

Clinical Management/FPMHNP II

6 Credits

This course focuses on advanced knowledge of psychiatric-mental health nursing, including selected mental health problems and psychiatric disorders. Assessment, decision-making and therapeutic interventions with families, groups, and populations at risk are explored. The role of advanced practice nurses in the implementation of psychopharmacotherapeutic and integrated bio-psychosocial educational and supportive interventions for children, adolescents, adults, and older adults as well as culturally diverse populations is examined.

Prerequisite: NURS 627

Pre/Corequisites: NURS 612; NURS 565
