Medicine Safety and You
Ibuprofen or Motrin®, Advil®

New medicine: Ibuprofen

Brand names: Motrin®, Advil®

Uses:
- Eases pain, swelling, fever, arthritis, gout attacks, and migraine headaches

Potential side effects:
- Stomach pain
- Upset stomach and throwing up
- Constipation or hard stools
- Diarrhea or loose stools

All medicines have the potential to produce effects other than the intended use of the medicine. The chance of experiencing a side effect depends on the medicine, how it is used, what other medicines a person is taking, and individual traits such as age, weight, and other diseases. Some people have no side effects, some mild, some severe.

If you experience any of these side effects, tell your doctor or nurse right away.

Important Information: Take with food

Please speak up at any time if you have any questions or concerns.
