## Neuropsychology Assessment Program evaluates brain function

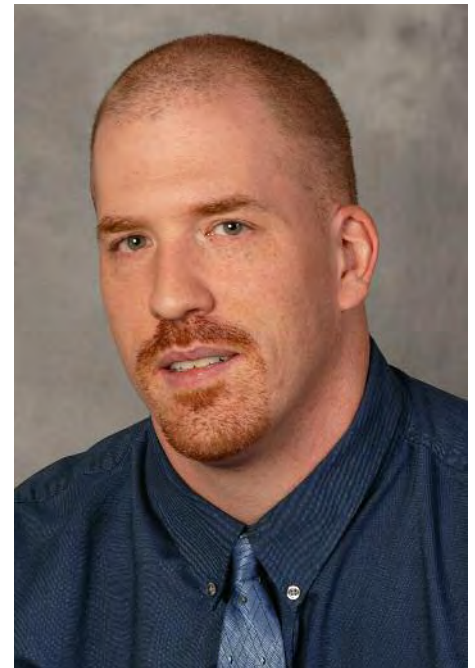

Adults and children aged five years and older who have neurological disorders can receive a comprehensive clinical assessment of their cognitive, emotional, behavioral and personality functioning at SUNY Upstate Medical University's new Neuropsychology Assessment Program. The program, offered through the Department of Physical Medicine and Rehabilitation, is the only full-time program of its type in Central New York staffed by a board-certified neuropsychologist.

According to Dominic Carone, PhD, neuropsychological evaluations assess how the brain is functioning by testing different skills, such as memory, attention, language, visual-spatial processing, executive functioning, motor functioning, and sensation. Tests of emotions, personality, and motivation are critical to interpreting the test

results. "Many tests simply involve the person responding out loud to the examiner but there is some paper and pencil testing and a minimal use of a computer," said Dr. Carone, a board certified clinical neuropsychologist and the program's coordinator. Dr. Carone is joined in the program by neuropsychologist Quintin Poore, PhD. The program has recently added a third neuropsychologist, Lyndsey Bauer, PhD, who will begin in September.

Assessments, including interview and testing, usually are performed over two days. Assessments are available for, but not limited to the following diagnoses: traumatic brain injury; cerebrovascular disease, such as stroke, aneurysm rupture; brain tumors; dementia, including Alzheimer's disease, frontal-temporal dementia; demyelinating

## Medical students find their match via National Resident Matching Program

On March 19, at noon 153 fourth-year students from SUNY Upstate Medical University's College of Medicine joined graduating medical students from across the country in learning where they will spend their first year of training (or residency) in their chosen specialty.

This annual rite of passage, known as Match Day, was established in 1952 by the National Resident Matching Program (NRMP) of the Association of American Medical Colleges.

The matching program provides an orderly and fair way to match the preferences of applicants for U.S. residency positions with the residency

program's choice of applicants. It also provides a common time for the announcement of the appointments, as well as an agreement for programs and applicants to honor the commitment to offer and accept an appointment if a match results.

At SUNY Upstate Medical University:

- 60 fourth-year medical students will enter the primary care specialties comprised of: internal medicine (24 students), pediatrics (24 students), family medicine (four students), medicine/pediatrics (three students), and obstetrics and gynecology (five students);

- 61 students will remain in New York State;

- 23 first-year residents will remain in Syracuse: 21 residents at University Hospital and two residents at St. Joseph's Hospital Health Center;

- five students participated in the military match.

In addition to matching its students to programs throughout the country, SUNY Upstate must also fill its residency positions.

According to Sara Jo Grethlein, MD, associate dean for SUNY Upstate’s graduate medical education, SUNY Upstate has filled all of its 98 specialty and subspecialty residency positions.

“We are especially pleased to have retained 20 of our own students in residency positions at Upstate Medical University,” said Dr. Grethlein. “This year’s incoming class will be an excellent addition to our institution.”

In the months prior to Match Day, students submit resumes and interview at hospitals.

In February, both hospitals and students rank their choices for placement. The match process is conducted primarily through the Web. A computer center in Washington, D.C., the National Resident Matching Program, generates the matches.

*Above: Dodji Modjinou, left, and Nelson Yang open their Match Day letters to find out their specialty choice and residency location. Modjinou will study at SUNY Stony Brook for an internal medicine residency. Yang will study internal medicine at the University of Washington.*

*Right: Matthew Daily shares with his wife, Roni, that he was matched to a Transitional Year program at St. Joseph’s Hospital Health Center in Syracuse. He will then go on to complete his radiology residency at the University of Vermont. Joining in the Match Day celebration are their sons, Hunter, 4, Noah, 2, and Thatcher, 4 months.*

## Internal Control Program assures effective and efficient operations

In a memorandum dated March 11, SUNY Upstate Medical University President David R. Smith, MD, stated that all SUNY Upstate employees are required to comply with the Governmental Accountability, Audit and Internal Control Act enacted by New York state.

The act requires all state agencies to institute a formal internal control program to ensure that operations are appropriate, effective and efficient. Ideally, the processes should be documented.

Examples of documentation at SUNY Upstate include policies and procedures manuals, departmental operating manuals, job descriptions and regulatory laws.

SUNY Upstate has established an Internal Control Committee to ensure that processes are followed properly.

The committee is comprised of representatives from the committees on Institutional Compliance, Institutional Privacy, Environmental Health and Safety, Risk Management, Information Systems Security and Internal Audit.

The Internal Control Committee has established a Web site, [http://www.upstate.edu/finance/intra/int\\_control/](http://www.upstate.edu/finance/intra/int_control/) that explains SUNY Upstate’s internal control program and the roles required by SUNY Upstate employees.

“As internal controls are very important to the mission of SUNY Upstate, I encourage everyone to visit the Web site,” said Dr. Smith.

Questions regarding SUNY Upstate’s Internal Control program may be referred to Paul Wrobel at 464-4510.

**Campus Briefs**—continued from page 2

**able to answer questions about University Hospital's occupational therapy services** at an information table, presented in recognition of April as Occupational Therapy Month, April 22, from 11 a.m. to 2 p.m. outside of University Hospital's Cafe 750. A trivia game about occupational therapy and prizes will be featured. Occupational therapy has been cited as one of the top professions for 2008 by *U.S. News and World Report*. Occupational therapists are members of the rehabilitation team who help maximize a person's independence by teaching daily living activities, health maintenance and self care, and by offering consultations regarding equipment choices. Occupational therapy helps people to achieve their goals, function at the highest possible level, concentrate on what matters most to them, maintain or rebuild their independence, and participate in everyday activities that bring meaning to their lives. To learn more about occupational therapy visit [www.aota.org](http://www.aota.org)

**National Cancer Registrars Week is April 13 to 17. Cancer registrars are cancer data specialists** who work in a wide range of cancer treatment and research settings, managing demographic and medical data on people with cancer. The information is submitted to state and national cancer registries for use in research, treatment, and prevention initiatives, enabling cancer programs to accurately determine cancer patient populations, measure outcomes of treatment and survival and formulate plans for quality improvement. Quality cancer data is central to the nation's cancer fighting efforts and cancer registrars are the first link in capturing data on patients diagnosed with cancer. Cancer registrars at University Hospital include Kathy St. Onge, Jennifer Pynn and Karen Russell. Eligible researchers may contact the department for assistance with cancer research studies.

**SUNY Upstate will celebrate Bring Your Child to Work Day April 23 with a program** that explores the world of clinical

care/nursing and trauma. For more information, call Maryann Fields at 464-4773 or Barb Riggall at 464-4964 or visit [upstate.edu/hr/jobs/trauma\\_kids.php](http://upstate.edu/hr/jobs/trauma_kids.php).

**"Growing with your Child during Seven Challenging Phases" is the theme of Child Abuse Prevention Month** to be recognized in April with a series of events presented by University Hospital with Onondaga County community agencies. Events include:

- McMahon Ryan is sponsoring a "Pinwheels for Prevention" campaign. Pinwheels may be purchased for \$1 in University Hospital's small cafeteria April 22, 23, and 24 from 11 a.m. to 1 p.m. and April 20 to 24 at the Pediatric and Adolescent Center, located on the third floor of UHCC, to be planted in community gardens. Pinwheels also may be planted in Lipe Art Park from April 20 to May 2. Other events include special programming on 570 WSYR-AM; a community event and a workshop titled "Men Hurt Too: Healing From Sexual Abuse" to be held April 23 and 24. For more information, call Vera House at 425-0818; and a Crime Victim's Ceremony to be held April 30, at 7 p.m. at St. Paul's Episcopal Cathedral, 310 Montgomery St., Syracuse.

**SUNY Upstate's band, Tachycardia, will compete at Rockin' the Red Cross Battle of the Bands** April 24 at the Landmark Theatre, 3625 Salina St., Syracuse. The event, to benefit the American Red Cross, features a cash bar and food for sale catered by the Dinosaur Bar-B-Que. Tickets are \$5 in advance through April 17 or \$10 at the door. For tickets or more information, call Nancy Prott at 464-4513; Ruby Turner at 464-5180; or Zanette Howe at 464-4263.

**The theme for National Volunteer Week—April 19 to 25—is "Celebrating People in Action."** SUNY Upstate's Department of Volunteer Initiatives will recognize its volunteers at a Volunteer Celebration Brunch May 2, from 10 a.m. to 12:30 p.m. at the Genesee Grande Hotel, 1060 E. Genesee St. Invitations will be mailed to all volun-

teers.

**Congratulations to American Heart Walk Team Captain incentive prize winners** Jennifer Albert of the College of Health Professions Physical Therapy Student Team and Danielle Sliter of the Graduate Students Team. Albert and Sliter will each receive a \$25 gas gift card for being the first two team captains to register 10 people on line with the minimum donation.

**The Center for Children's Cancer and Blood Disorders 13th Annual Maple Syrup sale** will take orders through April 3. Payments will be accepted on delivery in May. Prices are \$13 per quart; \$24 for half-gallon; \$43 per gallon. For more information, contact Mandy Trudell at [trudella@upstate.edu](mailto:trudella@upstate.edu) or call 464-6133.

**The Consortium for Culture and Medicine (CCM) will offer three courses** beginning Aug. 31 through Dec. 10: "AIDS in American Literature" will be held Wednesdays, from 4 to 7 p.m. in 1507 Setnor Academic Building; "Ethics and the Health Professions" will be held Wednesdays, from 4 to 7 p.m. in 1508 Setnor Academic Building; and "History of Public Health in America" will be held Mondays, from 6 to 9 p.m. in 1507 Setnor Academic Building. The courses are open to SUNY Upstate staff and employees who hold a bachelor's degree. For registration sites or additional information visit [upstate.edu/ccm](http://upstate.edu/ccm).

**The Healing Muse, SUNY Upstate's journal of literary and visual art** published by the Center for Bioethics and Humanities, is accepting submissions until May 1. Fiction, poetry, narratives, essays, memoirs, drawings, photography, and graphic art, particularly but not exclusively focusing on themes of medicine and healing will be accepted. For more information, e-mail [hlgmuse@upstate.edu](mailto:hlgmuse@upstate.edu), or visit [www.thehealing-muse.org](http://www.thehealing-muse.org).

disease, such as multiple sclerosis; movement disorders, including Parkinson’s disease; certain developmental disorders, such as cerebral palsy; toxic encephalopathies; and infectious diseases, such as HIV.

The program does not provide

assessment for identifying Attention Deficit Hyperactive Disorder as SUNY Upstate’s Department of Psychiatry and Behavioral Sciences offers a specialized program for this diagnosis. Assessments for autism are referred to SUNY Upstate’s Developmental Evaluation Center.

The Neuropsychology Assessment Program is located at the Institute for Human Performance, 505 Irving Ave., Syracuse. Physician referrals are preferred; however, patients may self-refer.

For more information about the program, call 464-2320.
