

## Nurse as Educator for the BS

3 Credits

This course focuses on the baccalaureate nurse as an educator of patients, families, and patient populations. Theories, teaching strategies, and development of teaching plans and their evaluation of their efficacy will be examined. Cultural competence, health literacy, and health promotion will be integrated into the course. Students will assess learner characteristics and readiness for learning and evaluate application. The evaluation of electronic websites will be addressed and also, technology as a tool for learning and teaching. The course provides the framework to utilize research theory and evidence-based practice in teaching and learning. The ethical, economic, social and political impact on the professional nurse's role of educating their patients, families, and patient populations will be covered.
