

# POISONS IN THE HOME

Below is a list of poisonous products that are found in most houses. Put the number of the room in which you would find each poisonous product on the line in front of it.

- |                      |                              |
|----------------------|------------------------------|
| <input type="text"/> | laundry detergent            |
| <input type="text"/> | windshield washer fluid      |
| <input type="text"/> | perfume, cologne, aftershave |
| <input type="text"/> | mouthwash                    |
| <input type="text"/> | hand sanitizer               |
| <input type="text"/> | nail polish & remover        |
| <input type="text"/> | alcoholic beverages          |
| <input type="text"/> | medicine                     |
| <input type="text"/> | cigarettes                   |
| <input type="text"/> | deodorant                    |
| <input type="text"/> | antifreeze                   |
