

## Doctors Day 2023

On behalf of Upstate Nursing, I would like to wish all of you Happy Doctors' Day!

Caring, kind, compassionate...

Collaborators, educators, leaders...

Friends, colleagues, teammates...

It's hard to describe all that you do and all that you contribute to our patients and our incredible Upstate team. We are lucky to be able to partner with you to provide care for those most in need, the sickest, and the most critically injured across all of Central New York and beyond.

Your skill and expertise draw patients from all across the region to seek care with us at Upstate. It takes special people to do this work, it is hard, stressful, and at times overwhelming, especially now.

Thank you for choosing to work here at Upstate, for choosing to help the people of Central New York, and for choosing to collaborate with Upstate Nursing to deliver the region's best care.

You are exceptional and we appreciate you every day!

Scott

Scott Jessie MSN, MBA, RN, NEA-BC
