
Release of Employment-related Health Information

Your employee health information may be requested by other health facilities where clinical training takes place to meet New York State Health Code (Title 10, Part 405.3) requirements. In an effort to accomplish this in a timely manner, you are requested to sign this release, which will allow requested information to be released to these training sites prior to your assignment. This information may consist of documentation of your physical exam, annual health assessments, tuberculosis surveillance, and immunizations.

I authorize Employee/Student Health to release my employment-related health information to affiliated clinical sites, upon request, when required for clinical training over the course of my residency training at Upstate Medical University.

Print Name
