and recovery areas, and beds.
- The funding of a mobile observation team to expedite discharges of observation patients

As we wait for the benefits from these interventions to take place, there are a number of additional steps necessary to help prevent and appropriately manage ED diversion. One critical intervention which has been successful at other academic medical centers is to ensure that patients are discharged prior to noon on the day of discharge. This is important as early discharge helps to make room for the influx of patients through the ED, which generally begins in the early afternoon and continues throughout the evening. Our current pre-noon discharge rate is very poor relative to other academic medical centers. To fix this we are taking a number of steps to help identify, in advance, the anticipated date of discharge, and assure that patients will be going home prior to noon on that date. These steps include:

1. Have an expected date of discharge posted on the white board for all to see, days in advance.
2. Modify this date as needed over the course of care, but ultimately focusing in on a specific date
3. Preparing all needed documents and orders the evening before discharge, and confirming with case management that all arrangements are in place
4. Assuring patient's clinical readiness for discharge on the morning of discharge date, and getting them home before noon.

In the coming weeks, I will be communicating further about an EPIC solution for the expected date of discharge. In the meantime, your attention to steps 2-4 above is extremely critical.

**ALERT**-Highest priority emergency communication; warrants immediate action or attention by the recipient.

**HIGH ADVISORY**-High priority does not warrant immediate action but recipients should be aware.

**ADVISORY**-Provides very important information for a specific incident or situation that does not require immediate action.

**UPDATES TO ALERTS AND ADVISORIES**-Provides updated information regarding an incident or situation; unlikely to require immediate action.

**INFORMATIONAL MESSAGE**-Provides timely information, important for review or serves as a reminder for an action that should be taken.

## AMION Hospital Call List – EMTALA

[Applies to All Physicians](#)

For those of you actively seeing patients in the hospital you will familiar with AMION as a resource to identify the roster of oncall physicians for various specialties. You will also be familiar with the fact that this resource has historically been challenging to navigate. Over the last several months, I have worked with Shelley White, Jody Williams, Drs. Glidden, and Joslin to help reformat the AMION list to make it clearer to who's oncall on each campus for specialties. This trimmed down list represents those specialties formally oncall for EMTALA purposes. Other specialties may be available for routine consults and accessible through the larger AMION list. We hope that this revamp of the AMION/EMTALA list helps to clarify whom to call when an oncall physician is needed.

Please let me know if you have any questions.

The direct link is:

[www.amion.com](http://www.amion.com) (password is "upstate")

## Tier Assignments

[Applies to All Physicians](#)

As discussed in the CMO Report last week, inpatient and ED testing will be categorized into 4 Tiers. Attached is the current Tier assignments for inpatient and ED laboratory testing (outpatient ordering is not included in the current Tier system). The current Tier assignment for each test is in the last column. Of note, all tests that are NOT on this formulary list are considered Tier 4 ("off formulary").

The Laboratory Formulary Committee welcomes feedback and discussion on this Tier system as well as discussion on specific test assignments. If you have any questions, please contact Dr. Elkins at 4-6754 or myself at 4-4255.

**ALERT**-Highest priority emergency communication; warrants immediate action or attention by the recipient.

**HIGH ADVISORY**-High priority does not warrant immediate action but recipients should be aware.

**ADVISORY**-Provides very important information for a specific incident or situation that does not require immediate action.

**UPDATES TO ALERTS AND ADVISORIES**-Provides updated information regarding an incident or situation; unlikely to require immediate action.

**INFORMATIONAL MESSAGE**-Provides timely information, important for review or serves as a reminder for an action that should be taken.

## Gender Identity Education

Applies to All Physicians

The Gender Identity Workgroup has been meeting regularly over the past two years working on ways to improve the care we provide to our transgender patients here at Upstate. We are happy to announce a new Epic tool. Effective 10/21/2017 there is a new SmartForm available in the Rooming section titled Gender Identity/Sexuality that can be used by both providers and clinical team members to capture information in the EMR whenever patients disclose this information. Gender identity, sexuality, preferred pronouns, and medical steps taken to transition are included.

Please see the attached tip sheet.

## Outstanding Physician Comments

Applies to All Physicians

Each week we receive written comments from our patients regarding the care we provide within the Hospital. Below are this week's comments from grateful patients receiving care on the units and clinics at Upstate:

**Outpatient Oncology - Dr. Siva** is a very good listener and diagnostician.

**2E – Dr. Chai, Dr. Ri** - all wonderful!

**Upstate Urology - Dr. Makhuli** is excellent.

**Doctor Dmitry Nikolavsky** is a brilliant Research Scientist, and a very skilled surgeon.

**Dr. Makhuli** is highly knowledgeable, competent and a fine human being.

**Surgery UH - Dr. Amankwah** has the best bedside manner of any doctor out there. He is calming and knowledgeable.

**Joan Dolinak** is an extremely sensitive and caring Doctor who is very easy to talk to. She listens carefully and is very knowledgeable with her responses.

**University Internists – Dr. Swarnkar** is one of the most caring and thorough people I know.

**Dr. Frechette** is one in a million, top notch, super smart, very impressive.

**Dr. Swarnkar**- she spends time with me, listens to any and all concerns, is smart and very caring. Wonderful doctor!

**ALERT**-Highest priority emergency communication; warrants immediate action or attention by the recipient.

**HIGH ADVISORY**-High priority does not warrant immediate action but recipients should be aware.

**ADVISORY**-Provides very important information for a specific incident or situation that does not require immediate action.

**UPDATES TO ALERTS AND ADVISORIES**-Provides updated information regarding an incident or situation; unlikely to require immediate action.

**INFORMATIONAL MESSAGE**-Provides timely information, important for review or serves as a reminder for an action that should be taken.

**Dr. Lappin;** outstanding!

**Dr. Krenzer** is the most compassionate doctor I've had during the seven years I've been experiencing a chronic illness. She is attentive, reassuring, compassionate and highly knowledgeable. I am grateful she was willing to take my case when other physicians would not.

**Dr. Garg** always impresses me with her caring and knowledgeable information on my medical conditions. She is very thorough, professional and puts you at ease. She is very easy to talk to.

**Medicine Subspecialties – Dr. Yu** is excellent.

I was very pleased with **Dr. Shawkat**. I liked him very much and felt comfortable with him.

**Dr. Rayan** took the time needed to listen to my concerns, answer my questions and give me information so that I understood.

**Dr. Desai** / knowledgeable / prepared / friendly /

**Dr. Savici**. She is always "with you" and not distracted or rushing me. She is always prepared with my information, explains her thinking to me and listens to what I have to say.

**Dr Yu** is excellent.

**Dr. Desai** was amazing. I'm glad to have him on the team working to control my health.

**UHCC Neurology - Dr. Mejico** is always very pleasant and kind. He is by far one of the best physicians I have met over the years.

**Breast Care Center – Dr. Lai** was spectacular.

**Dr. Albert** was so amazing, caring, knowledgeable and concerned for me.

**Dr. Albert**.....he displays the perfect mix of professionalism and friendliness.

**University Geriatricians - Dr. Bishop** takes the time & has the patience with my mom& answers/affirms my concerns as well. We are lucky to be assigned to her care.

**Dr. Berg** is awesome! The patient and caregiver leave the visit feeling loved and cared for, with all medical complaints addressed.

**Joslin - Dr. Nadkarni** makes you feel like you are his only patient, listens, I never feel rushed! I am glad I found him!

I have been seeing **Dr. Feuerstein** for over 22 years. She is the best!!

Very happy to have **Dr Izquierdo** as my doctor. He is open minded and willing to talk over and issues or ideas I may have regarding my care.

**Dr. Lipeski** – fantastic.

**Dr. Roberto Izquierdo** was extremely helpful and polite during this visit. He was very kind and took the time to answer all our questions and concerns. He didn't rush us or the appointment and

**ALERT**-Highest priority emergency communication; warrants immediate action or attention by the recipient.

**HIGH ADVISORY**-High priority does not warrant immediate action but recipients should be aware.

**ADVISORY**-Provides very important information for a specific incident or situation that does not require immediate action.

**UPDATES TO ALERTS AND ADVISORIES**-Provides updated information regarding an incident or situation; unlikely to require immediate action.

**INFORMATIONAL MESSAGE**-Provides timely information, important for review or serves as a reminder for an action that should be taken.

was genuinely concerned that we were comfortable with all he had to say before we left. He is an asset to your practice, do not let him get away.

**Dr. Nadkarni** is kind, compassionate, and listens intensely to me. he never makes you feel rushed. I am thankful to be his patient.

**University Cardiology - Dr. Szombathy** is EXCEPTIONAL!!!

**Dr. Szombathy** has exceptional credentials, cares about his patients, and is exceptionally knowledgeable about the clinical literature in his field.

**Family Medicine – Dr. Greenwald** has been my primary care provider for about 35 years. His clinical knowledge and ease with patients is well beyond any other health providers I have seen.

**Dr. Elkins** was thorough, kind, receptive and responsive!

**Dr. Nanavati** is the best doctor in town, and ranks among the best there is anywhere.

**Dr. Nanavati** is exceptional in his ability to relate to me as a patient and as a person. I have never had a doctor this exceptional.

**Dr. Heather Finn**, warm, personable, listened, empathic & knowledgeable. Model family practice physician!

**Transplant – Dr. Leggat** is very professional in every sense of the word.

**ALERT**-Highest priority emergency communication; warrants immediate action or attention by the recipient.

**HIGH ADVISORY**-High priority does not warrant immediate action but recipients should be aware.

**ADVISORY**-Provides very important information for a specific incident or situation that does not require immediate action.

**UPDATES TO ALERTS AND ADVISORIES**-Provides updated information regarding an incident or situation; unlikely to require immediate action.

**INFORMATIONAL MESSAGE**-Provides timely information, important for review or serves as a reminder for an action that should be taken.

# New Gender Identity Form

## Overview of Feature/Changes

Effective 10/21/2017 there is a new SmartForm available in the Rooming section titled Gender Identity/Sexuality that can be used by both providers and clinical team members to capture information in the EMR whenever patients disclose this information. Gender identity, sexuality, preferred pronouns, and medical steps taken to transition are included.

**Please note that preferred pronouns can be recorded, though these pronouns cannot automatically be populated throughout the electronic chart.**

*Gender Identity is defined as how individuals perceive themselves and what they call themselves. One's gender identity can be the same or different than the sex assigned at birth.*

Continue to update the sex field within the EMR with the patient's legal sex.

The new Gender Identity Form is available in office visits for all ambulatory departments.

Follow the outlined procedure below to update the form within an ambulatory office visit.

1. In the Rooming Activity Click on Gender ID Sex and complete the form according to patient specifics. This data is viewable to those who have access to the form.

Hyperspace - FAMILY MEDICINE PROVIDER BASED UHCC - POC - SARA W.
