

# Memorandum

TO: All Authorized Users of Radioactive Material

FROM: Gerald (Jerry) M. Connock  
Radiation Safety Officer

DATE: October 9, 2009

SUBJECT: Sewer Disposal of Radioactive Material (3<sup>rd</sup> qtr)

By regulation we are required to show that our (Upstate) monthly and yearly releases to the sanitary sewer are below certain levels. In order for us to do this we must know how much radioactivity was disposed of by each lab during each month of the past quarter (July through September) and the total for the entire year (2009).

Please reply to this email, filling out the area below by November 2, 2009. **If you had no sewer disposal we still need to hear from you.** Since we need to make a report to the DEC, we require your response in a timely fashion. We would like to thank you in advance for your help.

If you would like to be faxed a copy of the form, please email us with your fax number. Also, don't forget to put the name of the Authorized User some where on the form. We now have our own FAX machine and so you can FAX the results to us at X4-5095. The form is also available on the website at <http://www.upstate.edu/radiationsafety/forms/sew32009.pdf>. You may print it off and then mail or fax it to us.
