Medicine Safety and You
Iodixanol or Visipaque®

New medicine:
Iodixanol

Brand names:
Visipaque®

Use:
- Used before an x-ray or similar test to see parts of the body more clearly

Potential side effects:
- Upset stomach
- Feeling dizzy
- Bad taste in mouth
- Irritation where the shot was given
- Allergic reaction

All medicines have the potential to produce effects other then the intended use of the medicine. The chance of experiencing a side effect depends on the medicine, how it is used, what other medicines a person is taking, and individual traits such as age, weight, and other diseases. Some people have no side effects, some mild, some severe.

If you experience any of these side effects, tell your doctor or nurse right away.

Please speak up at any time if you have any questions or concerns.
