Community Giving — from page 1

the traditional way.

Your participation, at any level, is essential to our success and the well being of our community. Below is just a small sample of what the campaign accomplished last year:

• Provided hot meals to the hungry, including working families with children, the elderly, people laid off from work, and the homeless.
• Helped people after their homes were destroyed by fire or other disasters.
• Helped give hope a new home with the campaign to build the Upstate Cancer Center.
• Helped families in crisis get counseling and stay together, keeping children out of foster care.
• Helped fight for the prevention of cruelty to animals and find loving homes for the animals who need them.

Our campaign success starts with you, whether you’re new to the campaign or a veteran donor.

To encourage participation, both the United Way and Upstate are offering terrific incentives and prizes that are clearly listed in all materials.

Once again, Zanette Howe is the Community Giving Campaign director and Dan Hurley will handle leadership gifts through the Hamilton White campaign. They have joined the Community Giving Campaign committee and department representatives in designing what will be Upstate’s most successful giving campaign to date. If you have any questions, please contact Zanette (464-4263 or howez@upstate.edu).

Many residents in our community are more vulnerable than ever and increasingly dependent on the good will of those in more secure circumstances. We hope you will find it possible to support Upstate’s 2011 Community Giving Campaign.
