## MEDPREP ACADEMIC ENHANCEMENT MASTER'S PROGRAM

A rigorous one-year program to prepare promising students for medical school admission.

The program provides:

- the guarantee of an admissions interview at Upstate Medical
- a Master's degree in one year
- the affordability of SUNY graduate-level tuition
- 95% of alumni accepted to medical school

### PROGRAM OUTLINE

The MedPrep Academic Enhancement Program is a Master's degree program that gives students the opportunity to strengthen and cultivate their academic, clinical and analytical skills. The program specifically helps students to strengthen their scientific background for medical school.

Accepted students complete a full year of course work while either actively applying to or perfecting other components of their future application to medical schools. A Master's in Medical Technology is awarded upon completion.

Students will be offered advising sessions with College of Medicine Admissions counselors as well as academic support, tutoring and peer mentoring from medical students.

### Our Commitment to Diversity

The Upstate MedPrep Academic Enhancement Master's Program has recently undergone changes to particularly prioritize applicants from diverse backgrounds. For more information on our Diversity Commitment please visit <https://www.upstate.edu/chp/programs/msp/diversity.php>

### Two Application Tracks for Your Success\*:

Concurrent Application: Apply while in the MedPrep program

Growth year: Apply in the next cycle following the MedPrep program

\*Track is determined by the admissions committee alongside an acceptance offer.
