Our Nuclear Medicine camera Downtown is currently out of service due to water exposure from a leaky pipe. Nuclear Medicine has been asked to suspend operations until some repairs are made and the area is cleared by Infection Control. We anticipate that we will be back in operation no later than Tuesday of next week, hopefully sooner. Until that time we are working with Community Campus Nuclear Medicine, 550 Harrison Nuclear Medicine and Crouse Hospital to provide services to both our inpatients and outpatients. Please contact the Nuclear Medicine Department at [315-464-6506](tel:315-464-6506) to determine the best option to meet the needs of your patients. We sincerely apologize for the inconvenience and will work diligently to restore Downtown Nuclear Medicine service as soon as possible.
