

**5/18/2020 – Announcement to class of 2021: COVID Essentials required training**

Dear Students,

Before your first day of in-person activities (May 26 for most of the 4th year students), there is a required training module that all students from all colleges at SUNY Upstate will need to complete on Blackboard called “COVID Essentials”. We expect it will take about 1 hour to go through the material and complete the attestation/quiz at the end. You will be enrolled in this course automatically and will find it in Blackboard as COM-COV-020: COVID Essentials.

The 1-credit COVID elective course is separate from this and still under development. More information about that course to come later.

Thank you,  
Matthew D. Mason, M.D.
