

DNP Project III

50 Clinical Hours

3 Credits

This course is the third of three sequential clinical courses with a continued focus on the completion of the DNP project developed in the previous two clinical courses providing experiential learning opportunities for the student. As the project progresses the student continues with the opportunity to collaborate with doctoral faculty and mentor experts to analyze data and formulate the final project outcome(s). The student will be required to develop a project dissemination plan to include a local, state or national conference and a manuscript ready for submission to a peer-reviewed journal. The sequential clinical courses provide students with experiential learning competencies for future scholarship. The student meets a minimum of 50 clinical hours.

Prerequisite: NURS 723
