

EPIC SYSTEM UPDATE

Overview of Feature / Changes

Effective January 24, 2024: A new *procedure-specific field* and *line placement verification field* have been added to the Notewriter template for the **Central Line Bedside Procedure** note. Complete all other information as appropriate.

New Field

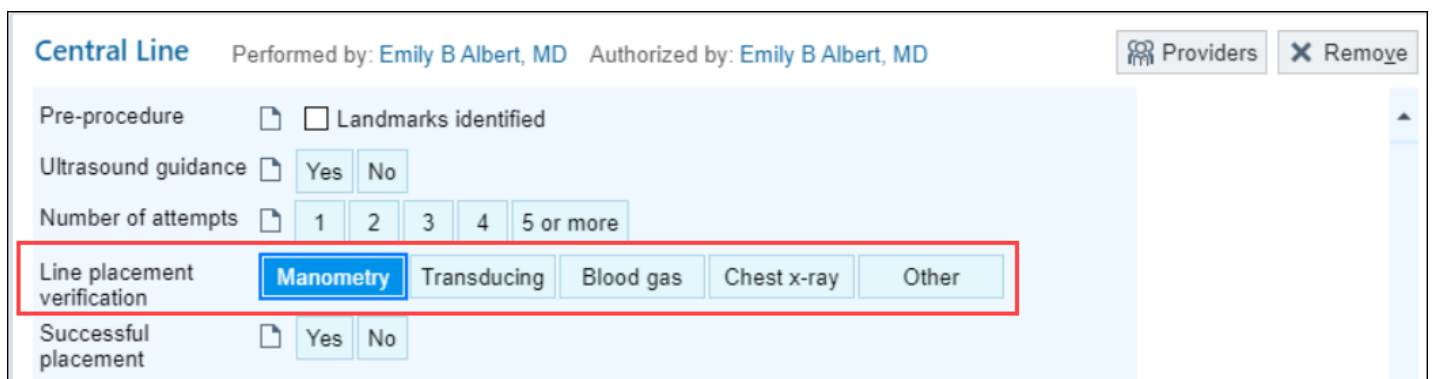

- At the beginning of the template, select the appropriate **Procedure**.

The screenshot shows the 'Central Line' procedure note template. At the top, it says 'Performed by: Emily B Albert, MD' and 'Authorized by: Emily B Albert, MD'. Below this is a note: 'If documentation here pertains to specific wounds, you can link it directly to these wounds.' The 'Procedure' dropdown menu is highlighted with a red box and a magnifying glass icon. The dropdown list includes: Name, PA Line, CVC Single Lumen, CVC Double Lumen, CVC Triple Lumen, CVC Quad Lumen, IVTM, Trauma Line, and Introducer. Other fields visible include 'Date/Time' (1/19/20), 'Universal Protocol', 'Verbal consent obtained?' (Yes/No), 'Risks and benefits' (Emergent situation checkbox), 'Consent given by' (spouse, power of attorney), and 'Patient states understanding of procedure being performed'.

New Field

- Further down in the template, select the appropriate response for **Line placement verification**.

The screenshot shows the 'Central Line' procedure note template. At the top, it says 'Performed by: Emily B Albert, MD' and 'Authorized by: Emily B Albert, MD'. There are 'Providers' and 'Remove' buttons. Below this are fields for 'Pre-procedure' (Landmarks identified checkbox), 'Ultrasound guidance' (Yes/No), and 'Number of attempts' (1, 2, 3, 4, 5 or more). The 'Line placement verification' field is highlighted with a red box and contains buttons for 'Manometry', 'Transducing', 'Blood gas', 'Chest x-ray', and 'Other'. Below this is the 'Successful placement' field (Yes/No).
