

CANNABIS

PRODUCT SAFETY INFORMATION

IMPORTANT FACTS ON CANNABIS EDIBLES

1 Edible products can look like candy, baked goods or drinks.

2 Symptoms are delayed after swallowing.

3 Children exposed to cannabis may experience trouble walking, sleepiness, difficulty waking up, and trouble breathing.

Call the Upstate New York Poison Center at **1-800-222-1222** right away if you think a child has swallowed a cannabis product. **Do not wait for symptoms to appear.**

SAFE STORAGE PLAN FOR CANNABIS PRODUCTS

1 Keep cannabis products up high, out of sight and reach of children and pets. Consider using a lock box.

2 Store cannabis products in their original containers and keep the label.

3 Keep them apart from all other household items. Store in a separate cabinet or a container in a refrigerator is best.

4 Encourage visitors to safely store products out of sight of children.

5 Make a list of cannabis products in your home. This can help with medical treatment in case of poisoning.
