

## College of Graduate Studies

### *Graduation and Retention Data by Matriculation Year*

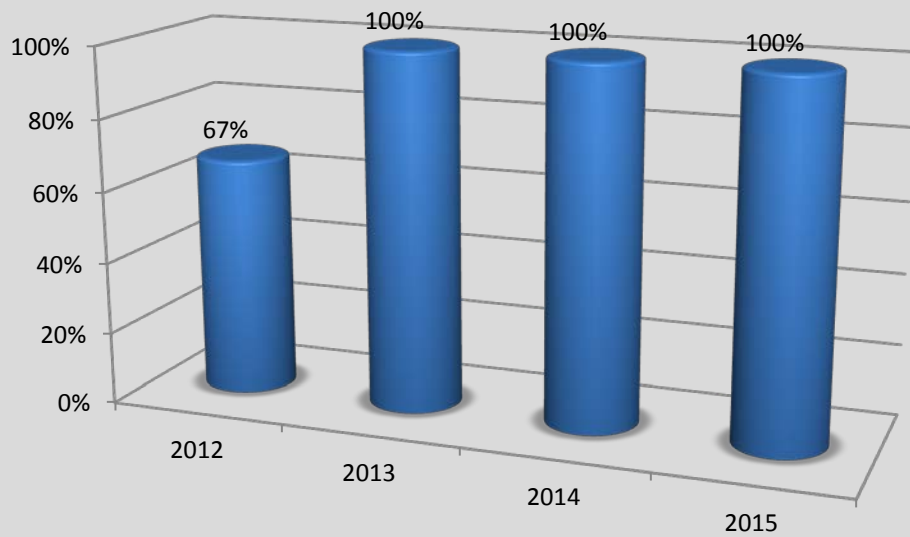

As Doctoral programs typically take more than 4 years, graduation and persistence rates have been combined and labeled as 'Retention Rates' in the graphs below. Rates are based on 2016 Fall enrollment data. All data are calculated at 150% time to degree.

### *Measures of student achievement*

#### **Publication**

This link leads to a list of recent first-author publications in books and professional journals by Upstate students:  
<http://www.upstate.edu/grad/students/publications.php>

Doctoral students in the College of Graduate Studies who finished in 2011-2012, 2012-2013 and 2013-2014 published on average 4.4 publications (with 2.1 being first author) that are indexed on Pub Med. On average, these publications have been cited 26 times.<sup>1</sup>

### *Employment or placement after graduation*

#### **In-Field Employment Rates (PhD, MS)**

Degree Program	2015	2014	2013	2012
<b>PhD</b>	95%	100%	100%	100%
<b>MS</b>	100%	95%	100%	100%

*Employment data obtained from Alumni surveys.*

#### **Residency Matching Rates (MD/PhD)**

100% (or 8 out of 8) of the graduates from the MD/PhD program from 2013, 2014 and 2015 were matched into residencies.

---

<sup>1</sup> Due to the low number of graduates, the College of Graduate Studies Administration uses a 3 year average of publications
