EPIC Resources

Applies to All Physicians

EPIC Informational We are approaching six months since the launching of EPIC at Upstate. While there have been many benefits to shifting to the electronic medical record, it is clear that there is ample room for improvement on the use of this tool. Over the coming weeks I will be discussing improvement opportunities in the management of problem lists, progress notes and discharge summaries. In addition, here are several helpful resources and hyperlinks for your EPIC use.

Care Everywhere

Epic's tool for sharing between Epic organizations. All inpatient and ambulatory providers have access to Care Everywhere. There are hundreds of Epic sites across the country using this functionality.

Transition of Care

As of July 22, Upstate now supports electronic transmission of the universally formatted Continuity of Care document when a patient transitions care to a non-Epic provider. http://epic.upstate.edu/intra/document/index.php?kword=transition+of+care&strrole=Providers&numcid=10&stage=1&submit=Search

Haiku and Canto

Epic's proprietary iPhone and iPad applications are currently available for all Upstate providers. Download the app and get started now!

Thrive

During the week of September 22, Epic and Upstate training resources will host a number of Thrive sessions for providers. The sessions focus on efficiency, system customization, and education regarding system best practices. The schedule and registration should be open in the next 2 weeks. Providers who attended the Ambulatory Thrive sessions last summer reported greater Epic satisfaction and a positive return on investment after attending the sessions.

Below is a Save the Date message from the EPIC Training Department regarding Provider Thrive sessions in September:

ALERT-Highest priority emergency communication; warrants immediate action or attention by the recipient. HIGH ADVISORY-High priority does not warrant immediate action but recipients should be aware.

ADVISORY-Provides very important information for a specific incident or situation that does not require immediate action.

UPDATES TO ALERTS AND ADVISORIES-Provides updated information regarding an incident or situation; unlikely to require immediate action.

INFORMATIONAL MESSAGE-Provides timely information, important for review or serves as a reminder for an action that should be taken.
