

March 28, 2022

SUNY Upstate Medical University, Department of Emergency Medicine, EMS Education & the Upstate Foundation are pleased to announce the **2022 Critical Care Transport Enhancement Grant**. This one-time award is intended to provide financial assistance to a local EMS agency who has an existing critical care transport program to purchase equipment to enhance their capabilities. It is the intent that the local EMS agency becomes self-sufficient, develops resources and capabilities for critical care transport while not relying on outside support for equipment or personnel.

A maximum single award of \$10,000 is available. Funding granted based on demonstrated need and community impact. Agencies must agree to support matching funds, 25% of their total award

Grant applications must identify:

- Community Served
- Demonstrated Need for Funds
- Project Budget
 - Equipment, Training, Personnel
- Funding stream for matching funds
- Implementation timeline
- Sustainability plan

Letters of support are required from the following:

- Agency Medical Director
- Affiliated Hospitals

Applicants must articulate how this award will impact their agency and improve health care for the communities served.

Eligible EMS agencies must have a base of operations and provide service within our 14-county region: Broome, Cayuga, Chenango, Cortland, Herkimer, Jefferson, Lewis, Madison, Oneida, Onondaga, Oswego, Tioga, Tompkins, St. Lawrence

Applications must be submitted as a single PDF document to Douglas Sandbrook by July 1, 2022.

sandbrod@upstate.edu

Grant Awards will be announced August 15, 2022.

Applications will be reviewed by a panel from Upstate Medical University, University Hospital & Golisano Children's Hospital

Questions should be directed to Douglas Sandbrook
