## Faculty Governance

## *Faculty Governance*

Dear Faculty,

I would like to briefly update you on the Faculty Council activities. At our 1/23 meeting, we established the Voluntary Faculty Task Force (VFTF). The VFTF is charged with providing recommendations on how to better recruit, retain, and recognize Voluntary Faculty. We hope to hear from the VFTF at the Annual Faculty meeting in May.

The Faculty Council also established the Faculty Engagement Task Force (FETF). The FETF is charged with providing recommendation on to how to better recruit, retain, and recognize Faculty into Faculty Governance. The FETF will begin its work soon.

The February Faculty Forum was a successful presentation from the Office of Diversity and Inclusion. Please join us on April 24 at noon in the Alumni Auditorium for the next Faculty Forum with Eric Smith, who will present on the budget process.

Given the current political environment, I would like to remind you that activities as public officers of the state must remain apolitical, including using resources such as GroupWise email to endorse any political viewpoints. Our personal activities, however, can be political as we as individuals see fit, as long as we do not use our state-issued titles.

We can, as state officers, however, advocate for our patients and students!

Sincerely,  
Jay Brenner, MD  
Chair, Faculty Council

## In Memoriam

## *In Memoriam*

**Dennis L. Bogin, PhD, 70**, passed away peacefully at Upstate's University Hospital on March 9, 2017 after a brief illness. Dr. Bogin was a practicing Clinical Psychologist for 40 years. He trained at Syracuse University and SUNY Upstate Medical University. He was a Clinical Professor of Psychiatry at Upstate where he taught, supervised trainees, and saw patients since 1980. Over a long and distinguished career he helped train generations of psychology interns and psychiatry residents as well as nurses and social workers. He had previously held positions as Clinical Supervisor of Psychological Services at Fairmount Children's Center and as Director of Psychology Training at the Syracuse VA. He had a longstanding interest in ethical issues related to the practice of psychology, had been chair of the Central New York Psychological Association (CNYPA) Ethics Committee and was a long-term member of the New York State Psychological Association's Committee on Ethical Practice. A deep and integrative thinker, he was ever generous with his time and knowledge and always welcomed discussion about theory, philosophy, compassionate patient care, and music.
