

### EPIC SYSTEM UPDATE

## Overview of Feature / Changes

**Effective 10/15/2023:** A warning in the Order Composer now helps verify that an order has the right start date when a provider chooses to start an order tomorrow and the current time is between midnight and 5am. To help prevent delays in patient care, use the quick buttons to ensure the order starts on the right day.

**Note:** The warning in the Order Composer **will not populate if the order defaults with a start time of tomorrow.**

### [Updated Content](#)

Frequency: DAILY

**⚠ Confirm Start Date**  
The order's start date is set to tomorrow. It has recently passed midnight, did you mean to start the order Friday 7/7 or Saturday 7/8?

Starting: 7/8/2023

For:

First Dose:

First Dose: Tomorrow 0900    Final Dose: Until Discontinued

07/08 07/09 07/10 07/11 ...
