## Wound Care Services @ Upstate

[Applies to All Physicians](#)

Wound Care  
Informational

All patients requiring advanced wound services during their inpatient stay at the Downtown Campus will continue to receive specialized care via the Wound Service, comprised of a team of expert Nurse Practitioners, working in collaboration with the Upstate University Hospital Wound Care Center and the Department of Surgery. Should any inpatient require such services, please enter an Ancillary consult in Epic for a **'Consult to Wound/Ostomy'**. If at any time you would like to speak directly with a Wound Nurse Practitioner, they are available via Vocera by name. Nurse Practitioners include: Heidi Cross, FNP-BC, Jessica Dow FNP, & Terry Humez, FNP-C.

Following the initial evaluation by a Wound Nurse Practitioner and as deemed necessary, patients will continue to receive ongoing evaluation and management by the inpatient Wound Service. Should the Nurse Practitioner find a patient at any time in need of surgical intervention, the appropriate surgical service will be sought for further consultation. Subsequent to the surgical intervention and once cleared by the surgical service, patients will be returned to the Wound Service for continued management. Upon discharge, all patients requiring continued specialized wound services will be referred for follow up at the Upstate University Hospital Wound Care Center.

The Upstate University Hospital Wound Care Center has been providing advanced care for problem non-healing wounds for more than five years. They specialize in the management of diabetic foot ulcers, venous stasis ulcers, pressure ulcers, and post-radiation wounds. The Upstate Wound Care Center is staffed by specialty trained wound care physicians including four practicing physicians board certified in Undersea and Hyperbaric Medicine as well as a physician board certified in Vascular Surgery and specializing in endovascular revascularization of ischemic limbs. They take an evidence-based, multi-factorial approach to the treatment of problem non-healing wounds. They are available by phone at 315-464-4910. Internal referrals may be placed in EPIC. External referrals may be sent to their fax.

Location:

Upstate University Hospital  
750 E. Adams Street  
1 West, Rooms 1460D, 1428, 1431-1434  
Syracuse, New York  
Phone: 315-464-4910  
Fax: 315-464-1538

## Outstanding Physician Comments

[Applies to All Physicians](#)

Physician  
Comments  
Informational

Each week we receive written comments from our patients regarding the care we provide within the Hospital. I thought it would be nice for other physicians to begin to see the positive feedback we are receiving. After a suggestion from a reader last week, we are now adding ambulatory comments as well. Below are this week's comments from grateful patients receiving care on the units at Upstate:

**Inpatient at Community** – Dr. Brodey is great; kind and very skilled.

**5A** – Dr. Glidden listened to me about my pain; God bless this man.

**6K** – Dr. Hurlong is outstanding and her associates were all very good.

Dr. Lee is very good.

Dr. Hurlong – watchful care and understanding.

**8F** – Dr. Amankwah is very personable.

**Joslin Center** – Dr. Dhaliwal is very kind and thoughtful. She treated me with great respect and professionalism. She is intelligent and very, very knowledgeable in her field.

**Urology** – Dr. Makhuli is very professional; great doctor/patient demeanor

**University Geriatricians** – Dr. Brangman's attentiveness made me feel confident in her care.

**ENT** – Dr. Suryadevara was wonderful.

**ALERT**-Highest priority emergency communication; warrants immediate action or attention by the recipient.

**HIGH ADVISORY**-High priority does not warrant immediate action but recipients should be aware.

**ADVISORY**-Provides very important information for a specific incident or situation that does not require immediate action.

**UPDATES TO ALERTS AND ADVISORIES**-Provides updated information regarding an incident or situation; unlikely to require immediate action.

**INFORMATIONAL MESSAGE**-Provides timely information, important for review or serves as a reminder for an action that should be taken.
