

Capstone Course: Trends in Practice and Healthcare

5 Credits

This capstone course focuses on the role of the professional nurse within the changing healthcare delivery system, and demonstrates achievement of the Baccalaureate Essentials. It provides an opportunity for the students to apply and synthesize learning gained in previous course work and experience the care of patients in a variety of settings. There is an emphasis on clinical judgment, reflection on practice, and lifelong learning. Each student will participate in a precepted capstone experience where a clinical project will be completed. Student led seminars and capstone presentations will facilitate the sharing of knowledge obtained from literature and the clinical.

Prerequisite: NURS 326

Pre/Corequisite: NURS 481
