EMERGENCY MEDICAL TECHNICIANS SAVE LIVES!

EMTs conduct basic, non-invasive interventions within an Emergency Medical Services system to help save lives. They provide treatment such as:

- **Manage Airway with Oxygen, CPAP, Assisted Ventilation & Suction with Adjunct Devices**
- **Perform Cardiopulmonary Resuscitation (CPR) & Use of Automated External Defibrillation (AED)**
- **Assist with Childbirth & Neonatal Resuscitation**
- **Control Bleeding using Tourniquet & Hemostatic Dressing**
- **Administer Life-saving Medication - Narcan, Albuterol, Epinephrine & Glucose**
