

## Toxicology Teaching Day

Sponsored

by

**Upstate Medical University/Upstate New York Poison Center  
& University at Buffalo Department of Emergency Medicine**

Meeting Planner: Jeanna M Marraffa

**Target Audience: Physicians, Nurses, Pharmacists; all health care professionals taking care of  
poisoned patients**

**“What’s On Your Mind: Central Nervous System Toxins & Their Management”**

### **Objectives:**

- Identify toxins implicated in hyperthermia syndromes and discuss the differential diagnosis
- Discuss the pharmacologic difference between older and newer neuroleptics
- Discuss the toxicity of antidepressants and their management strategies
- Identify toxins that are anticholinergic and their toxicity profile
- Identify the toxicity of lithium and appropriate treatment strategies

***Neuroleptics: Old and New: Ashley Webb Msc, Pharm.D.***

***Hyperthermia Syndromes: Prashant Joshi, MD***

***Antidepressants and Lithium: Timothy Wiegand, MD***

***Anticholinergic Agents & Hallucinogens: Michael Hodgman, MD***

*The planners and speakers for this activity have disclosed they have no financial relationships with commercial interests. Off-label use of pharmaceuticals/devices will not be discussed.*
