OUR Upstate (Tier 1) Strategic Plan Performance Measures

Introduction

The data presented in this report are the metrics that measure progress for the fifteen institutional objectives of the One University Road map – OUR Upstate – Strategic Plan.

The OUR Upstate Strategic Plan is aimed at executing Upstate Medical University’s mission – ‘To improve the health of the communities we serve through education, biomedical research and patient care.’ Focusing on the highest strategic priorities of Integration, Innovative Learning and Discovery, Community Impact, and Execution and Growth, Upstate will achieve our vision – ‘United in expertise, compassion and hope to create a healthier world for all.’

Regarding the strategic plan performance measures contained in this report, it is important to note that thousands of operational, financial, and departmental metrics are routinely monitored across the organization’s tripartite mission of education, biomedical research and clinical care. The strategic plan performance measures selected to represent progress on our organizational objectives – priority areas of continuous improvement – represent a deliberate and detailed development process encompassing multiple factors. All performance measures relate to the intended results of the strategic objectives, and therefore may be best represented by a programmatic or multi-mission metric. The criteria below were considered in the selection process, with a specific emphasis on: Breadth of Measure; Balance across Education, Research, and Clinical; and Important to Institution-wide Mission and priorities.

Criteria for Good Performance Measures			
Easy to understand, valid, & reliable	Focus on strategic measures versus operational	Ability to influence measure with targeted actions	Provides meaningful information for decision-making
Sustainable (intent is to measure and monitor over time)	Direct and frequent measurements when possible	Prioritize leading measures over lagging measures	Prioritize measures where baseline and benchmark data exists
Additional Upstate Medical University Criteria for OUR Upstate Performance Measures			
Connects to Intended Results of the Objective	Breadth of Measure (encompasses a high-level measurement for the Institution)	Balance across Education, Research and Clinical	
Important to Institution-wide Mission and priorities	Current ability to measure (does not require a project to start capturing the measure)	Ability to drill-down and roll-up	

The OUR Upstate Strategic Plan Performance Measures Report will be published quarterly by the Office of the President. The strategic plan performance measures will be reviewed on an annual basis to ensure continuing relevance. On behalf of the Office of the President, we extend our appreciation to the numerous data providers associated with these measures.

Report Overview

The layout of the OUR Upstate Strategic Plan Performance Measures Report is as follows:

- **OUR Upstate (Tier 1) Strategy Map:** The one-page strategic plan which illustrates the causal relationships among strategic objectives and tells a story of how value is created for the organization's customers and stakeholders.
- **Strategic Objective Dashboards:** There is one dashboard of performance measures for each objective.
 - *Note:* A couple of the performance measures are still under development. For those performance measures, a placeholder section has been created with a note that the performance measure is under development and will be coming soon.
- **Notes and Data Dictionary Pages:** Each performance measure has supporting documentation related to the definitions, data sources, reporting timeframes, etc., as well as any notes to explain and/or provide additional information to help the reader correctly understand and interpret the data that is being presented.
- **Addendum Reports:** A couple of the performance measures have an addendum report, which provides additional data that was not presented on the dashboard. These reports are provided at the request of the data provider for additional detail.

She Matters is a UMU community outreach program that educates women on the importance of breast cancer screenings. She Matters is made up of Resident Health Advocates (RHAs) that go into the community where they live in order to provide Breast Cancer education and to encourage/help women to schedule a mammogram. The RHAs provide support by going to appointments and staying in the waiting room until the mammogram is completed. RHA's also make annual phone calls to remind patients of their upcoming appointment.

	Journal Citation Reports: selected 94 biomedical / nursing / education categories = 5574 total journals
	Some of the journals in which Upstate authors publish do not have Impact Factors (i.e. don't appear in JCR), as either the journal is too new or it has dropped off the list because of too few citations. For those journals without an Impact Factor, they were assigned an Impact Factor of zero for this analysis.
