Description

Dr. Cifra has clinical and research interests in eating disorders that stem from her time studying public health at Upstate Medical University. Specifically, she is interested in qualitative research in the field of eating disorders and clinician education about the detection and prevention of these diseases.

This talk will include information regarding public health principles relevant to eating disorders, disordered eating, and weight gain. A discussion of past successes, current challenges and future opportunities will be included.

This talk is also provided free via webinar! Attend our Grand Rounds from the comfort of your office or home. To register, go to: <https://attendee.gotowebinar.com/register/2497539939470692611> (copy & paste link)
