

# Aware Prepare Update

Department  
of Health

Office of  
Health Emergency  
Preparedness

September 2023

Welcome to the **September 2023** issue of the Aware Prepare (AP) Update. The AP is your bi-monthly guide to upcoming trainings related to preparedness, readiness, and response. These trainings may be provided in one or more of the following formats, including: live webcasts, webinars and in-person training; archived webcasts, webinars and On-Demand eLearning on the [www.NYlearnsPH.com](http://www.NYlearnsPH.com) Learning Management System. Questions or submissions, email: [edlearn@health.ny.gov](mailto:edlearn@health.ny.gov)

## What's in this issue

<b>ICYMI: Governor Hochul Preparedness Related Press Releases</b>	Pp. 1-2
<b>ICYMI: NYS Department of Health - Preparedness Related Press Releases</b>	Pp. 2-3
State, Federal & Other Resources	Pp. 3-11
<b>New</b> and Upcoming Live Events	Pp. 12-23
New OnDemand Content Available through the <i>NYlearnsPH.com</i> LMS	Pp. 23-25
Additional Training of Interest	Pp. 25-27

## ICYMI: GOVERNOR HOCHUL –Preparedness Related Press Releases

## **Other Resources and Opportunities:** **Center for Disease Control and Prevention (CDC)**

### Health Alert Network (HAN)

#### [2023 HAN Messages | Health Alert Network \(HAN\)](#)

- [HAN-0498 – 09/05/2023 - Increased Respiratory Syncytial Virus \(RSV\) Activity in Parts of the Southeastern United States: New Prevention Tools Available to Protect Patients](#)
- [HAN-0497 – 09/01/2023 - Severe \*Vibrio vulnificus\* Infections in the United States Associated with Warming Coastal Waters](#)
- [HAN-0496 – 08/28/2023 - Important Updates on Locally Acquired Malaria Cases Identified in Florida, Texas, and Maryland](#)

## Other CDC Resources:

### COCA NOW Antifungal-resistant Ringworm Infections

August 25, 2023 - Ringworm, also called tinea or dermatophytosis, is a common fungal infection of the hair, skin, or nails caused by dermatophyte fungi. Ringworm spreads easily by skin-to-skin contact with infected animals or people and by fomites (everyday objects or surfaces that may be contaminated). Usually, ringworm skin infections are minor ailments that can be treated successfully with topical antifungal medications or oral terbinafine, a first-line oral antifungal drug for ringworm, in cases of widespread infection.

However, ringworm caused by *Trichophyton indotineae*, a frequently antifungal-resistant fungus, can cause widespread, highly inflamed lesions on the face, trunks, arms, legs, or groin. *Trichophyton indotineae* infections generally do not improve when treated with most topical antifungals or terbinafine. Antifungal-resistant ringworm is difficult to treat and can affect anyone, including people with healthy immune systems. Outbreaks of antifungal-resistant ringworm are occurring in the Indian Subcontinent, and cases have been detected throughout Asia and Europe.

Dermatologists and public health officials in New York City have [reported](#) cases of severe ringworm caused by *Trichophyton indotineae* and [fungal nail infections](#) resistant to terbinafine. In July 2023, an [analysis](#) from a reference laboratory testing dermatophyte isolates from several U.S. states and Canada found that 19% of the isolates were resistant to terbinafine. A study from [France](#) described severe ringworm cases potentially transmitted during sex among men who have sex with men. To date, there have been no similar published reports of ringworm transmitted through sexual contact in the United States. Additional data are needed to understand the extent of severe and antifungal-resistant ringworm in the United States.

---

### ICYMI: Multi-Dose Vial Safety Reminders for National Immunization Awareness Month

Each August marks National Immunization Awareness month, an annual CDC-supported observance that highlights the importance of routine vaccinations for people of all ages. During this observance, healthcare workers play a critical role in both advocating for and safely administering vaccines to their patients. Project Firstline wants to ensure that all healthcare workers who give vaccines understand and practice injection safety and use multi-dose vaccine vials correctly each time.

Multi-dose vaccine vials require a specific set of safety procedures that should be used every time a vaccine is prepared and given. To read the 10 injection safety steps to remember when working with multi-dose vaccine vials, check out our latest blog post: [Multi-Dose Vial Safety Reminders for National Immunization Awareness Month](#).

---

### September is Sepsis Awareness Month: Learn How You Can Protect Yourself and Your Loved Ones from Sepsis

Anyone can get an infection, and **almost any infection, including COVID-19**, can lead to sepsis. Sepsis is the body's extreme response to an infection and is a life-threatening medical emergency. If you or your loved one has an infection that's not getting better or is getting worse, ACT FAST. Get medical care IMMEDIATELY.

Most cases of sepsis start before a patient goes to the hospital. Most people who develop sepsis have at least one underlying medical condition, such as chronic lung disease or a weakened immune system. Nearly a quarter to a third of people with sepsis had a healthcare visit in the week before they were hospitalized.

September is Sepsis Awareness Month and CDC encourages patients and healthcare professionals to get ready by sharing *Get Ahead of Sepsis* resources and to learn how to protect themselves, their loved ones, and their patients from sepsis.

[CDC-ORDER FREE PRINT MATERIALS](#) Select “Sepsis” from the Programs drop-down menu and click “Apply”. Allow up to 4 weeks for delivery

#### Patients and families:

- **Download and share** CDC’s [FREE patient education materials](#) with your friends and loved ones to learn how to prevent infections, be alert to the signs and symptoms of sepsis, and act fast if sepsis is suspected.
- **Share [sepsis graphics](#) on social media** to educate friends and loved ones about sepsis using the hashtag #SAM2023.
- Are your children back to school? **Talk to your child’s healthcare professional and school nurse about steps you can take to [prevent infections](#) that can lead to sepsis.** Some steps include taking good care of chronic conditions and getting recommended vaccines.

#### Healthcare professionals:

- **Download and share** CDC’s [FREE healthcare professional education materials](#) with your colleagues to educate them about how to recognize signs and symptoms of worsening infection and sepsis, how to get ahead of sepsis, and what to do if they suspect sepsis.
- **Educate your patients and their families about:**
  - o Preventing infections
  - o Keeping cuts clean and covered until healed
  - o Managing chronic conditions
  - o Recognizing early signs and symptoms of worsening infection and sepsis
  - o Seeking immediate care if signs and symptoms are present

This Sepsis Awareness Month, spread the word about sepsis—you can help save lives.

---

#### **ICYMI: The Council for Outbreak Response (CORHA): Healthcare-Associated Infections and Antimicrobial-Resistant Pathogens — Principles and Practices for Outbreak Response**

New chapters relating to HAI/AR outbreak detection, reporting, investigation, and control are available in CORHA’s Principles and Practices for Outbreak Response. This resource provides guidance for public health professionals, healthcare workers, and other stakeholders to respond to various infections, pathogens, and associated risk factors related to HAI/AR outbreaks. CORHA is excited to announce that [Chapter 6: Laboratory Best Practices](#) and [Chapter 8: Notification and Communication](#) are now available!

Learn more: <https://www.corha.org/resources/corha-principles-and-practices-for-outbreak-response/>

**ICYMI: Antibiotic Resistance & Patient Safety Portal (AR&PSP)** — CDC’s [Antibiotic Resistance & Patient Safety Portal \(AR&PSP\)](#) enables you to explore and visualize data on antimicrobial resistance and patient safety across multiple healthcare settings and different geographic locations. We’re highlighting a few recent updates on the portal:

- A new page for [Healthcare-Associated Infections in Dialysis](#) featuring 2019 data
- Explore 2021-2022 data on the new [Healthcare Personnel Influenza Vaccination](#) page
- Latest data from 2021 on the [Core Elements of Antibiotic Stewardship for Nursing Homes](#) implementation page

---

**ICYMI: CDC Launches New Streamlined COVID-19 Website** — As part of CDC’s ongoing effort to improve communications on COVID-19, a new, refocused CDC [COVID-19 website](#) has been published. The updated site was created to meet the needs of the public so they can easily find the most up-to-date information on COVID-19, especially as we prepare to enter the fall respiratory virus season.

This new website is the result of months of work by technical and health communication experts, who reviewed every page of CDC’s COVID-19 website to identify the information that was most relevant and that continued to be sought out by our partners.

To maintain transparency, the webpages from the previous version of the COVID-19 website will be available at [archive.cdc.gov](#). Individuals who attempt to access a page that has been archived will see a message that the page has been archived and will be seamlessly redirected to the new COVID-19 website.

---

## **ICYMI: CDC Training Development Website: New Tools and Resources**

Build better training from start to finish with help from [CDC’s Training Development website](#). Training is not always the solution to a performance gap, so it is important to conduct a training needs assessment. To get help with this crucial first step, check out the [Analyze](#) page.

If training is needed, a training needs analysis, using the [checklist](#) on this page, can help you create a training that builds the knowledge, skills, and abilities of your unique learners. After your training is over, [postcourse and follow-up evaluations](#) provides feedback to see if your training met your program goals. With this flexible evaluation template, you can gather information about your learners after the training ends, no matter if it is immediately after or delayed follow-up. You can find help with both the Analyze and Evaluate phase of training development with these new [tools and resources](#).

## **Featured trainings on [CDC Learning Connection!](#)**

Get your summer training in with [CDC Learning Connection’s](#) featured courses and **earn free CE!**

- People with long COVID may experience symptoms that affect returning to work. Learn how to provide care with [Evaluating and Supporting Patients with Long COVID in Returning to Work](#).
- A strong safety culture in healthcare settings can help reduce staff burnout and improve patient outcomes. Learn how you and your organization can promote a safe workplace with [Safety Culture in Healthcare Settings](#).

- CDC developed the 2022 *Clinical Practice Guideline for Prescribing Opioids for Pain* to help improve pain care. Learn how to use the Guideline’s recommendations to make informed decisions with [CDC’s 2022 Clinical Practice Guideline](#).
- [Sign up](#) for CDC’s newsletter to stay informed about quality public health trainings from CDC and partners.

## September 1, 2023 – Fall 2023 Vaccination Toolkit

With the [uptick in COVID-19 hospitalizations](#) and the upcoming flu and respiratory virus season, many people are asking what they can do to keep themselves and their loved ones safe and healthy.

As we say goodbye to our [Healthy and Happy Summer](#) and turn our attention to fall vaccine promotion, PHCC has created a [new resource to help you communicate timely, effective, and consistent vaccine information](#). We hope this toolkit will help you get community members the information they need.

[Download the Toolkit](#)

How to Customize the Fall 2023 Vaccination Toolkit Graphics:

Use these instructions to customize the [Fall 2023 Vaccination Toolkit](#) Canva graphics with your organization’s logo.

1. [Create a free Canva account](#), if you don’t have one already. You will need one to edit the graphics.
2. Follow the hyperlinks below to access editable versions of the vaccination graphics. On the page that opens, you’ll click “Use template” to start editing. [Edit the English versions here](#). | [Edit the Spanish versions here](#).
3. Upload your logo to Canva. You’ll click “Uploads” on the left sidebar of the page. Click the purple “Upload files” button or drag and drop your logo into the upload section.
4. Drag and drop the logo into the placeholder area that says **[ADD YOUR LOGO HERE]** and delete the placeholder text.
5. Adjust the placement of the logo as needed by dragging the logo across the graphic (be sure not to cover any text). To resize your logo, click on it and adjust the size with the white circles in each corner.

When editing is complete, click “File” then “Download” in the top left to download the graphic to share on your social media channels and other communications platforms.

**ICYMI: August 3, 2023 - New Messaging: CDC Recommendation on Pediatric RSV Antibody Treatment**

On August 3rd, [the CDC announced the recommended use of nirsevimab \(Beyfortus\)](#). Beyfortus is a new Respiratory Syncytial Virus (RSV) monoclonal antibody treatment for infants and young children at risk of severe illness caused by RSV infection. Beyfortus has been shown to reduce the risk of both hospitalizations and healthcare visits for RSV in infants by about 80% and is expected to be available this fall—when RSV season begins.

To help you answer questions from your community, we've updated our [Answers to Tough Questions](#) to reflect the CDC's latest recommendations. [Read the Updated Messaging](#)

## United States Fire Administration (USFA)

### Open Enrollment Changing from Twice a year to Quarterly.

The U.S. Fire Administration's National Fire Academy (NFA) is moving away from the twice a year enrollment periods for students to apply for courses at the National Emergency Training Center. This decision was made after receiving student and stakeholder feedback.

The NFA will be switching from a twice-yearly open enrollment to a quarterly open enrollment. Please note, this change does not affect the enrollment processes of the Executive Fire Officer Program (EFO) or Managing Officer Program (MOP). These programs have a separate enrollment process, information can be found here (<https://www.usfa.fema.gov/nfa/programs/>). The open enrollment period will be open for 30 days and will be for a 3-month period.

Open Enrollment will be as follows:

Open Enrollment period:

December 15 - January 15

March 15 – April 15

June 15 – July 15

September 15 – October 15

For the months of:

April, May, and June, 2024

July, August, and September, 2024

October, November, and December, 2024

January, February, and March, 2025

This open enrollment change could potentially allow a student to apply and attend a class within a 6-month window. The new open enrolment process does not affect the limit of one student stipend per fiscal year (10/1 to 9/30) (<https://www.usfa.fema.gov/nfa/on-campus-students/travel-reimbursement/>). Questions? [Contact Us](#)

---

---

## Federal Emergency Management Agency (FEMA)

FEMA offers several virtual **Public Information Basic** courses throughout the year. See schedule below for upcoming sessions. Once you identify a date that will work with your schedule, you can submit an online application at [National Emergency Training Center Online Admissions Application \(fema.gov\)](https://www.usfa.fema.gov/nfa/on-campus-students/travel-reimbursement/). As long as the course does not say “closed course”, “invitational only”, or “state only” you can apply. If you are able to register for the specific date then it should have seats available.

### Helpful Hints in Applying for Virtual FEMA Training ([OHEP Guide to Registering for NYS DHSES and FEMA EMI Course Offerings](#))

- Know the EMI or NFA course code prior to beginning the application process for the training you would like to attend (see catalogs at [EMI Course Catalog](#) or [NFA Course Catalog](#))
  - **K0105: Public Information Basic**  
Know your FEMA Student Identification (SID) number prior to applying for a course. If you do not have a SID number please obtain one at <https://cdp.dhs.gov/femasid>
- If the training you are applying for requires you to submit any form of supporting documentation (e.g. resume, checklist, transcripts, organizational charts, recommendations, prerequisite training completions, exercise experience, etc.) please prepare this documentation in PDF form prior to applying for the course. The maximum size for each PDF is 1 MB. If you do not know how to prepare a PDF document please seek information technology (IT) support.
  - **IS-29: Public Information Officer Awareness is a pre-requisite. Please complete prior to applying for Public Information Basic - EMI - IS (fema.gov)**
- All EMI and NFA applications require an electronic approval from the head of your sponsoring organization. You will need the name, title, and email address of this person to submit the application. Non-Federal applicants for EMI courses must use the appropriate State Training Officer (STO) as “Head of Organization”. STO contact information can be found here <https://www.firstrespondertraining.gov/frts/statecontacts>
  - **For NYS, the STO is:**  
**Rebecca Wilburn**  
**State Training Officer/Chief Training and Exercises**  
[rebecca.wilburn@dhses.ny.gov](mailto:rebecca.wilburn@dhses.ny.gov)

For additional questions regarding a Virtual Public Information Basic Session, please email or call the Point of Contact listed below

Course (Times)	Start Date	End Date	Program	Point of Contact
K0105: Public Information Basic (11:00 AM - 04:00 PM EST)	9/18/2023	9/22/2023	Emergency Mgmt Professional Program	<a href="#">Januchowski, Jeffrey</a> 301-447-1383
K0105: Public Information Basic (11:00 AM - 04:00 PM EST)	1/29/2024	2/2/2024	Emergency Mgmt Professional Program	<a href="#">Januchowski, Jeffrey</a> 301-447-1383
K0105: Public Information Basic (11:00 AM - 04:00 PM EST)	4/22/2024	4/26/2024	Emergency Mgmt Professional Program	<a href="#">Januchowski, Jeffrey</a> 301-447-1383
K0105: Public Information Basic (11:00 AM - 04:00 PM EST)	8/26/2024	8/30/2024	Emergency Mgmt Professional Program	<a href="#">Januchowski, Jeffrey</a> 301-447-1383

**ICYMI:** FEMA offers several virtual HSEEP courses throughout the year. See schedule below for upcoming sessions. Once you identify a date that will work with your schedule, you can submit an online application at [National Emergency Training Center Online Admissions Application \(fema.gov\)](#). As long as the course does not say “closed course”, “invitational only”, or “state only” you can apply. If you are able to register for the specific date then it should have seats available.

Helpful Hints in Applying for Virtual HSEEP Training ([OHEP Guide to Registering for NYS DHSES and FEMA EMI Course Offerings](#))

- Know the EMI or NFA course code prior to beginning the application process for the training you would like to attend (see catalogs at [EMI Course Catalog](#) or [NFA Course Catalog](#))
  - **K0146: Homeland Security Exercise and Evaluation Program (HSEEP) Training Course**
- Know your FEMA Student Identification (SID) number prior to applying for a course. If you do not have a SID number please obtain one at <https://cdp.dhs.gov/femasid>
- If the training you are applying for requires you to submit any form of supporting documentation (e.g. resume, checklist, transcripts, organizational charts, recommendations, prerequisite training completions, exercise experience, etc.) please prepare this documentation in PDF form prior to applying for the course. The maximum size for each PDF is 1 MB. If you do not know how to prepare a PDF document please seek information technology (IT) support.
  - **IS120: An Introduction to Exercise is an HSEEP pre-requisite. Please complete prior to applying for HSEEP - <https://training.fema.gov/is/courseoverview.aspx?code=IS-120.c&lang=en>.**

- All EMI and NFA applications require an electronic approval from the head of your sponsoring organization. You will need the name, title, and email address of this person to submit the application. Non-Federal applicants for EMI courses must use the appropriate State Training Officer (STO) as “Head of Organization”. STO contact information can be found here <https://www.firstrespondertraining.gov/frts/statecontacts>
  - For NYS, the STO is:  
Rebecca Wilburn  
State Training Officer/Chief Training and Exercises  
[rebecca.wilburn@dhses.ny.gov](mailto:rebecca.wilburn@dhses.ny.gov)

## National Center for Disaster Preparedness (NCDP)

The National Center for Disaster Preparedness, through its FEMA training grants, will be offering the following *free* upcoming trainings.

### Live Virtual Learning (September - November 2023)

The training hosts are in the locations below; learners in other FEMA regions are welcome to attend.

- **November 8 and 15, 2023 (two-parts) - Florida, FEMA Region 4**
  - [PER-409-V: Pandemic Planning – Mental Health and Behavior Health](#)

### Instructor-led In-Person Learning (September - October 2023)

The training hosts are in the locations below; however, learners throughout the FEMA regions are also welcome to attend.

- **October 26, 2023 - Rhode Island, FEMA Region 1**
  - [MGT-477: Roles for State, Tribal, and Territorial Governments in the Implementation of Disaster Housing Programs](#)

### Pandemic Planning Training is Available for Scheduling

Our newest course, [MGT-488: Pandemic Planning - Emergency Management and Public Health Coordination](#), has just been certified by FEMA. This instructor-led, management-level course will provide participants with an understanding of how emergency management and public health/medical agencies can coordinate during pandemics and other public health emergencies. The course will review the roles and responsibilities of federal, state, local, tribal, territorial governments, and private sector entities during pandemics. An overview of the National Disaster Medical System (NDMS) will also be provided. The goal of the training is to provide participants with ways to increase coordination between agencies so that they are more prepared during a public health emergency.

**NCDP is looking for training hosts in all ten FEMA Regions.** These trainings are *free* and sponsored through a training grant from FEMA. Please contact us to learn more at [ncdptraining@columbia.edu](mailto:ncdptraining@columbia.edu).
