12:15-1:15 p.m.

Room 2231

Weiskotten Hall

Upstate Medical University campus

766 Irving Ave.

Syracuse, NY

Presented by:

Christopher P. Morley, PhD

- Vice Chair for Research, Department of Family Medicine
- Associate Professor, Family Medicine, Public Health & Psychiatry
- Director, Central Region Office, New York State AHEC System
- SUNY Upstate Medical University
- Courtesy Appointment - Associate Professor, Public Administration
- Maxwell School of Citizenship & Public Affairs, Syracuse University

WHO SHOULD ATTEND

- ◆ Public health professionals
- ◆ Physicians
- ◆ Nurses
- ◆ Physician assistants
- ◆ Nurse practitioners
- ◆ Students
- ◆ Anyone interested in public health, community health, and prevention.

OBJECTIVES

At the conclusion of Dr. Morley's talk, participants will be able to discuss:

- ◆ Potential sources of bias affecting estimates of disease prevalence;
- ◆ Probable causes of bias specific to estimates of ADHD prevalence;
- ◆ Factorial survey quasi-experimental design.

The presentation is free and open to the public. For those who can't attend in person, register for our webinar at:
