

1/7/21 – UPDATE Return to Campus

Hello again,

Since my email yesterday, I have heard from several students with concerns about our plan to return to in-person instruction. I also have received emails from students who are excited about returning to at least some in-person instruction.

I am emailing now to let you know that we hear your concerns. We have not yet worked out all the details, but in response, we are putting together a hybrid plan so that students who want to stay entirely remote for a longer period (at least through January 31, and possibly longer, depending on the course of the pandemic), can do so. Students who want to return to campus for some in-person instruction, for example in gross anatomy, would be able to do so.

I will email you, hopefully later today, when I have more details.

We also anticipate hearing shortly that MS1 and MS2 students who are on campus will be eligible to receive the vaccine. As soon as we get confirmation of that, we will let you know.

Thank you again for your patience.

Dr. Lesperance
