

### **3/26/2020 – MS4 Update**

Hello all,

You were alerted yesterday that student clinical rotations now are suspended until April 15, 2020. That means that students cannot take electives in block 11 that involve patient contact.

Anyone still registered for a block 11 elective in a clinical setting needs to make other arrangements immediately. Please contact Susan Anderson in the UME office for assistance.

Drs. Mason and Lesperance
