

MARK YOUR CALENDERS!

The Upstate New York Poison Center announces the second webinar in our Health Educators Webinar Series:

E-cigarettes/Vaping

Lee Livermore, Education Coordinator at the Poison Center will present the facts and myths around e-cigarette use. Lee will also provide you with strategies to tailor this information to fit your specific audience.

Wednesday March 20th 2019 12:45 – 2:00 pm

The webinar is free!! AN INVITATION LINK WILL BE SENT CLOSER TO THE DATE.

For questions: Darlene Marko 315-464-7078 Or markod@upstate.edu

What is vaping?

How does an e-cigarette work?

Is there nicotine in an e-cig?

Is vaping harmful?

What about the added flavors? Harmful?

Does vaping lead to cigarette use?

How does it affect a developing brain?

How is marketing to teens even possible?

Can other drugs be smoked in an e-cig?

What are the long-term effects?
