**Medicine Safety and You**

**Amlodipine or Norvasc®**

**New medicine:**
Amlodipine

**Brand names:**
Norvasc®

**Use: (circle one)**
- Treats high blood pressure
- Treats chest pain or pressure

**Potential side effects:**
- feeling dizzy
- headache
- constipation
- swelling in arms or legs

All medicines have the potential to produce effects other than the intended use of the medicine. The chance of experiencing a side effect depends on the medicine, how it is used, what other medicines a person is taking, and individual traits such as age, weight, and other diseases. Some people have no side effects, some mild, some severe.

**If you experience any of these side effects, tell your doctor or nurse right away.**

**Please speak up at any time if you have any questions or concerns.**
