

**Rotation Request for Observership
Department of Pathology, Upstate Medical University**

Please rank the following rotations in order of interest. Rotations will be assigned on a first come, first serve basis. We ask that you rank them all as it is impossible to determine in advance how many requests we will have for each time period. Failure to rank all rotations will result in the rejection of your application.

The further in advance you apply, the more likely your top choices will be able to accommodate you. If you are applying for more than one rotation, please specify if you would like them all in the same division or not. If you want them in different divisions, we will try to accommodate you according to your ranking preferences. Though your preferences are taken into consideration, please note that there is no guarantee that we can accommodate them accordingly.

As a reminder, all rotations are assigned in two-week blocks.

Please provide your dates of interest and whether or not you have flexibility on final dates.

*******Please note that once dates are confirmed, they cannot be changed without a new application and associated application fee.

Name of Applicant: _____

Dates Available to Rotate: _____ **Flexibility:** Y or N
